What it takes to make Better Seed

It isn't higher prices that make one Hybrid superior to another. There are some dealers and agents who would like to have you believe that is true. The real reasons are: 1. The quality and the characteristics of the inbreds used in the crossing process. 2. The degree of care taken in making the crosses. 3. The care used in harvesting, drying and grading the seed.

Hybrids for Yields and Quality

Berry's Hybrids are built from the leading Inbred lines that have been developed by U. S. Govt. and State departments of Agriculture. This gives us the best that the nations finest research organizations have discovered. The crosses in our Hybrids combine Inbreds that make big yields and high quality. Our basic seed stock used in our production are secured from experts whose integrity is unquestioned, thus getting the purest seed obtainable. Every step from there on is carefully supervised. Planting, isolation, detasseling, harvesting and drying.

Excellent Grading Process

Our grading plant first separates kernels according to thickness, next according to width. Then it goes

through a length grader and then over a special machine that separates kernels of equal size by weight, thus removing light weight kernels. Whether you buy flat or round grain they are all graded for accurate planting and all guaranteed of high germination. See page 5.

Our seed comes to you treated with a chemical dust. This is very effective in killing disease organisms that might attack your seed, especially during cool damp weather after planting.

Real Savings at Berry's Prices

We could charge \$7.00, \$8.00 or \$9.00 per bushel but that would not make our seed any better. Why pay anyone more than Berry's low price? We believe our varieties to be tops and the experience of our customers bears this out. Grow Berry's Hybrids this year.

BERRY'S 613

BERRY'S 615

110 to 112 Day Maturity

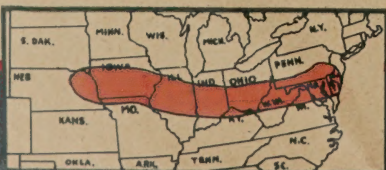

Single Ear, Deep Grain—Fine Feed

A beautiful Hybrid. Starts off with a bang after planting, making early cultivation easy. An abundance of vigorous dark green foliage borne on stiff, strong stalks. Pretty as a picture while growing and it yields as fine as it looks. The big single ears are borne at medium height. A fine corn for either hand or machine picking. The husks on the ear dries while stalks are still green, thus enabling the ear to make its fullest development. The kernels are deep and golden yellow in color. It is not a hard, flinty corn. Contains sufficient soft stock so all kinds of livestock can eat the grain readily but is not so starchy as to impair its high feeding value.

This Hybrid is resistant to drought, chinch bugs and disease. It is adapted to a wide range of soils. We consider it one of the heaviest yielders obtainable on rich land. Naturally on thin land it will produce less but compared with other kinds on the same soil it will prove its superior productiveness.

This variety is similar to U. S. 13 but earlier in maturity and can be grown well into north central Iowa and east and west in sections having similar conditions. Also grown in southern Iowa and sections further south when somewhat earlier maturity is desired.

In its maturity class we do not believe there is a Hybrid that will beat it for yields, quality and all around satisfactory performance and profit. See page 5 for information on Round Grain seed.

About 105 to 110 Day Maturity

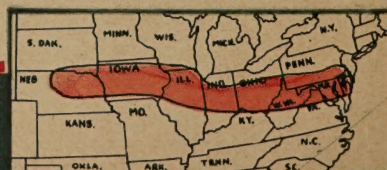

Single Ear. Fine Quality. Heavy Yields

A great many of our customers need a corn of fairly early maturity and, of course, still want top yields and quality. This variety will fill that need exactly for farmers living in sections similar to that from northern Iowa down south for about $\frac{3}{4}$ the way through the state. This takes in parts of Nebraska and goes east through Illinois, Indiana, Ohio, Pennsylvania and West Virginia.

Perhaps you may be acquainted with the Iowa 939 which is very widely grown throughout this area. Berry's 615 is made up of three of the same inbreds. By changing one inbred we have made a corn which has a longer ear and a straighter one. It is superior in strength of stalk and root and there is less ear drop-page.

Thus the good, sound qualities of 939 have been retained and these superior factors added. If there is much difference between varieties as to adaptability to soil types we would consider this to be well adapted to thinner soils. However, it is also excellent for better land and responds to increased fertility by really rolling out the bushels. Because of its earlier maturity it is an excellent selection on land of medium to low fertility. In sections subject to heat and drought this earlier maturity is also a big advantage.

The grain is a rich yellow with a reddish tinge on the sides of the kernels. They are medium rough, easily eaten by live stock. Stalks are strong. Ears medium long. Fine for hand or machine picking. Good drought resistance and a very heavy yield.

A Heavy Yielder

About 110 to 115 Day Type

When it comes to bushels of corn per acre, Berry's Illinois 960 is one of the best. You can look through state yield tests, where it is extensively grown and you will see how it rates. In Illinois it was top for a four-year average in the north central, central and south central sections. It showed adaptability to a wide range of soils from high to low fertility.

Our customers write us too, telling about their yields. Richard Bufier, of Oxford, Ohio, sent in some photos and a report on yield. He says he checked 960 against many other Hybrids in every way and 960 proved better in every way. It outyielded U. S. 13 for him as much as 30%. From Arkansas and Kentucky on east to Maryland and Penn. we have these expressions of satisfaction.

Description

Good solid ears, generally shelling out more bushels per load than any other. Grain medium yellow color, not flinty. Stalks a little taller than the average. A tendency to make two ears per stalk especially on thin planting. Does well under conditions similar to southern $\frac{1}{2}$ to $\frac{1}{2}$ of Iowa and in sections south. Has done fine in Missouri being top among 65 Hybrids making 112.2 bu. per acre. It was tops in eastern Nebraska and Kentucky, Ohio, Indiana, and other states report good results.

There is not much State Certified 960 seed left to sell at the time this catalog goes to press so don't delay ordering. No more this year after present stocks are sold.

Where we suggest planting Illinois 960

600 BU.
FLAT GRAIN
400 BU.
ROUND GR.

A Prize Winner

About 108-110 Day Type
A Single Ear Variety

A fine single eared Hybrid that is a great favorite with those who have grown it. It contains two of the same inbreds used in making U. S. 13. The ears are not quite as long as U. S. 13 but generally larger in circumference. Many ears have 20 rows of kernels. The grain is of good depth and medium rough. Beautiful golden yellow in color.

It is a good pollen producer giving assurance of good fertilization and well filled uniform ears. The ears are well protected by husks. Retains its ears well and is an excellent variety for machine as well as hand picking. It has a strong stalk. In yield it ranks with the best being a heavy producer on a wide range of soils.

Widely Adapted

It is a fine variety for conditions similar to north and south central Iowa, eastern Nebraska and in Illinois, Indiana, Penn., etc. It is used in southern Iowa, Missouri and other southern sections for an early feeding corn or for late planting. You really have to see this corn growing and harvest a crop to appreciate its quality. Buy Berry's Illinois 751 State Certified seed while it is available and get a quality product.

A Winner at Corn Shows

Even in southern Iowa we have many customers who pick it as their main crop variety. It has won first prize in many local corn shows this fall and took sweepstakes prizes over all other Hybrids. When you have a Hybrid that will do that down here among later Hybrids think how it can produce in the sections to which it is best adapted, that is north central and south central Iowa and similar sections. Make no mistake—a this is a dandy.

BUY EARLY

Hybrid seed corn supplies are relatively short. We advise our customers to mail orders early and be sure of getting exactly what you want.

BERRY'S 405

Our Earliest Hybrid—A Heavy Yielder

About 97 to 102 Day

We have taken four outstanding inbreds to make this Hybrid. These are lines that have high factors for big yields, fine grain quality, strong stalks of good height and early maturity. This combination makes a Hybrid that we consider second to none in its maturity class. We do not know of any that will make larger ears, deeper grains or better stalks.

This corn starts fast in the spring and matures early in the fall. The strong stalks under average conditions grow around 9 feet and they are quite leafy. While it is grown chiefly for grain this leafy growth makes it well adapted for ensilage. The length of the ear and depth of the grain is extra good for such early maturity. That makes it produce exceptionally well.

This 405 has proven even a better yielder than some of the later maturing kinds. In actual tests it outyielded them by a big margin. It husks easily by hand and is good for machine picking. It is also very good for shredding. We know this is just the kind of corn many farmers are looking for and we recommend it highly to those wanting a top notch early maturing Hybrid. It is not flinty and the grain has fine feeding value.

We consider this corn adapted to sections having conditions similar to that from southern Minnesota to central Iowa. This would include southern Wisconsin and Michigan and considerable areas in states of Colorado, Nebraska, South Dakota, Illinois, Indiana, Ohio, Pennsylvania, New York and West Virginia. It can go farther north for ensilage and farther south when an early maturing variety is desired. It is adapted to a wide range of soils from high to low fertility and has done remarkably well on muck land.

You should find this a most profitable variety to grow. The performance of this corn last year has been so fine we wish we had grown double the acreage of seed. Late buyers may not be able to get this seed so in order to avoid disappointment we suggest you buy now.

ROUND GRAIN

TWO TOP RATERS

BERRY'S 813

U.S.-13

About 120 Day Type
Contains 5 Inbreds

If you could only hear the enthusiastic reports from farmers who have grown this great Hybrid we wouldn't have to say a word about it. The big long ears, the deep golden kernels, the large strong stalks, the fine feeding qualities and the tremendous yields are the things they talk about. Many of these farmers grew more than one Hybrid and to date we have found none who reported he had anything that outyielded or yielded as much as our 813.

We especially urge you to plant some of this variety because we feel confident you will find it to be one of the heaviest yielding and most satisfactory Hybrids grown.

In test plantings we have the following reports on "witnessed" yields. 190.36 bu. per acre at 15% moisture, Andrew K. Hovden, Decorah, Iowa, 169.05 bu., U. S. Newcomer, Auburn, Indiana; 146.57 bu. from Green City, Iowa; 137.28 bu., Calmar, Iowa; 131.64 bu. Lakewood, Illinois. We do not claim these top yields for general farming operations but they do show the enormous capacity of this variety to yield. It is far above the average.

This corn is U. S. 13 complete. Nothing has been taken from it but something has been added. An extra later pollinating Inbred has been incorporated. Our purpose is to provide additional pollen to assure fertilization of the ears in event the main pollen crop shall be burned by excessively high temperatures.

Thus there is provided an extra assurance of better filled ears. This also has a tendency to lengthen the ears and it appears to reduce ear droppage. Thus you get U. S. 13—Plus these added factors. It is truly a great Hybrid.

Characteristics

One large ear per stalk. Easy to husk by hand or machine. Deep grains of high feeding value. Enough soft starch so live stock will eat it readily but not a real starchy kernel. Dark green foliage. Husks dry before stalk matures. Strong stalks. A vigorous grower. An exceptional drought resister. Resistant to chinch bugs and disease. High shelling percentage. A fine feeding corn. A longer pollinating period assuring better filled ears under adverse conditions. Adapted to a wide range of soils and suitable wherever U. S. 13 can be grown. Be sure to grow some this year.

Big Single Ear
Deep Soft Grain
Extra Heavy Yielder
About 120 Day Type

This great variety has made a wonderful record in yield from Nebraska to Connecticut and Delaware and south into Kentucky and other states. It is a strong stalked hybrid bearing a large well shaped ear. Its rich golden kernels are large, deep and soft enough to be readily eaten by all live stock. Grain looks like the old open pollinated corn but far excels and outyields it. It stands up well, is resistant to drought, chinch bugs and disease. Has fine dark green foliage. It is a vigorous grower and is one of the most profitable and productive of hybrid varieties.

Yield Records

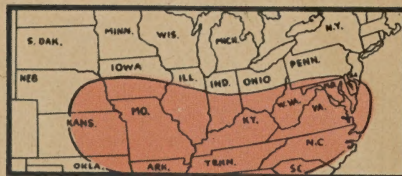

These are some recorded yields of official state tests: Iowa 108.4 bu. per acre, Ohio 123.0 bu., Nebraska 106 bu., Pennsylvania 97.7, Indiana 103.2, Missouri 121 bu., Illinois 112.6, in Maryland 134% over check variety. In Kentucky only a fraction of a bushel under first place and first in Connecticut in the late series test. This also shows the wide area to which this Hybrid is adapted. While ears shorten somewhat on thin soil it still will outyield almost any other variety thus indicating its adaptability to a wide range of soils.

Character of Berry's U. S. 13

All U. S. 13 seed is not equal in yielding ability. The quality of the foundation stock, the care used in crossing and processing may cause yields to vary from 10 to 15 bu. per acre. That is to say U. S. 13 seed produced by one grower may outyield U. S. 13 from another grower by that many bushel. We do not know where to obtain finer seed than we used in producing our seed stock and in crossing and processing we use great care so as to make Berry's U. S. 13 the best.

Most Seed Corn Companies sell U. S. 13 under a different name at much higher prices. A change of name does not change character; a higher price will not improve the quality. We will supply you with high quality U. S. 13 at a genuine saving in cost. Please order early and get just what you want.

All varieties are made into six grades. Medium, Medium Large and Large in both Flat and Round grains. Specify which you prefer. Each lot graded for accurate planting. Round grades often do best. See page 5.

SAVE MONEY ON BERRY'S HYBRIDS

IOWA 939

A hybrid with a wonderful record. Won the Banner Trophy two years in succession as the corn with the highest performance score in the official Iowa State Yield Contest. Adapted to a very wide range of soils and climate. Widely grown from Nebraska on east to the coast and from northern Iowa south to the Ohio river. Especially adapted as a main crop corn to sections similar to the northern half of Iowa and to sections where less fertile soil types and dry spells require a corn that will mature in about 105 to 110 days.

It is a single ear hybrid. Medium rough type Kernels thicker than the average and soft so they can be readily eaten. Color deep yellow with reddish tinge on sides of kernels. In Nebraska it was the best yielder for a 6 year period. Colorado official yield averaged 132.1 bu. per acre. for 3 years. Top early hybrid in Ohio. Illinois yield 107.8 bu. Top early hybrid in West Va. and New York. Shortly before going to press Claude Nash of Stevensville, Michigan, writes, "I have been growing your hybrid corn for 3 years and your 939 is excellent." He sends a photo of himself and a write-up by his local paper showing a yield of 149 bu. per acre as found by his County Agent. You can't go wrong with this time tested hybrid.

FLAT
\$5.50 BU.
ROUND
\$3.50 BU.

Round Grades for Best Yields

Our tests show that medium and large round kernels make the strongest stalks and tend to be superior to average flat grades in yield per acre. This apparently is due to the greater supply of plant food in the kernel. This helps give the plant a better start. This seems particularly true with unfavorable conditions at planting time. Our tests also indicate that all round grains seem to germinate better when cool weather follows planting. If your planter does not have proper plates they can be secured at reasonable cost. The saving on one bushel will more than pay for the plates. Get started planting round grains. You'll like it—Save Money—Get Big Yields.

BERRY'S U.S. 35

About 110 Day Type

Contains two inbreds that are in U. S. 13 and two that are in Ill. 960. This makes a remarkable variety. Will go farther north than U. S. 13. Makes a bigger ear than 960. More of a single ear type with deeper grains and strong stalk. Adapted to similar sections. If you are too far north for U. S. 13 or want earlier maturity this is a good selection. Some of our customers consider U. S. 35 superior to any other variety. Our seed is well graded and high germinating. We save you money on quality hybrid.

FLAT
\$5.50 BU.
ROUND
\$3.50 BU.

HYBRIDS

for Ensilage

\$2.25
PER BU.

Farmers from many sections and especially from Wisconsin, Minnesota, Michigan and other states where a lot of corn is planted for ensilage have said, "we would like to put in hybrids for ensilage but the seed is so expensive." They recognize the extra grain yield and the stronger stalks as a big factor in ensilage corn as well as for mature grain. Some have used hybrid seed in spite of materially higher seed costs.

Now you can plant hybrid as cheap or cheaper than open pollinated corn. We have some special grades of hybrids in the round grain that are admirably suited for ensilage planting. They will grow just as well and produce just as much as flat grain corn. In fact we consider it is better for early planting and that it will withstand more unfavorable weather in the spring. You might have to get plates for planting but you get the corn at a big discount.

You can select from any of the varieties on pages 3, 4 or 5. Just state variety wanted and that it is for ensilage planting and figure it at only \$2.25 per bu. Seed is graded for accurate planting and is of guaranteed high germination.

BERRY'S GRADES and GUARANTEE

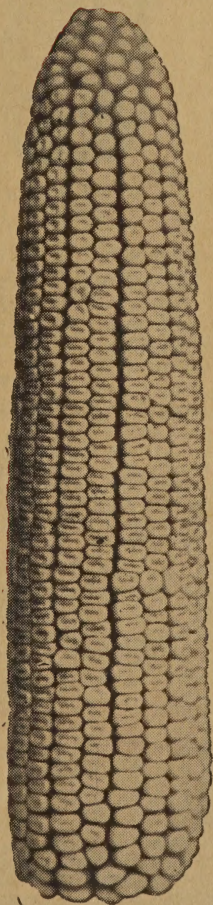

Our Hybrids Are Chemically Treated

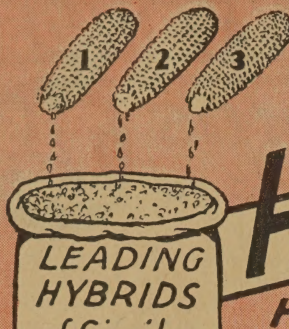

This seed is first hand sorted, then dried and shelled. Then it passes through six machines. First the extra large and extra small is removed. Then the kernels are graded for thickness, for width and for length. Next another special machine takes kernels of the same size and grades, then for weight to remove light or chaffy grains. The next step is the application of a chemical dust. This kills diseases that might be prevalent especially in a cold wet spring. We guarantee our seed to germinate 90% or better. It is generally 94 to 96%. You can have 30 days to make any test desired. Write for shipping instructions if you are not completely satisfied. We will promptly refund the purchase price plus freight.

BERRY'S ILL. 972

Contains three of the same inbreds used in making the Ill. 960 described on page 3. It is similar to it in many respects. Tests on the two planted at the same time show a little lower moisture in 972 indicating slightly earlier maturity. Has stronger stalks. Yields fully as well as 960 and is adapted to similar soil and seasonal conditions. We have only a limited supply of this variety at this time. For a good quality, heavy yielding variety you will find our Ill. 972 a very good selection.

FLAT
\$5.50 BU.

Berry's

Hi-Yield

HYBRID BLENDS

\$2²⁵ BU.
ROUND GRAIN
\$4⁵⁰ BU.
FLAT GRAIN

When we speak of a blend we mean a combination of different varieties of Hybrids. There is a very

definite reason for making these blends. Most Hybrids have a short pollinating period. If hot, dry weather happens to strike at that time considerable pollen will be killed and this will result in poorly filled ears and thus lower yields. By using two or three varieties mixed, which mature at about the same time and yet have slightly different pollinating dates, this danger is reduced. It gives greater assurance of well filled ears and bigger yields.

Big Savings

Berry's Hi-Yield Blends are made up of the varieties listed in this catalog. We realize that farmers generally are not accustomed to blends but we have so much confidence in the merits of these blends that we are making these up special and selling them at a very low price to get you started using them. Think of it only \$2.25 per bu. for the Round Grain which frequently produces the best yields. That is less than the price of open pollinated corn and far superior to it in performance. The Flat Grain at only \$4.50 per bu. which is way below the general price range for Hybrid Seed Corn. All of the varieties rank high in yield and quality. We take a back seat for no one on production.

Guaranteed Quality

We guarantee that you will be completely satisfied with the shipment you will receive. The corn has been tested and will germinate 90% or better. The seed is treated to give you added assurance of good stands even under unfavorable conditions after planting. The seed both Round and Flat is graded for accurate planting. After you receive your shipment you can take up to 30 days to test it for germination and do anything you wish to satisfy yourself that you have a great value. If, for any reason whatsoever, you are not thoroughly pleased, drop us a line. We will give you shipping instructions and promptly refund the money you paid—plus freight charges.

FLAT GRAIN

\$4.50 Per Bu.

This is also known as Edge Drop as it is to be planted with Edge Drop plates in the planter. This corn is put into three grades, Medium, Medium Large and Large. Each grade will plant accurately with the proper size plates such as generally come with corn planters. When no size is specified on the order we generally ship the Medium or Medium Large size which are the most popular.

Better Filled Ears

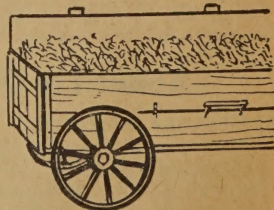

Improved Yields

In the average year any single Hybrid variety will pollinate very satisfactorily. It is during hot, dry spells that the blends are most outstanding. We have had reports from customers telling us that the blends or mixtures they made themselves almost doubled the yield of other single Hybrids and that they had by far the heaviest yielding fields in their neighborhood. Berry's Blends, therefore, are based on actual practical farm experience.

In making these blends we select varieties that are relatively close together in maturity as too wide a variation would result in mature and immature ears mixed in the field. Thus you can secure proper blends and secure this added assurance of big, well filled ears and bigger yields.

Early, Medium and Later

Early which will average around 100 days. **Medium** around 110 days and **Later** around 120 days. Please specify which of these blends you want. The Early Blend for sections requiring maturity similar to northern Iowa. Medium Blend for sections like central Iowa and Later for Southern Iowa and all points south. Some in the Later sections want Early Blends for early feeding and northern farmers may want Medium or Later Blend for ensilage. Available in both Round and Flat Grain.

Larger Yields

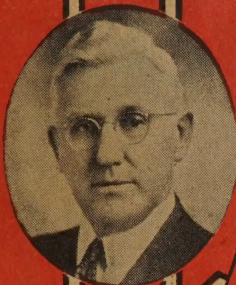

ROUND GRAIN

\$2.25 Per Bu.

Because of more plant food in the kernels Round Grains will often produce stronger, more vigorous plants and therefore better yields. Under cold conditions after planting, it usually shows better germination. Comes in 3 sizes, Medium, Medium Large and Large. All graded for accurate planting. If your planter does not have plates for round corn the cost of a set is more than paid for by the saving in cost. Make big savings and get fine heavy producing seed.

SAVE MONEY on QUALITY SEEDS

EVERY POUND **GUARANTEED** TO PLEASE

J. F. SINN
President
Berry Seed Company

A farmer by birth and early training. A man who has had 38 years of experience in the seed business. Recognized as one of the foremost men in the farm seed trade. He strives to give our customers better seed values.

He is always at your service and glad to help you with your seed problems.

He has something special for you on Hybrid Corn and low prices on all seeds.

Dear Friends:

Jan. 10, 1943

The United States has been in the war a little over a year, and business has been entirely upset and nothing is stable. The seed business is fortunate in being able to go ahead and transact business without too many handicaps, for seeds are the foundation of all crops and is one of the most essential of all industry.

Farmers are the most favored of all as the War Production Board appreciates that we must produce and produce to the limit of our ability. In order to do this, there are three most necessary essentials, that is labor, good land and the best seed. Again farmers have been extremely fortunate in being blessed with the best crops ever produced and obtaining the most money ever experienced for their production.

Seed crop production did not fare so well. Many of the crops were extremely short. Alfalfa was very short, also Sweet Clover, Alsike, Red Clover and Lespedeza while the grass seed crops were all very satisfactory with a few exceptions. Prices on Alfalfa seem high, but they are too low to permit a reasonable profit except to the producer. If you need legume crops such as Alfalfa, Clover, Alsike and Sweet Clover buy immediately on receipt of Catalog as we guarantee a savings of \$2.00 to \$5.00 a bushel on many of these items mentioned. We only have about half our normal supply of Alfalfa and do not know where to get more so don't delay buying.

We are fortunate in having a big crop of Hybrid Corn and all of the best varieties. There is nothing better in Hybrid Seed Corn than what we offer. Our new hybrid plant permits us to process Hybrid corn to the equal of any seed corn put out and you will find our prices from \$1.50 to \$2.50 a bushel lower. Study our Hybrid pages and get the best for your location. Quality guaranteed satisfactory or money refunded.

Garden seeds are short on many of the crops, but our supplies are ample on most varieties. We have made our prices very low as usual, as this is our policy. We must save you money otherwise we would not expect your business. Read our Garden and Nursery pages carefully and see the many bargains offered. Our Offense Garden Collection is one of the best.

This Catalog is our Victory issue and we have made it easier for you to help win the war by buying your seeds from the Berry Seed Company and the money you save put in Victory Saving Bonds.

I will look to you sending us your order and a big savings is guaranteed and complete satisfaction.

Yours for biggest values,

J. F. Sinn

Greens Fork, Ind.
Dear Sirs:
Have bought several thousand dollars worth of seed from you. Have always found them prompt and reliable and have saved myself and neighbors several hundred dollars, always obtained seed of high germination.
D. W. HARRIS

Springville, Iowa
Gentlemen:
The Marvellous Mixture of grass seed that I have been buying from you for several years is the best. I have been getting good returns for my money, and can heartily recommend to others desiring good seed.
Yours truly,
C. F. BUTLER

Mount Clare, W. Va.
Dear Sirs: I have been using your farm and garden seeds for some years and find them real money savers. Your descriptions and recommendations are accurate and reliable. Your courtesy and efficient service lead me to recommend you to all who wish to get the best seeds at a minimum cost. For purity and vitality your seeds are unsurpassed.
Truly yours, G. W. CONLEY

New Berlin, Ill.
Gentlemen:
I have been buying seeds from Berry's for 24 years. I have lately club ordered my seeds, including my farm, and my friends to order with me. I have bought over \$18,800 of seeds from you in one year. Not one farmer returned a bushel. Always better than expected. I always save from \$4.00 to \$7.00 per bushel by ordering from you. I find your World Brand the very best buy.
J. W. GERHARDT

Hummelstown, Pa.
Dear Sirs: I have found your seeds OK and you have saved me lots of money. Your Lot me wonderful results. I sent you a photo showing the fine big growth. I am well satisfied with all dealings I have had with you.
Yours truly,
DANIEL BEHRENS

LOWEST PRICES

from WORLD'S LARGEST SEED HOUSE SELLING DIRECT to YOU!

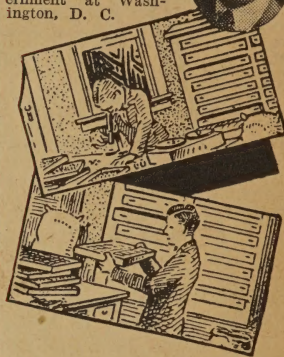

Our Clarinda plant and main offices are shown above and our Chicago storage location on the left. We are well equipped, financed and located to give excellent service, low prices and satisfactory quality.

TESTED QUALITY

Mr. L. C. Jorgensen is our analyst and has had 25 years of experience. He secured his training through U. S. Government at Washington, D. C.

New Federal Seed Law Gives Added Protection to Mail Order Buyers

A new Federal seed law requires that all seed shipments in interstate commerce be tagged in accordance with the laws of the state into which it is shipped in respect to any noxious weed seeds. In addition the purity and germination tests are to be given. Thus shipments of seed ordered by mail are required to give you truthful information and correct tests on all state and interstate shipments.

Prompt Service—Safe Arrival

We maintain shipping points at Clarinda and Chicago although correspondence and orders are all handled through Clarinda. We are organized to give you prompt service. Improved freight service gets seed to destination promptly. If on arrival of your shipment there is any sign of loss or damage just have your agent mark it on the freight bill. Send it to us and we will make prompt adjustment. Address all letters to Clarinda, Iowa. We have no office in Chicago.

If you want a receipted invoice ask for it on your order.

Service on Seeding Problems

Perhaps you may be undecided as to what you should sow. You may desire further information on some crops. Possibly you have a farming problem that is hard to solve. If so, write to us. We may be able to help you. Our secretary, Mr. Joe Faassen, has made quite a study of farm crops. He is always glad to help whenever he can. His services are at your disposal. Feel free to write at any time.

Cleaned Seed

The seed we sell our trade is not as it comes from the grower. It is cleaned and graded either by ourselves or direct through our buying connections. Seed cleaning and grading requires experience and equipment. Often it is necessary to run seed over different kinds of cleaners to get the desired results. Careful adjustments and expert operation are needed to do the best work. This applies also to grading for not all grades are of equal quality. The size and weight of berries as well as color enter into making grades. Our aim in cleaning or in buying cleaned seed is always to give the customer the greatest possible seed value at the price he wants to pay.

GUARANTEE

We guarantee that our prices are lowest, considering quality. If upon receipt of your order you are not entirely satisfied you can return it and your money, plus transportation charges, will be promptly refunded. Or you can keep it 60 days and have the seed tested in order to satisfy yourself that the quality is good and that you have saved money and secured a big bargain. Then if you are not pleased you can return it, and have all money, including freight paid, refunded. You must be satisfied and we guarantee to save you money.

We also guarantee to replace, free of charge, any garden or flower seed that fails to grow on account of poor germination. Our nursery stock is guaranteed to arrive in good live planting condition or it will be replaced free of charge. Our guarantee protects the buyer and is lived up to, so it means just what it says.

Thing to Do

Markets Strong—Buy Early

Unfavorable weather conditions last fall caused a considerable reduction in seed supplies. Alsike Clover is short. So is Red Clover. Alfalfa supply is very limited. Sweet Clover is again below normal. The government is buying Clover to ship abroad under the terms of the lend-lease act. All these things make for advancing markets. We strongly and sincerely urge our friends to buy grass, clover and alfalfa seeds early this year. Present prices will be protected as long as supplies last or until market advances make duplication of present values impossible.

You will find our prices in this book to save you big money for in many instances they are at wholesale levels. The savings to be made by buying direct from Berry this year are unusually large. See page 8 for our guarantee of satisfaction to you.

BERRY'S SEED GRADES

World Brand

This is our Extra Fancy grade. It is our purest and highest testing stock. For years it has been the choice of our most exacting and critical trade. We recommend this quality to those who demand the best and invite comparisons to any highest quality grade sold by any dealer.

Dealers Fancy

A high quality. Not quite as fine as the World Brand. It is still a very desirable grade and will pass for the best in many cases.

Planet Brand

This extra choice grade satisfies many customers. Not quite so bright and uniform but they report good seeding at low cost.

Square Brand

Our lowest priced grade. Smaller berried. A little lower germination but more seeds per pound, so it can perform well.

Special Lots

Some seed does not exactly fit into a regular grade or is secured for special prices. These are listed by name such as Lot Leader Red Clover, Honest John Alfalfa, etc.

WHY OUR PRICES ARE LOWER

Farmers write to us every once in awhile asking, "How is it that you can sell good seed for so much less money than we have to pay for it here at home? Your qualities are just as good or better and your prices are way lower."

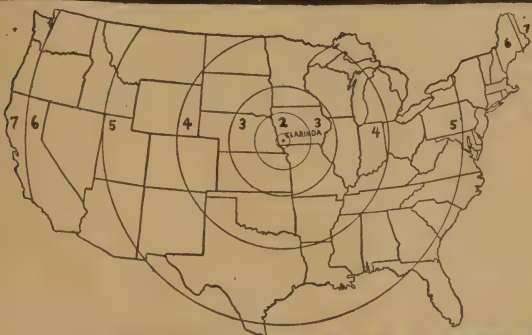

Let us point out a few of the factors that make this possible. In the first place consider our financial strength. Our entire organization handled \$4,000,000.00 worth of seeds last year. That reflects a strong buying power. This permits us to buy to advantage as we can lay the cash on the counter.

It is also true that an organization having a large volume of sales can generally operate on a smaller margin of profit. Which helps to cut prices.

A well equipped plant, expertly operated, also helps to reduce costs and lower selling prices.

The great bulk of farm seeds passes from growers to wholesalers who may pass it on to jobbers who sell to retailers and they in turn supply the farmer. We buy the great bulk of our stocks direct like most wholesalers do and then sell direct-to-you. It doesn't take much figuring to see reasons here for our prices being lower.

We want to give you these thoughts because some people think that because our prices are so much lower the quality must be poorer. It would not have been possible to build the world's largest seed house selling direct to farmers if we did not give more real seed value for the money.

Parcel Post Rates

Any package up to 70 lbs. in weight and not exceeding 100 inches in length and girth combined can be sent by parcel post. If you want anything shipped by parcel post that is not quoted post-paid be sure to remit to cover postage. First find the zone you are in and then figure the amount of postage from the following table:

	1st Lb. Costs	All Additional Pounds
Zone 1	8c	1c
Zone 2	8c	1c
Zone 3	9c	2c
Zone 4	10c	3½c
Zone 5	11c	5½c
Zone 6	12c	7c

For example, a 10-lb. package to the 3rd zone costs 9c for the first pound and 2c a pound for the next nine pounds. 9 + 18 = 27c total. For short distances or for small packages parcel post is cheaper. Otherwise express. Freight, of course, is cheapest excepting on packages of 35 lbs. or less.

HOW TO ORDER

It is easy to order by mail. Use our regular order blank form if you have one. If not, you can use any kind of paper or we will send you order blanks.

Give full name and complete address. Tell where you want the seed shipped to and whether to ship by freight, express or parcel post (see to left for postage rates). If your freight station is different from post office be sure to say so. In case there is no agent at your freight station, then include freight charges in your remittance or let us ship to the nearest station where there is an agent.

Figure up the cost of your order according to latest catalog or price list. If you want farm seeds shipped from Chicago remit Chicago prices as shown in catalog or price list.

Send your remittance with your order. You can send this in the form of a Postal or Express Money order, Bank draft or your own personal check on any going bank where you have funds to cover. Do not send stamps or coin when convenient to remit otherwise. We advise registering letters containing currency.

Address all mail and orders to Clarinda. We have no office at Chicago. Write to Clarinda only. If you want an A.A.A. receipt, ask for it on your order.

WILT RESISTANT LADAK ALFALFA

\$22⁵⁰-BU.

Ladak Alfalfa is recognized as the most desirable strain of Alfalfa. It is not only an extra hardy Alfalfa but greatly resistant against bacterial wilt which is causing so much damage in some sections. This Ladak is one of the biggest and best values in this catalog. The seed was grown on a Certified field and this seed is eligible for Certification. Shipped in sealed bags and will give affidavit if desired that it is true genuine Ladak of Northern Origin.

No seed should give better results. Carefully cleaned, free of all noxious weeds and extra good in purity and germination. Not the finest for color but extra fine quality at this low price. Our supply is limited, so order at once if you wish Genuine Ladak at this low figure. It will give you the best hardy strain of Wilt Resistant Alfalfa and it will pay you to grow it. This great value is another example of Berry's service to farmers. We feel very fortunate in being able to sell such seed at this low figure. Free Inoculation to those who buy two or more bushels promptly. We guarantee this to be a matchless value.

99¹/₄%
PURE

LOT MIDWEST HIGH GRADE ALFALFA HARDY

This type of alfalfa is used to quite a large extent in northern states like Wisconsin as well as throughout the corn-belt. It is Oklahoma-Kansas origin and seed of very fine quality. Beautiful color, high purity and strong germination. This seed should by no means be confused with far southern or southwestern seed. Lot Midwest is seed of hardy character, heavily productive and makes a satisfactory seeding under most conditions. It gives corn-belt quality at a very reasonable cost. Free inoculation with order for 2 bu. or more.

PURE

STATE CERTIFIED MIDLAND RED CLOVER

A new variety of Medium Red Clover developed by U. S. D. A. Will yield up to a ton per acre more than ordinary red clover. Stores more nitrogen in the soil and therefore is a better land builder. More disease resistant. Gives you better assurance of getting strong, vigorous, healthy stands. Be sure to grow some of this clover, for it will make you more money and give you greater satisfaction. Compare it with other clover you sow. Only Certified seed is considered genuine Midland. Our seed is Blue Tag—the finest quality.

CERTIFIED
ATLAS
SORGO**

COMPARING ATLAS GROWTH WITH HEGARI
SEE ALSO 2 FIELD PICTURES BELOW

HEGARI - 6 Foot

ATLAS SORGO

**THE HEAVIEST PRODUCING
SWEET SORGO**

See page 41 for Chicago prices

This is one of the most sensational forage crops ever developed. An enormous producer. Yielded up to 18.7 tons per acre, where corn yielded half as much. In dry seasons out produced corn 3 to 1. Nebraska and other states report it the heaviest forage producer.

A matchless drought resister. Corn if it is severely injured by drought will stop growing. Atlas will start again. In sections where drought completely dried up corn, Atlas remained green. Where grasshoppers almost completely wiped out a corn field an adjoining field of Sorgo was practically untouched.

Atlas makes a highly palatable and very nutritious feed. The juice is sweet and live stock, especially cattle, will leave most any kind of feed to get it. They thrive on it. In dry seasons farmers have brought their livestock through with nothing but this feed and had them fat and sleek in the spring. Makes wonderful ensilage.

State Certified or Grown from Certified Seed

There are many varieties of sweet sorgo but we consider Atlas the most profitable to grow. Compare the growth Atlas with Hegari as shown in the pictures on this page. All pictures were taken near Clarinda on the same day. The Hegari was on second bottom the Atlas on upland. Why grow a crop that grows 5 to 6 feet when you can get 10 to 12 feet. Atlas makes a leafy, sturdy growth. Very resistant against lodging. The white seed is very palatable.

The State Certified seed is priced above. The seed grown from Certified seed is 50c per bu. or \$1.00 per 100 cheaper. Both are high quality lots. Shipment guaranteed entirely satisfactory.

Atlas must have a warm seed bed. Drill it in with seeds 4 to 6 inches apart, 8 to 12 lbs. per acre are used for single row planting. Cut in fall a little before severe frost. Shock to cure.

BILLION DOLLAR GRASS

A QUICK GROWER AND HEAVY PRODUCER

See page 41 for Chicago Prices

This crop, also known as Japanese Millet, is a sensational producer. Yields of 26,000 to 50,000 lbs. of green feed per acre produced under favorable moisture conditions. Seed yields of 1000 to 2000 lbs. per acre. Also has made astonishing yields under dry conditions here in southern Iowa. See photo of seed field produced under dry conditions. It was the talk of the neighborhood. In Iowa, Missouri, Minnesota, Wisconsin and on east and up into New England states it has made big money making yields. No wonder these farmers like it. You too may find it one of the best profit makers on your farm. Make the acres you have in forage crops produce to the utmost.

A Fast Grower

Makes a hay crop in 6 to 8 weeks. May be sown during May, June or July. We recommend 20 lbs. per acre although some sow less. Grows up to 6 and even 8 feet high. Valuable feed for dairy and young cattle and sheep. Does not become poisonous due to drought or frost. Generally makes its heaviest growth on fairly fertile moist land.

The seed we have for you is well re-cleaned. Our price on this seed is low. Costs only around \$1.00 an acre for seed.

GROW IT THIS YEAR

A Most Profitable Crop

This valuable, quick growing, heavy producing grass should be grown on every farm. Produces enormous hay crops. Makes fine pasture during hot summer months. If you are needing a big hay or pasture crop this year be sure to sow Sudan. It is a sure crop and easy to grow.

Priced Very Low

Our price on Sudan Grass seed is again very low this year. This crop is subject to sudden price variation and often makes sensational advances about seeding time. We advise laying in your supplies early as we contracted our present stocks on the basis of low markets. Considering quality you should find a big savings in our present quotation.

Description

Sudan belongs to the cane family but is finer stemmed and a free stooler. Grows 4 to 7 feet high and yields 4 to 10 tons of cured hay per acre. Livestock is very fond of Sudan. It has good feeding value. First hay crop can be cut in about 60 days after seeding and second and third crops 30 to 40 days apart.

Sudan is one of the best drought resisters known and supplies an abundance of fine pasture or hay during the hot dry months of the summer when feed is often scarce. That's why every farm should have some of it. It has been a life saver to thousands during the past few years.

How to Handle

Sudan is a warm weather crop. Do not sow until corn planting time or after. Prepare a good seed bed as you would for corn. Drill in close rows or broadcast. Cover seed about an inch deep. Sow 20 to 25 lbs. per acre. You can begin pasturing when 6 to 8 inches high. Cut for hay when in bloom, although you can cut earlier or later without damage or loss.

A Saving Guaranteed

The true basis of value at a bargain price is the quality you receive. We will sell you this seed subject to any test you care to put it to. You can have up to 60 days to satisfy yourself that you have secured a quality lot at a bargain price. We guarantee to save you money on our Sudan Grass. If this seed fails to please you in any way let us know and prompt adjustment will be made in conformance with our guarantee.

It is easy to grow Sudan Grass when you use seed of such fine character. We urge you for the sake of better farm profits to grow some of it this year. It produces enormous quantities of feed in a short time. It keeps right on the job when heat and drought are damaging other crops severely. You get good bargains by buying now.

Rockwell City, Iowa.

Gentlemen: I have been a customer of yours for several years. Your Red Clover seed is a wonderful producer. Your Dakota No. 12 Alfalfa, both in price and quality, has given me the best of satisfaction.

Yours respectfully,
S. G. FOWLIE.

NEW CROP
SEED

MIXED MILLET

**Serviceable Seed at
Low Cost**

Here is really a bargain in Millet for a hay crop. It is practically all German type Millet but contains a little percentage of other millets that make it unsuitable to use for seed production. For a hay crop, however, it makes a wonderful seeding and should produce a yield equal to a straight German type. This lot varies a little from bag to bag but is mainly German type stock.

These taller growing, heavy producing, hay millets are in big demand. You can buy this Mixed Millet at a very substantial reduction in price. It will give you a great big practical bargain. This seed is new crop seed of good germination. It is nice bright plump seed. The seed has been re-cleaned for the removal of impurities and our analysis shows it free of bad weed seeds.

This is one of our best selling values. Farmers who do not care about a pure seed crop like this mixed millet to get heavy hay production at a lower seeding cost.

See page 41

Easy to read—you'll like it

YOU will be delighted and wonder how these two great up-to-the-minute illustrated magazines, now printed together, can cost so little. It's for all—men, women, boys and girls.

Farm Journal and Farmer's Wife, Dept. C, Phila., Pa.

Enclosed is 25c for FARM JOURNAL and FARMER'S WIFE 12 months. My money back if not satisfied.

My Name is.....

R. F. D. Box. or Street.....

If you live on a R. F. D. put route number in first space above for prompt service.

P. O. State.....

IMPORTANT: Coupon must be sent direct to Farm Journal and Farmer's Wife, Dept. C, Philadelphia, Pa., with 25c (at our risk). Offer good only in U. S.

The seed we have is cleaned and much more satisfactory and economical than stock containing a lot of split beans. Send us your order for beans. The quality and savings must please you or you can have your money back. See Guarantee Page 8.

How to Handle Soy Beans

Plant when weather and soil is warm, corn planting time or later. Prepare a fine clean seed bed. For hay broadcast or drill in close rows 1½ to 2 bushels per acre. For seed in 18 to 20 inches apart 30 to 40 lbs. per acre. Cultivate with a harrow while beans are small and dry. Cut for hay when beans are fairly well formed, but before leaves fall. Harvest for seed when beans are practically ripe.

Inoculate Your Seed

Inoculate Soybean and Cowpea seed. That helps to secure a more vigorous growth, heavier yields and higher value. Cost is low. Easy to apply. Full directions furnished.

Postpaid prices on Berry's Nodule Germ Inoculator for Beans and Peas: 1 bu. size 30¢; 2 bu. 50¢; 5 bu. 90¢; 10 bu. size \$1.50 and a 25 bu. size \$2.75. Also see page 41.

Types of Soy Beans

Dunfield Type. Pure yellow. Heavy seed producer and an excellent hay type. Stands up well. Does not shatter easily. Matures in about 105 days. Medium sized leaves and stems. An extra good all purpose variety.

Manchu Type. An old standby. Widely grown both for hay and seed crop. Color light yellow with dark seed scar. Stands up well. Adapted to a wide range of conditions. Fine for hogging down. 105 days.

Illini Type. Very popular. Grown for hay north of Central Iowa and for hay and seed south. Medium in stems, leaves and maturity. Grows erect. Color yellow. One of the most profitable varieties.

Kingwa Type. A Black Soybean of outstanding merit and quality. According to all customers reports it is greatly preferred to Wilson Black or Black Ebony both for hay and seed production. Especially valuable as a hay variety. Heavy producer and excellent quality hay.

Virginia Type. Hay bean. Makes large growth with enormous yields of hay. One of the best for poor land. Seed brownish and smaller than the average. Requires less seed per acre. Prices on Pages 40-41

Cowpea Types

Whippoorwill Type. Medium early in maturity, about 80 days. This is the most popular of all cowpea varieties and we have a big demand for them. They grow quite erect, which is a desirable characteristic and, no doubt, one of the reasons for its popularity. They are heavy producers and make a profitable kind to use. Seed is speckled brown in color.

Gray Goose Type. Large seeded variety. A prolific producer. Plants half bushy. Very popular and considered a valuable variety in many sections. May be known as Taylor or Gray Crowder to some farmers.

Mixed Cowpeas. Somewhat cheaper than unmixed yet many prefer a mixture. Fine for pasture, hay or soil building. Very desirable unless pure seed crop is desired. All reclaimed stock. We have a big call for mixed cowpeas. See page 41 for Clarinda and Chicago prices.

FIELD PEAS

For early hay or green feed nothing equals Field Peas. Can be sown as early as land can be worked. Disc or harrow in 1 to 1½ bushels Peas with 2 bushels Oats. Cut for hay when oats are in the dough stage. Production is very heavy and feeding value very high. Also fine to plow under for soil enrichment. Crop very fattening. Increases milk production. Excellent for hogs. Solves the problem for early green feed as no other early crop can do. Inoculate Field Peas. Shipment is guaranteed to please you in every way. Crop limited but our prices low. See page 41. If you are going to be short on feed next spring we recommend this crop very highly.

Dear Sirs: I have bought seed from you for several years. I find them to be O. K. in every way. The quality and the germination is very satisfactory. Your seeds produce results. Also your prices are real money-saving quotations. I am well pleased. Yours truly,

Edwardsville, Ill.

H. C. STRASEN.

CROPS of SPECIAL VALUE MILLETS

BERRY'S ANNUAL PORK PRODUCER

A rapid growing mixture of legumes, forage and grass crops. Makes a wonderful pasture. Can be used a few weeks after seeding. Very productive. High in protein. Builds big body frames, reduces grain consumption. Makes hogs of marketable size in quicker time. Contains Peas, Vetch, Rape, Rye, Barley, Oats, Wheat, etc. Sow 40 to 50 lbs. per acre early in spring. This is a great pasture combination at low cost. See page 41 for Clarinda and Chicago prices.

VETCHES

SPRING VETCH

Spring. An annual variety having much the same characteristics as peas. Does well wherever Canada Field Peas are grown. Requires cool growing season. Should be sown early, using 50 lbs. per acre. Grows 3 to 5 feet high. Is quite finely stemmed. Generally sown with a bushel or two of oats and the two cut together for hay. Grows rapidly, yields heavily. Excellent feeding value; high in protein. Produces a wonderful early hay crop. Makes best hay if cut when in full bloom. Does not live over winter.

Scotia,
Nebr.

Dear Sirs:

My father started buying seeds from you in 1898 and I have used Berry's seeds for the past 15 years. Have never had a complaint. You have always satisfied me and saved me money.

Yours truly,
CHAS. KEOWN.

SAND OR HAIRY

Also called Winter Vetch. May be sown spring or fall. Lives over one winter. Use 20 to 25 lbs. per acre. Can be sown with spring grain and pastured some in fall. Remains green for a long time. Excellent cover crop. Fine soil builder. Good yielder. High feeding value. Inoculate all Vetch seed. See Pages 40-41.

GERMAN OR GOLDEN TYPE

This is that beautiful, heavy growing variety that makes such wonderful production. Its leafy growth is 4 to 5 feet tall. Yields up to 4 to 5 tons per acre and seed yields of 40 to 50 bushels. The feeding value is fine. It is one of the most popular varieties of millets and very widely grown.

This crop can be sown any time after corn planting until the latter part of July. Sow 40 to 50 lbs. per acre for hay production; 25 to 30 lbs. per acre for a seed crop. Our seed is secured from good sources and we guarantee shipment to please you. See page 41 for Clarinda and Chicago prices.

WHITE WONDER TYPE

This runs our Golden Millet a close second in popularity. Many think it is better. It has a dense foliage and broad leaves. A wonder for production. Matures early in spite of its big size. It has long heavy seed heads and is a good seed producer. Color of seed is white. Makes excellent hay if cut just when seed heads are beginning to form.

Millets make an excellent "catch crop" or to give an extra crop after an early maturing one has been taken from the land.

SIBERIAN OR EARLY RUSSIAN TYPE

Two to three weeks earlier than German. Can be sown later but does not yield as much. Hay is of very fine quality. Grows 2 to 4 feet. Seeds reddish brown. Sow 35 to 50 lbs. per acre.

PROSO-TYPE MILLET

Also Known as Hog Millet—Broom Corn Millet and Russian Wheat.

This Millet is grown almost exclusively for seed. A very prolific producer. Seeds are larger than other millets. Makes fine feed. It is used in some countries for human food. Equal to Barley in feeding value. Makes extra fine poultry feed.

Proso is a heavy seed producer, yielding up to 60 to 70 bushel per acre. It matures in sixty to seventy days. Makes a good cash crop. Needs warm weather and soil for quick germination. Sow 40 to 50 lbs. per acre. Drill in close rows or broadcast.

The demand for this seed has increased very rapidly in the past few years. Order as early as possible.

DWARF ESSEX RAPE

**Reduces Pork Production Costs
Enormous Producer—Grows Quick**
See Page 41 for Clarinda and Chicago Prices

One of the greatest of all quick growing forage pasture crops for the corn-belt. Can be pastured within six to eight weeks after seeding. May be sown from early spring until mid-summer. Equal to alfalfa in feeding value for hogs and sheep. Equal also good for calves, cattle and horses. Cuts down on amount of grain required and gets hogs ready for market quicker. In tests at the Iowa Experiment Station Rape pasture cut down more on grain consumption and tankage than Alfalfa and carried more head per acre.

Rape under favorable conditions yields 40 tons or 80,000 lbs. of green matter per acre. On a dry basis it analyzes as high as 37% protein. It is also high in calcium and phosphorus. Superior to alfalfa and clover as a corn balancer. Endures trampling and grazing if not eaten too close to the ground. Provides pasture from early spring until the ground freezes in November.

Sow alone in spring or with oats and pasture when oats are removed. Also good to sow in corn at last cultivation. Use 5 to 6 lbs. of seed per acre. Grows on many soils. Does best on fertile well drained loams. Not so well adapted to sandy or stiff clay soils.

Our seed is produced from Genuine Holland Dwarf Essex seed stock and guaranteed the finest obtainable in the U. S. The cost is low. See page 41 for prices.

Small lots 5 lbs. postpaid \$1.50

CANE

A Leading Forage Crop

A crop that is rich in sugar and fat and very palatable. An enormous yielder producing from 10 to 15 tons of excellent green feed on rich land. A most remarkable drought resister. Especially valuable in dry hot seasons. Makes a wonderful hay crop when sown at the rate of 75 to 100 lbs. per acre.

Some farmers get cash out of their ordinary hay crops and use cane for their own feed supply. A few acres of cane will make as much hay as many acres of Timothy. Your live stock will relish cane hay and fatten on it. You can also pasture cane or cut it for green feed. Makes excellent summer and early fall feed. It is also used for ensilage. Cane is also a good seed producer, yielding 30 to as high as 60 bushels per acre.

How to Handle

Sow quite heavily for hay or pasture, 75 to 100 lbs. per acre. Heavy seeding makes a finer growth and therefore easier to cure. Do not sow until corn planting time or after. It is a warm weather crop. Drill in close rows, or broadcast. Cover about an inch. Can be cut and cured like ordinary hay. Takes a little longer to cure than ordinary grass hay.

Early Amber Type. The kind most generally grown and of great value because of its splendid growing qualities.

Early Orange Type. Heavier stalks, more abundant leaves. Head more compact. Heavier yielder but a little coarser.

CANE for MOLASSES

To make good sorghum, seed must be pure and we take care in getting this seed direct from sorghum producers. We do not guarantee the crop, but we consider our seed equal to if not superior to any on the market.

Sorghum Amber Type. Secured by us for Molasses purposes. Makes excellent sorghum of fine flavor and color. Very juicy. We recommend it highly. We are sure you will be pleased with it.

Red or Orange Type. More after the orange type. Makes delicious mild, clear, light colored molasses. Ranks very high in favor with sorghum makers.

Price, 1 lb., 30c; 5 lbs., \$1.00, postpaid. Not prepaid, 5 lbs., 75c; 10 lbs. or more, 11c per lb.; 50 lbs. or more, 10c per lb.

KALO

This is Early Kalo. A drought resistant grain sorghum. Heavy in production. Becoming very popular in sections outside regular grain sorghum section because of its fine quality and wide adaptability. See page 41 for prices.

BERRY'S Special GRAIN and HAY CROPS

KAFFIR CORN

Our Kaffir type grain sorghum is used to some extent for hay. Stalks less juicy than cane and not sweet. Stands lots of hot dry weather. Makes fine poultry feed and suitable for all kinds of live stock when ground. Produces up to 40 to 50 bushels of seed per acre. For grain drill in rows 30 to 40 inches apart using 6 to 8 lbs. of seed per acre. For hay drill close or broadcast 75 to 100 lbs. Cut off heads, cure 10 days to 2 weeks, then thresh. Our seed is well graded. Prices are very low on both Red and White Kaffir.

SEE
PAGE
41
for
SALE
PRICES

Feterita

Our Feterita Type Grain Sorghum is a great drought resisting crop. Earlier than Kaffir. Has a higher protein content. A very heavy producer. Grains flat in shape, bluish white in color. The crop is a free stooler. Adapted to a large territory because of its earliness. Makes good hay if seeded 75 to 100 lbs. per acre. For grain about 6 lbs.

Postpaid, Feterita or Kaffir
1 lb., 20c; 5 lbs., 75c

BUCKWHEAT

A quick growing grain crop. Matures in 10 to 12 weeks. Excellent catch crop. Sometimes sown after small grain so as to get two crops from the land. Good cover crop for orchards. Makes land mellow. Good for bee pasture.

One of the best crops for very poor soils. Responds to increased fertility. Does not like lime and should not be sown on very wet land. Can be grown most anywhere north of the cotton belt. Prefers cool weather, especially at blooming time, but is sensitive to frost. Prepare a good seed bed. Sow 3 to 4 pecks per acre. Yields up to 50 bu. per acre depending on conditions. Clarinda-Chicago Prices Page 41.

Postpaid, any of above five crops. 1 lb. 20c; 5 lbs., 75c.

HEGARI

Our Hegari Type sweet sorghum is somewhat similar to Atlas (page 11), but does not grow as tall. Very nutritious. Valuable for grain, dry fodder, ensilage and pasture. Yields up to 5,000 lbs. of grain per acre and up to 18 tons of ensilage. Live stock especially cattle are very fond of it due to its sweet taste. It combines the grain production of Kaffir and Milo with the high forage value of cane. For grain production drill like Kaffir 6 to 8 lbs. per acre. May be double rowed using double the amount of seed. For hay drill in close rows at 75 to 90 lbs. per acre. Postpaid 5 lbs. for 75c. See page 41 for quantity prices.

MILO MAIZE

Our Milo Maize type grain sorghum is similar to Kaffir. The stalks, somewhat more pithy, are considered one of the best drought resisters. The grain makes fine feed. White in color. Follow suggestions given for Kaffir in planting. Milo is a good yielder. Widely used for Chicken feed. It is grown in place of corn in sections of extreme drought. Farmers who have grown these grain sorghums generally want at least a few acres. See page 41 for prices. Small lots postpaid 1 lb. 20c; 5 lbs. 75c.

**OPEN
POLLINATED**

SILVER MINE

A very popular variety in the corn-belt. Good yielder. Does well on a wide variety of soils. Best variety for thin land. Maturity around 110 to 115 days. Will stand thick planting. Grains and cob both white. Kernels medium rough and quite deep. Makes good solid corn and has a good shelling percentage. The Silver Mine type corn that we have is the finest we have been able to obtain and shipment is guaranteed to please you. This variety is one of the most widely grown white in the corn-belt.

**Open Pollinated
Seed Scarce**

The swing to Hybrid Seed Corn has been so widespread since the softer varieties were developed that fields of open pollinated corn are becoming scarce. We, however, endeavor to secure for those who want it, good quality seed stocks. We sell the varieties listed here by types and endeavor to secure these as true to variety as possible. Satisfactory shipment and high germination are guaranteed. If you are not fully pleased write for shipping instructions and refund. You can take up to 30 days if you wish to make germination test.

SILVER KING

An early maturing white also known as Wisconsin No. 7. Resembles Silver Mine but ears a little smaller and grains not quite so deep. About 10 days earlier. A good yielder and one of the best of earlier whites. Our Silver King type is very nice seed.

GOLDEN GLOW

A heavy producing early yellow type. Stalks somewhat taller than the average of this maturity. Very popular with northern growers and those wanting an early feeding corn. Fine yellow color. Solid, well filled ears. Grain of medium depth. Maturity around 95 to 100 days.

REID'S DENT

This type of corn has for many years been the most widely grown. This is the moderately rough strain. Average maturity around 110 days. Makes good solid compact ears. We consider our Reids Dent type to be an extra heavy producing strain. Compare it with any other. Plant ours next to any other. Keep a record of yields. Observe quality. We are confident you will find ours to prove the most profitable.

NEW PERFECTION

This is shipped from Clarinda only

This is a large eared yellow corn. It has big ears. The kernels are broad and thick. They are moderately rough. Runs 16 to 18 rows of kernels per ear. Some customers like this big eared type corn better than Hybrid. It is a vigorous grower. The grain has a beautiful yellow color. It is a heavy yielding open pollinated corn. We know of none better. Maturity in this section classified as 110 to 115 day. You can save seed from New Perfection for replanting. We consider this superior to our old Big Perfection. Seed has high germination. If you want a big open pollinated corn that is not very late we believe you will like this extra well. A very heavy producer.

Merko

Corn Treatment
only 3c per acre

Apply as a dust any time before planting. Controls seedling blight and root and stalk rots. Increases germination. Permits earlier planting. One pound treats 8 bushels. Directions furnished.

Postpaid: 4-oz. tin,
50c; 1 lb., \$1.25.

St. Charles White

The famous red cobbled white ensilage corn. Also grown for mature grain. Large size ears. Large deep grains. Tall leafy stalks. Leaves broad and succulent. Yields up to 40 to 50 tons of green feed per acre. A very heavy grain producer. An excellent white type and a sensational producer for open pollinated corn.

Krug's Dent

Similar to Reids. Ears may run a little smaller but this variety has a great yielding record. Firm, solid ears. A fine depth of kernel. About the same maturity as Reids. Year in and year out it will out-yield any open pollinated corn in its maturity class. We have a nice type of this stock and advise ordering early.

SEED POTATOES

Better Seeds—Better Crops

NORTHERN GROWN

SELECTED QUALITY

Most experienced potato growers have learned that it pays them to plant new northern grown seed potatoes every year. The extra yield and finer quality generally makes it profitable to get new northern grown seed each year. It pays to plant better seed. The difference in cost is not a big item. The satisfaction of heavier yields and better quality makes the investment a wise one.

NORTHERN GROWN SEED DESIRABLE

Our experience has been that our customers are best satisfied with northern grown seed stock. Practically all of our seed comes from Minnesota and is a type of seed that we can guarantee to show up to your satisfaction. If you are not thoroughly pleased with your shipment, write us for shipping instructions and a refund. Our potatoes are all secured for seed purposes only. We endeavor to obtain the finest quality to sell at the low price we make.

WARBA—AN EXTRA EARLY POTATO An Extra Heavy Yielder

It is a creamy white potato yet earlier than the earliest red variety grown in Minnesota at the time of this writing. It is roughly about eight days earlier than the early Ohio. Warbas are fine for earliest market or for home gardens.

The Warba is a blocky type of potato similar to the Irish Cobbler. The Creamy skin is suffused with pink around the eyes. Eyes somewhat deep. The foliage is very resistant to disease such as mild and crinkle mosaic. This potato has a wide adaptability, producing its finest texture and quality on soils that are not extremely heavy.

This variety has certainly come up fast in popular favor because of its earliness, yield, color and quality. If you want something extra early be sure to order some of our Warbas.

EARLY RED RIVER OHIO

This is a standard early potato. We know of no early potato in bigger demand as a table variety. They have a fine quality and an enormous producing ability. Early Ohios are well suited to heavy gumbo soils as well as to sandy areas. Its wide adaptability makes it a great favorite.

The color of the skin is pink to light red. Flesh white. The tubers are oval in shape and slightly flattened. Eyes are moderately shallow. Very little waste in peeling. They are easy to dig. Northern grown seed generally matures earlier which is another reason for getting such seed stock. As an all around early, heavy yielding fine quality potato you will find early Red River Ohios hard to beat.

IRISH COBBLER

Also an early potato although about a week later than the Ohios. It is a great potato and the results our customers have secured from our seed has brought us most enthusiastic letters. They report enormous yields and fine flavored quality.

Both skin and flesh are white. It is a blocky type, roundish and slightly flattened. Eyes are relatively deep. Plants are sturdy. An excellent potato for clayey type soils.

The Cobbler cooks dry and mealy. Tubers grow to good size and are good keepers. It is truly a fine potato. You may have grown Irish Cobblers before but we urge you to plant some of our Cobblers this year. Our prices are low and we believe you will harvest a crop that you can really brag about.

GREEN MOUNTAIN

A medium late variety of exceptional quality and fine flavor. Produces heavy crops and is a good keeper. It has a creamy white skin that is slightly netted which is a general indication of fine quality. The tubers are round to oblong and slightly flattened. Eyes are few and shallow. The plant is a very vigorous grower and produces well on both heavy and lighter soils.

The flesh is white and fine grained. Cooks dry and mealy. Retains its fine quality during the winter. It certainly is a dandy main crop variety. For big quantity and fine quality production it is hard to excel.

RUSSET BURBANK

We classify this with the Green Mountain as a medium late variety. Also a quality potato and one of the very best for baking. A moderately long potato slightly flattened with rounded ends. Color of skin is yellowish or golden brown. The eyes are shallow. Flesh is pure white and solid. It is a stronger grower and we consider it better than the average in disease resistance. The Russet Burbank is a heavy yielder. It keeps well and is a very fine medium late potato.

RURAL NEW YORKERS

This is a late potato. One of the best keepers. Has white skin and flesh. The tubers are round to round oval and somewhat flattened. Eyes are shallow. Stems and foliage are dark green.

This variety is exceptionally drought resistant. It is a great yielder and is our choice as the best of the late varieties. It has a wide adaption. We recommend our Rural New Yorker to those wanting a good all around late potato for market or home garden. It combines big yields with fine quality and excellent keeping characteristics. They're good till new crop comes on in the spring.

Small lots, any variety. Postpaid to 4th Zone: 1 lb., 20c; 5 lbs., 65c; 10 lbs., \$1.00.

POTATO TREATMENT

**Corona P. D. 7
Costs only 2½¢ bu.**

The modern method of checking disease on potatoes. No soaking necessary. Just mix, dip, drain and dry and your potatoes are ready to plant. Controls such costly diseases as scab, rhizoctonia and black leg. Increases yield 15 to 25%. One pound treats 30 to 35 bushels.

Prices: Prepaid, 4 oz. size, 35c; 1 lb., \$1.00.

Twinbrook
Farm,
Emaus,
Penna.

Dear Sirs:
I have
been using
your seeds
for thirteen
years which
in itself means

quite a lot. I have found your seeds satisfactory and always saved money by buying from your Company. My Sudan was wonderful and your Dakota No. 12 Alfalfa was the only field in the neighborhood that did not show bare spots after the first winter.

Yours,
P. G. Lichtenwalner.

The Famous

BOONE

SEED OATS

DISEASE RESISTANCE

This Boone oat is outstanding in its ability to resist the four leading oat diseases. These are Crowned Smut and Stem rust. Its resistance to stem rust is especially valuable because this disease breaks out severely every three or four years. It is a serious menace to most oats.

Now is the time to start a new variety and when you start take the best. Sow something that will do well year in and year out and over a period of years beat others. This isn't like Hybrid corn that you buy every year. Start them now and you have solved your oat problem with profit for many years. Show your neighbors something about raising oats. You'll probably be in the seed business yourself next year selling your crop of Boone oats at premium prices.

ADAPTABILITY

These are quite early in maturity. They have a strong stiff straw and stand up much better than most early kinds. Kernels are well filled. Color has a yellow cast. We consider these oats excellent for nearly every part of the country where spring oats are sown. We don't believe you can beat these Boone. In southern Iowa they are exceedingly popular and replacing Columbia, Fulghums. This indicates their adaptability in the southern spring oat section. Naturally they are fine either east or west where similar conditions prevail. They should do well in Kansas, Nebraska, South Dakota, Iowa, Minnesota, Missouri and on east to the Atlantic seaboard, including the New England states.

SENSATIONAL YIELDER

An Early Oat Good for 105 Bu. Per Acre

Farmers are clamoring for Boone Oats. Dealers write us "can't you spare us some of your Boone Oats." Agricultural authorities ask us if we have a good supply. Why all this tremendous demand? The answer is yields. Big Bumper yields. Also it is Quality. Disease resistance and Consistently Fine Performance. Never in all of our experience have we seen an oat jump into such high public favor in so short a time. And it did it without any high pressure sales campaign. It has jumped into the limelight purely through superior merit.

Yield Records High

Eighty bushels per acre in an official Iowa test for an average of six years. Once in a while there will be a good oat year when most oats will yield heavily. When it averages 80 over a six year period there, my friends, you really have something. It outyields many late oats over such a period. Illinois official test 104.4 bu. per acre. We do not know of a place where Boone oats were sown that it did not prove a dandy. The more years it is tested the better it should show up. When you run into bad years there is when Boone oats really "go to town" and usually those are years when prices are highest.

A Hybrid Selection

The Boone oat is a selection from a Hybrid between Victoria, a South American oat with wonderful disease resistance, and the Richland, a heavy yielder. This combination makes it a wonderful heavy yielding, disease resistant variety. We urge you by all means to get started with these great oats for you should find them very profitable and satisfactory. Better quality and Bigger Profits. Prices "Certified" seed: 25 bu. or more, \$1.45 bu.; 10 to 24 bu., \$1.50 bu.; Smaller lots, \$1.55 bu. Prices on seed grown from certified stock, 25 bu. or more, \$1.20 bu.; 10 to 24 bu., \$1.25 bu. Smaller lots \$1.30 bu.

Prices f.o.b. Chicago, 5c per bu. higher
See page 41

HIGH QUALITY SEED STOCKS

The Certified seed we price in the Boone, Tama and Marion oats is seed that has been grown under state supervision and for which the growers have complied with all regulations and paid all fees. The non-Certified seed has been grown from Certified stock and for all practical purposes is equally satisfactory. Some growers do not care to go through the "red-tape" necessary for Certification. Both kinds have been thoroughly cleaned, are equally high in germination and both will produce the same big yields and be alike in disease resistance.

SENSATIONAL MARION

A GREAT DISEASE RESISTER

An Amazing Yielder

A Great Early Oat

The Marion Oats like the Boone and Tama were secured by crossing or hybridizing two varieties each having outstanding characteristics and getting a new variety that had the best of both of the strongest features. The varieties that were crossed to make Marion were the Markton which is a variety highly resistant against smut and Rainbow which is a selection of Green Russian developed at the North Dakota Experiment Station. This one is highly resistant to rust. Thus a new variety was created that was not only highly resistant to these diseases but an extremely heavy yielder as well.

Characteristics

The Marion Oat is a variety highly resistant to both loose and covered smut and stem and leaf rust. It develops as a rule the heaviest grain of all these early hybridized oats. The test weight per bushel is almost invariably heavier. The straw is a little taller than the Boone. It matures at the same time. In yielding ability we consider it fully equal. Some sections report heavier yields from Marions and another says the Boones did a little better. It may vary from one season to another. You will be well pleased with whichever you select. On very rich land the Boones' might prove a little better but on the soils of average fertility you may prefer the Marion. Many farmers do.

Comparative Yields

In a 3 year test Marions outyielded Boones slightly in Central and Southern Iowa. In an Illinois test at De Kalb, Marions were at the head of the list of all varieties grown and yielded 10.2 bu. more per acre than the average of 23 varieties. At Urbana, Illinois, it was at the head of a test of 31 varieties. This variety is capable of producing yields well over 100 bu. per acre. It is a wonderfully fine oat. Price same as Boone. See description of grades on opposite page.

**SEED
OATS**

NEWEST Hybridized TAMA

This is the newest of the crossed oat varieties that we sell. It was obtained by crossing the Victoria and Richland, the same varieties used in making the Boone and resembles it closely. However, in experiments at Ames and Kanawha, Iowa, by the State Experiment Station during a five year period the Tama has been superior to Boone in yield and general growth habits. In maturity it is the same. All of these varieties are early maturing varieties. It is fully equal to Boone in lodging resistance and will do well on a wide variety of soil types including rich land on which oats are apt to lodge. Its high degree of resistance against crown or leaf rust, stem rust and loose and covered smut makes it an oat that will give the highest degree of performance under varying weather conditions.

These oats do not run out quickly like some of the later northern oats in the corn belt. You can use the oats you grow for seed next year and they will last for a number of years if you will grade your seed and sow good, heavy, solid seed. That is true also of Boone and Marion.

We have only a very limited supply of Tamas this year, so please order early and state whether substitution of Marion or Boone may be made if our supply of Tama should be exhausted. See page 41 for prices on Tama. They are 25c per bushel higher than the others.

COLUMBIA TYPE

These are a development of the Fulghums which were so extensively grown a few years ago. They have proven to be a better producer and do not have to be sown so extremely early. The Columbias are also similar to the Burt oats but plants are taller, heads longer and more erect and the straw is much stronger. The grains have a light stripe on the back and are usually awnless. It is our early maturing variety.

It has a wide range of seeding dates which together with its disease resistance and early maturity make it more certain to produce heavy yields. It has given very good satisfaction to our trade and is one of the best in its class for profit. See page 41 for prices. Our seed is well cleaned and guaranteed to please you.

HULLESS TYPE

Big Yielder—No Waste—Fine Feed

Ordinary oats are 28 to 40% hulls. This variety has no hulls. It's all meat. Grains similar to rye but softer and lighter in color. They are also excellent producers, in several cases having outyielded the ordinary hulled oat. Even should it fall a little below in yield the increased feeding value of the Hulless makes it very profitable to grow.

Straw is of medium length and strong. Equally as hardy and drought resisting as ordinary oats. These oats can be fed without grinding. They certainly are fine feed. One grower reported this Hulless oat smut free while common oats were badly affected. In order to help prevent smut we treat all our Hulless oats with copper carbonate to destroy smut spores. This treatment is effective only on Hulless.

SPELTZ

ALSO CALLED EMMER

NORTHERN GROWN

Great Drouth Resister. Practically Rust and Smut Proof. A Good Producer. Dandy Feeding Grain

This grain is one of the oldest grains known to mankind. It was apparently grown in prehistoric times. German-Russian immigrants introduced it to the United States.

It is a remarkable spring grain crop. Really a type of wheat. Shucks cling to the grain. Generally two grains in a shuck and somewhat softer than wheat. Makes a nutritious feed. The kernels with the hulls removed have about the same composition as wheat. Best as ground feed. Highly resistant against rust and seldom injured by smut. Also an excellent drought resistant grain. A good producer and under drought or rust conditions it is especially a desirable crop. Matures early. Makes a good nurse crop. Grown from Canada to Texas, Iowa, Minnesota, Wisconsin, Michigan and other states are growing it as well as Western States where drought conditions generally prevail.

Grow some speltz this year and show your neighbors what this drought and disease resistant grain can do. Sow in the spring. It is an ideal nurse crop. Sow $2\frac{1}{2}$ bu. per acre. Set drill for oats. Sow early as possible. Cut before dead ripe. Thrash as for oats but not too close. It is a remarkable grain crop. Its nice heavy grains will delight you. Splendid for all kinds of stock.

SPRING WHEAT

for

NORTHERN GROWN THATCHER TYPE

Exceptionally Rust Resistant

Thatcher is a beardless rust resistant spring wheat first released to growers in 1934. Developed by the Minnesota Experiment Station. Has given sensational performance especially in years when stem rust was damaging. Reports during the bad rust years of 1935 and 1937 show yields of Thatcher 250% of New Marquis and over 350% of Red Fife. Think of $2\frac{1}{2}$ to $3\frac{1}{2}$ times as much wheat per acre grown side by side with the other varieties. If you live in a section having rains, morning dews and relatively high humidity by all means grow Thatcher wheat.

Thatcher has a very strong straw. Not as tall as some varieties. Excellent for rich land. Makes a wonderful nurse crop. Matures 2 to 4 days earlier than New Marquis. Heads are short and compact. An excellent milling wheat. It is also quite resistant to bunt and loose smut. This is by all odds the most profitable spring wheat for sections susceptible to stem rust damage.

Our seed is northern grown, re-cleaned and very nice. Supply limited.

SPRING RYE

Strictly a spring grain crop. Sow early in spring. Grain looks like Winter Rye. Used mainly as a grain crop. May be pastured or cut for hay. Sometimes combined with Field Peas for hay. Big yielder on rich land. One of the best small grain crops for thin land. Makes fine feed. Sow early using about 2 bu. per acre.

41

Wilt Resistant FLAX

Grow Flax for bigger profits. Prices have ranged from 6 to 10 times prices paid for oats. These famous Wilt Resistant varieties Bison and Red Wing may reasonably be expected to yield 10 to 15 bushel per acre.

Higher yields than these are secured. These varieties are real money makers. Wilt drove Flax out of many sections. These wilt resisters are bringing it back. Adapted to most of the spring oat section having rainfall of around 25 to 30 inches or more per year. Grown as far south as Kansas and in a wide area from east to west. Help national defense and make money for yourself growing Flax this year.

Flax Facts and How to Grow It

Flax does best on medium to heavy land. It is not good on light soils. Biggest yields follow corn, some other cultivated crop or soybeans which leave the land reasonably weed free. Sow about spring grain seeding time. Late seedings may reduce yields. Seed bed should be firm. Pack with a roller if necessary. Do not cover over an inch. Half an inch is generally plenty. Drilling is best. Sow $\frac{3}{4}$ bu. per acre of Red Wing or about 1 bu. per acre of Bison. Harvest when bolls are ripe and stems yellow.

Flax makes a wonderful nurse crop for Red Clover, Alsike, Alfalfa.

Bison the most Wilt Resistant. A little later in maturity. Largest seed. Excellent oil producer.

Red Wing. About a week earlier than Bison. May be sown somewhat later. Also a heavy yielder. See page 41 for prices. F. O. B. Clarinda and Chicago.

CERESAN

Disinfects Small Grain
for less than 3c per bu.

Controls stinking smut of wheat, covered smut and stripe of barley and loose and covered smut of oats. Makes for better stands, larger yields and finer quality.

A dust treatment. Easy to apply. No water needed. Does not cause seed to clog in drill. Very effective.

Prepaid price 1 lb. enough for 32 bushels only 90c; 5 lbs. for \$4.00.

USE CERESAN TREATMENT ON GRAIN. SEE PAGE 19

BARLEY

SPARTAN

Our Spartan Type Barley of Very Nice Quality

A two-row, smooth awned spring barley. Beards without barbs. One of the strongest strawed barleys grown. Bears large uniform kernels. A fine variety for pearling. Not acceptable as a malting variety. Its unusual strength of straw makes it an ideal kind to sow on rich land. Easy to harvest and because of its smooth awns or beards it is very satisfactory to harvest and thresh. Heavy yields are recorded. It has greater value than some which, although yielding well, are discounted on the market or whose weak straw causes trouble. Spartan Barley is a profitable variety.

Small lots, any variety, postpaid, 1 lb., 20c; 5 lbs., 75c.

cago prices

LOGLOSS

A Very Fine Type Extra Heavy Yielder

We Are Sure You Will Like Our
logloss Type Barley

A smooth awned, stiff strawed and high yielding strain of spring barley. It is a malting type. Ripens about the same time as the Velvet. In tests extending from 1930 to 1937 it showed a superiority over both Velvet and Wisconsin 38 in lodging strength. It outyielded all varieties in the test by a very substantial percentage. It produced 7 to 9 bushels per acre more on the average than other widely grown varieties. When you consider that this was the average of a seven-year test its significance is most important. No barbs, strong straw, big yield make logloss an exceptionally fine barley.

VELVET

The KIND with SILKY BEARDS

Our Velvet Type Barley Is Cleaned, Graded Stock

Velvet is a smooth awned or barbless spring barley. The awns or beards give the grain some protection yet these beards have no barbs on them. They are as smooth as straw making the crop more pleasant to handle.

Velvet is a malting type barley that is in such big demand. It appears to withstand unfavorable conditions very well. It has a good stiff straw being close to logloss in that respect. Its quality and productiveness have made it one of the most popular varieties in the state of Iowa. It is now being grown over a wide area.

In many sections farmers are switching from oats to barley. These improved smooth awned kinds yield more and make more profitable grain crops. Barley has always been the heaviest producing grain in the northern states and this is materially above the average in production.

Barley makes a better nurse crop for grass and clover seedings because it does not shade the ground so heavily and matures earlier. Velvet is one of the most popular varieties.

A VERY POPULAR VARIETY

WISCONSIN No. 38

BARBLESS BARLEY

Our Wisconsin 38 Type Barley Is the Smooth Bearded Kind

This is claimed as an improvement over Velvet-type and has shown a slight edge over it in production. In one test Wisconsin No. 38 outyielded all others with a production of 50 bushels per acre. It is also a spring variety and has smooth beards or awns. It is a fine malting type barley. The straw is generally somewhat shorter than Velvet and a little later in maturing. In Central Iowa it should be ripe about July 15th.

Wisconsin No. 38 shares the popularity of malting types with Velvet and logloss. In some eastern and northern states it is even more popular. The straw is not quite as strong but it yields well. In localities where both are equally well known it is about a toss up between the two.

A farmer can scarcely make a mistake in selecting any of the varieties listed on this page. They are all recognized as excellent kinds. We price our barley at close figures. Our guarantee assures you of a satisfactory shipment or your money back. See page 8.

Barley makes a wonderful feed for hogs. It is fattening. Builds nerves, muscle and sinew. Matures early. It is a fine nurse crop. Malting demand creates a good market. Requires only 2 bushels of seed per acre. Grow better barley by sowing better seed.

We advise treating barley with Ceresan. It is a good investment. See description on oat page 20.

ODERBRUCKER

Our Oderbrucker Type Barley Is the Rough Bearded Kind

Also known as Wisconsin 55 Type. A standard malting barley. This, in our opinion, is a heavy producer. Plumper kernels. Great disease resistance. Higher protein test. Better feed. A bearded variety that gives greater returns. We endeavor to secure the best of quality at our prevailing low prices. Recleaned seed gives you stock with small stuff removed. Plumper grains generally make somewhat stronger plants. All of our barley and other seed grains are shipped subject to your approval. If in your opinion you have not received an extra measure of value, write us for shipping instructions. See guarantee page 8.

Danese, W. Va.

Dear Friends:
I have found you an honest and reliable house. Your seeds are certainly good and reliable in every respect. I am well satisfied with your service.

Yours truly,
WATSON COLE.

See Page 41 for New LOW PRICES

BROMUS INERMUS OR BROME GRASS

DROUGHT RESISTANT

**Heavily Productive—Highly Palatable
Starts Early. Grows Late in the Fall**
Domestic and Canadian No. 1

See Description Below

If you are needing a grass that will take lots of punishment and still produce a valuable crop, grow Brome Grass. If you want a grass that is palatable and greatly relished by all kinds of livestock, grow Brome Grass. If you want a grass that can be used for pasture or hay, Brome Grass fills the bill. For drought resistance and early and late growth it is hard to equal. We wish you could talk to farmers who are growing Brome Grass and hear their enthusiastic stories. Or better yet if you could see the crop growing and see the production it can make you would certainly want some of it. It isn't a new grass but its great value is just becoming more widely known. There are stands in Illinois that have stood over twenty years. It has been popular in the west for many years and has become widely grown in the eastern states. From Kansas and the Dakotas on east to the coast. From Michigan and Wisconsin on south into Kentucky. It is being grown as never before and each year the praises for it are better and louder.

Characteristics

Brome Grass is also known as Bromus Inermus, Smooth Brome, Awnless and Hungarian Brome Grass. It is a long lived perennial grass. Grows erect to a height of 3 feet or more depending upon soil fertility. The fibrous roots go deep sometimes 5 feet or more. Highly resistant against drought and cold. Remains green after Blue Grass has turned brown and dry. It is adapted to a wide range of soils. Does well on clay loam and sandy loam soils if not too low in fertility. Stands trampling and grazing very well. Fine to grow with alfalfa for hay and widely used with it and other clovers and grasses for pasture. While permanent it is not difficult to eradicate. If it becomes sod bound a thorough cultivation generally corrects that.

Getting a Stand

Brome Grass is sometimes a little slow in starting. Best results are obtained by preparing a good fine solid seed bed same as you would for alfalfa. May be sown either in spring or fall when moisture conditions are favorable to start it. The seeds are large and light and sometimes a little difficulty is had in feeding it through drill spouts. Mixing with sand or dirt or a peck or two of oats per acre helps. Keep it stirred and mixed in the box. An endgate seeder may be used. Some practice hand sowing. The seed should have a light covering but deep covering should be avoided. Wherever possible use a cultipacker or roller after seeding. Sow about 18 to 20 lbs. per acre alone. In mixture use 8 to 10 lbs. of Brome. Eight pounds each of Alfalfa and Brome is a good mixture. Remember it grows slowly the first year. What may appear a poor stand the first year is usually surprisingly good the second.

Canadian No. 1 or Domestic Seed

We sell two grades of Brome Grass. The Home Grown or Domestic seed at prices above. This is good serviceable seed although not as heavy weight.

We especially recommend our Canadian No. 1 Brome. This is much heavier in weight. Contains more solid seed. Requires less seed per acre. It is more economical and satisfactory. Strictly a very high quality product in every way.

Price Canadian No. 1, \$15.00 per 100 lbs.—\$7.60 for 50 lbs., f.o.b. Clarinda. Forty-five cents per 100 higher at Chicago.

See page 40 for complete price list. Small lots postpaid: 1 lb., 40c; 5 lbs., \$1.75; 10 lbs., \$3.00.

CHICAGO
PER 100 LBS.

Farmer Reports on Brome Grass

Elmer Wagner of Ada, Minnesota, says, "It pastures better than Blue Grass. Has seen fields that stood severe pasture for 10 years. As a hay crop I have found it as valuable as alfalfa. Likes it mixed with sweet clover for pasture."

J. T. Dudgeon of Penick, Kentucky, reports he has been growing Brome Grass for more than 30 years. Cattle grazed in different grass prefer Brome to all others. He uses Alfalfa and Brome mixed with highly satisfactory results. All kinds of livestock eat Brome ravenously.

Achenbach Bros. of Washington, Kansas, say it is the only grass they have ever found to take the place of the old time prairie grass. Comes on early, stays on late in the fall and often eliminates weeds. When sown with Alfalfa reduces danger of bloat when pastured. Yields 1½ to 4 tons of hay per acre.

Lack of space prevents giving many more reports but these are indicative of the great value farmers place on this crop.

Experiment Station Reports

Agricultural Experiment Stations now recognize its value and most states in the northern half of the nation have circulars or bulletins describing the crop and its value.

The Illinois experiment station considers it the most drought resistant grass in that state. Also very palatable and relished by cattle and horses. New York recommends it especially for pasture in mixture. Michigan finds it adapted, very drought resistant, highly palatable and especially suited for mixing with Alfalfa for pasture. Nebraska recognizes it as superior to all other cultivated grasses in that state. Iowa finds it of great value. Kansas finds it especially good in the northern part of the state grass section with hay yields of 1 to 3 tons per acre. South Dakota says it is one of the outstanding grasses in the eastern section.

ALFALFA AND BROME MIXTURE

A Fifty-Fifty Seeding of Alfalfa and Brome Grass

This is a great combination. Both crops are drought and cold resistant and very palatable. Brome reduces danger of bloat from alfalfa. Tests show Brome grown with alfalfa contained 21% more nitrogen than when grown alone. The combination yields heavily. A 13 year experiment in Canada showed the combination to yield 2½ times as much as Brome alone. One of the finest of pasture combinations. We urge you to try it. On orders of this mixture we ship Alfalfa and Brome Grass seed to give you a 50-50 mixture by weight.

REED CANARY GRASS

BIG YIELDER RICH FEEDING VALUES

\$27⁵⁰ PER 100 LBS

GROWS ON VERY WET LAND GREAT DROUGHT RESISTER

45c per 100 Higher Chicago

A Remarkable Permanent Grass of Great Value

Here is a crop that can really "go to town." It's a remarkable crop in many ways and in a class by itself. It grows on extremely wet land, stands a lot of overflow yet withstands drought amazingly well. You should have seen it at the Iowa Experiment Station on 'upland one dry year. It stood out like an oasis on a desert. Farmers who came to look at the experimental field would spot it as soon as they entered the field. The Reed Canary Grass yielded 3 tons per acre when it was so dry Sudan made only half a crop. Produces 2 to 3 cuttings a year. No wonder farmers were enthused about it. You would be, too, if you had such a crop on your farm.

the fall. It is well adapted to pasturing after a good sod has been formed. And what a sod it makes especially on wet land.

Reed Canary grown on land so wet cattle would bog down in it, made a sod so strong it would support a team and wagon.

It is a perennial grass with a long life. In Minnesota a field was used for hay crops for 15 years and then 18 years as a pasture. A government report from the Pacific Coast showed it pastured four dairy cows per acre for seven months of the year.

Widely Adapted

You may ask, "Can I grow Reed Canary Grass?" This grass is adapted to all states from the Atlantic to the Pacific in the entire northern half of the country and as far south as into eastern Tennessee. If you have any low wet land there isn't a better grass you can grow. It will change acres that are worthless into valuable acres—real money makers. But it isn't limited to wet land as the Iowa Experiment Station has shown. It has been a real money maker. Use it for hay, pasture and seed production.

You can get all three in one year. First a seed crop. See below. Immediately after a hay crop and then pasture or hay. Sometimes a third cutting. The water table can be practically at the surface yet Reed Canary grass flourishes and it stands a lot of overflow. Again we would repeat that it also shows marked drought resistance. At the Urbana, Illinois Experiment Station for two years it averaged 5 tons of air dry hay per acre a year.

Postpaid: 1 lb., 50c; 5 lbs., \$2.25; 10 lbs., \$4.25.

Grows 5 to 6 ft. High

You almost have to see it grow to appreciate the value of this crop. It is a very leafy grass. And how it can yield. Up to 3 to 5 tons of cured hay per acre from two cuttings. The second crop is even leafier than the first although not as tall. You ought to hear farmers bragging about its feeding quality. We do not consider it equal to alfalfa in feeding value, but some growers claim it is. They report increased milk flow on Reed Canary Grass. Tests show 9.43% protein in first cutting and 11.76% in second cutting. They like it for pasture. They like it for hay and many make good money out of the seed crop.

Grows from Early Spring Until Late Fall

Lots of times you can hardly wait for spring to come and give you pasture. Reed Canary grass starts on the job real early in the spring and keeps at it until late in

How to Grow Reed Canary

It should have a relatively cool season for starting. Both fall and early spring seeding are widely practiced. Use 6 to 8 pounds per acre. Sometimes it is sown late in the fall so the seed will not germinate until the following spring. Be sure to prepare a good seed bed. Make it fine, smooth and get it well packed. Fall plowing is desirable although spring plowing can be worked into a good seed bed. Late fall seeding may be necessary on some poorly drained soils.

Sometimes the seed is sown during thawing weather in the spring. We suggest a light covering and packing it with a roller. About $\frac{1}{4}$ to $\frac{1}{2}$ inch is plenty of covering. If weeds get bothersome clip them back. Seedlings are as hardy as those of Timothy and will stand considerable freezing. The growth is not fast the first year. Second and following years give full and rapid growth.

Profitable Crop

Gordon Aebischer of Chilton, Wisconsin, says, "Hay yields run 1 to 3 tons per acre per cutting." Ordinarily 4 tons per acre in two cuttings. Seed yields range up to 450 pounds per acre. First seeding was in 1931. Have added more since and never had to reseed. Some of the land growing it is subject to overflow for as long as six months at a time.

Report from South

Frank Litchske near Enid, Oklahoma, sowed Reed Canary Grass in the fall four years ago. It has been growing continually since. He grazed 20 head of Hereford cattle on 4 acres for 60 days continually and there was still plenty left. He said it also makes good hay and checks soil erosion effectively in that wheat country.

Money in Seed Crop

Reed Canary Grass will produce 100 to 400 pounds or more of seed per acre. Even if the seed should get as low as 10c per pound that produces a nice extra cash income per acre. You don't have to sacrifice a hay crop for it. Good hay is obtained if cut immediately after seed harvest. It is a profitable crop as hay or pasture even if no seed is saved.

High Points in Canary Grass

Grows on very wet land. Withstands drought. Value of seed crop may run as high as \$90.00 per acre basis 20c price. Gives two to three cuttings per acre. Yields up to 4 and 5 tons per acre. Makes fine pasture. A seeding lasts many years. Comes on early in the spring and grows until late in the fall. Adapted to a wide area. It is a money making crop.

GRASSES

of SPECIAL MERIT

CRESTED WHEAT GRASS

EXTRAORDINARY DROUGHT RESISTER

If you want the most highly drought resistant grass, sow Crested Wheat grass. In sections with as little as 10 to 18 inches of annual rainfall and high evaporation it has made a very satisfactory growth. Yields of 3 tons per acre are recorded in more humid sections and seed production up to 900 pounds per acre.

It is a deep rooted long lived perennial grass. A fine stemmed leafy grass. Roots go down as much as 8 feet and are very dense. It does not spread by under ground root stalks, therefore is easier to eradicate than some grasses. On the other hand it does not become sod bound like some dryland grasses or to deteriorate like others.

Comes on Early—Grows Late in Fall

Starts growing unusually early as it likes cool weather. No amount of freezing or subzero temperatures seem to hurt it. Begins growing in the spring from one to two weeks before Brome Grass which is also an early starter.

Likewise it continues growing later in the fall. During hot weather it becomes dormant but responds quickly to a little fall moisture. It has not been definitely determined how far south it will grow. Has been grown in Colorado and Illinois and is worthy of trials further south and east.

It is under extremely dry conditions that it shows its most striking superiority over other grasses.

Other Valuable Characteristics

It stands close grazing and trampling remarkably well. In one test it was grazed continuously for five years from early spring until late fall without apparent injury. It has proven a fine weed eliminator. A field that was heavily infested with mustard and Russian Thistle was almost totally freed of these weeds after Crested Wheat was established, yet the grass is easily eradicated. It is relished by all classes of livestock and especially horses. Cures to greenish stems and abundant leafage as hay which is very palatable and highly nutritious. No grass is more winter hardy.

Seeding Suggestions

Prepare a fine well settled seed bed. Rolling or packing are desirable. Use about 10 pounds per acre and sow with grain or grass seed drill. Relatively early spring seedings when weather is cool and moisture conditions most favorable for quick germination are best. Cover seed about half an inch. In very dry sections cover a little deeper. Rolling is a good practice.

Postpaid: 1 lb., 40c; 5 lbs., \$1.75; 10 lbs., \$3.00.

RED TOP GROWS MOST ANYWHERE

Seldom Fails to Make a Stand

No other grass will grow under as great a variety of conditions as Red Top. It will grow on soils so poor in lime that most other grasses fail. Next to Reed Canary it is the best wet land grass. It is also strongly drought resistant. Fine to sow on banks to prevent erosion. If you have trouble in getting a stand of grass, sow Red Top—it seldom fails.

It is second only to blue grass as a pasture plant especially in the northeastern part of our country and it grows when blue grass often fails. On sour land we know of no grass to equal it. Red Top and Blue Grass is good for both pasture and lawn purposes. Likewise it is good in hay mixtures and it is widely used in that way.

Adapted to the Entire Country

Red Top thrives from Canada to the Gulf and from New York to California. It is a vigorous grower and quickly forms a turf. Very valuable for use in soil erosion work to stop washing. When used with Timothy for hay it generally increases the yield. Matures at about the same time.

It is a perennial grass. One seeding lasts several years. The seed is small. Around 10 pounds per acre are sown when not mixed. A mixture of three or four pounds per acre is fine in pastures and meadows. May be top sown on old stands to increase production. Early spring or late summer is the best time to sow.

The seed is very small therefore the seed bed should be fine and solid. Take care not to cover it too deeply. Red Top is cheap this year compared with Blue Grass, Orchard, Brome, etc. If you wish to get a grass that is economical to sow and almost sure to get a stand even on poor land be sure to sow some Red Top this year. Use it with Timothy for hay and with Blue Grass for pasture. It will help you get more feed per acre. Check soil erosion with Red Top. It is a crop that can fill an important place on your farm.

Small Lots Postpaid, 1 lb., 35c; 5 lbs., \$1.50; 10 lbs., \$2.75.

higher at Chicago

Bermuda Grass

This grass is very widely used in the south for lawns and pastures. Stands the extreme heat of southern locations better than any other on soils of a clay or loam character. Grows on sandy soils too but is less productive on them. The seed is quite small. Five pounds sows an acre, although for lawn seeding a heavier rate is recommended. It is not very winterhardy and probably will winter kill north of Kansas and similar locations.

We have a very nice quality of seed for you and we are pricing it on a close margin.

Prices Bermuda Grass
Small lots, postpaid, 1 lb., \$1.25; 5 lbs., \$5.00; 10 lbs., \$8.50. Not prepaid, 10 lbs., \$7.50; 25 lbs., \$18.00; 50 lbs., \$34.50.

45c per 100 higher at Chicago.

\$7.50
10 LBS

Western Wheat Grass

A native American Grass. It is very resistant against extreme cold and drought although will not stand it to the extent that Crested Wheat Grass does. It produces wonderfully well, however, under average drought conditions. Grows remarkably well on Alkali soils. Not suitable on land subject to much overflow. Grows 2 to 4 ft. high and yields are around 2 to 4 tons per acre. Matures a little later. The seeds are larger than Crested Wheat and it requires 15 to 20 lbs. to sow an acre. May be sown alone or with small grain as a companion crop. This crop has certainly come up fast in popular favor.

Postpaid, 1 lb., 40c; 5 lbs., \$1.75; 10 lbs., \$3.00. See page 40 for prices on large lots, not prepaid.

25 LBS

KENTUCKY BLUE GRASS

A Most Valuable Pasture

This long lived perennial grass is well known as an outstanding pasture and lawn grass in a great portion of our country. It is

very nutritious and highly palatable. Grows from early spring until late fall. Makes a fine sod and stands close grazing. Stands a lot of drought, coming out after long dry spells in an astonishing manner. It is adapted to a wide territory and to different soil types. Will stand some wet conditions and some acid but not as much as Red Top. Because of its fine quality it is widely desired for pasture.

Make Blue Grass More Profitable

Blue Grass pasture should be good money makers yet on many farms they are not. That is not the fault of the grass but more often due to neglect. When bare spots show up little attention is given them. It is hoped they may be reseeded by mother nature. Sometimes they are but it is slow. Meanwhile you lose what bare spots might be producing and weeds creep in. Save money by reseeding such places.

Other ways in which you can improve Blue Grass pasture is to fertilize them. Grasses use plant food same as grain. Sow clovers in Blue Grass to give them more nitrogen. Sweet clover is excellent for that. Clip weeds before they go to seed. Disc it occasionally and harrow early in the spring. Do not over-graze it in dry season.

Good pastures pay good profit. You lose money on poor ones. Use Berry's Extra Fancy Quality seed to build money-making acres.

Seeding Suggestions

Buy good seed but don't pay too much for it. Our prices should save you money. In spite of short crops our prices are low. Prepare a fine, well settled seed bed. Sow in the spring or fall. Spring seedings may be made with a light crop of grain as a companion crop. Often it is best to cut grain for hay so as to give the grass a better chance. Some clover also may be used with a spring seeding. Timothy is sometimes used both with fall or winter seedings. Blue Grass straight is sown 15 to 20 lbs. per acre. In mixtures, reduce to suit your ideas. For thickening thin spots 8 to 10 lbs. are generally sufficient. Whenever possible roll after seeding. See page 40 for Chicago prices.

Blue Grass for Lawns

For lawns a very thick stand is desirable and a pound to every 5 or 600 square feet is suggested. An application of commercial fertilizer and a little lime will make a more luxurious growth, give it better color and help keep out weeds such as dandelions.

Small Lots, Postpaid: 1 lb., 40c; 5 lbs., \$1.80; 10 lbs., \$3.50.

\$20⁰⁰
100 LBS.

ORCHARD GRASS

Adapted to a Wide Region—Fine for Shady Places

Orchard Grass is grown in nearly every state in the Union. It is most common north of Alabama and Georgia and eastward from and in Iowa and Missouri. Also grown south and west of these localities. It has soil requirements similar to Timothy and Blue Grass but can be grown in a wider range of climates. It is grown alone for hay and pasture but is perhaps most generally used mixed with other grasses and clovers. A mixture of Orchard Grass with clovers makes fine hay especially for fattening cattle for market. We consider it very good with sweet clover because it grows in the shade of taller plants better than any other grass we sell. Orchard Grass makes best hay if cut when just in bloom. Makes a good aftermath for pasture.

Starts Growing Early and Grows Late in Season

The early starting growth of Orchard Grass in the spring makes it a valuable addition to pasture seedings. It grows luxuriously then and again in late fall it adds to the productiveness of pastures. Add it to Bromie, Sweet Clover, Blue Grass, Timothy and other grasses for pasture. Orchard Grass helps make a well balanced pasture. There is good money in seed production at this time.

Fifteen to twenty pounds per acre are generally sown when a stand of straight Orchard Grass is desired. The percentage in mixtures is one of personal preference. Sow spring or fall and follow the suggestions given above for Blue Grass.

Sow good seed. Let us send you a sample of our stock. See the liberal savings. Order with the complete assurance of a satisfactory shipment. Small lots, 1 lb., 50c; 5 lbs., \$2.25; 10 lbs., \$4.25. See page 40 for Prices at Clarinda and Chicago.

\$33⁰⁰
100 LBS.

English Blue Grass

A Grass That Is Widely Adapted

A crop used for hay and pasture. Yields around 2 tons of hay per acre on average land. Grows 15 to 30 inches high. Exceptionally valuable for pastures because it comes on very early in the spring and keeps on the job until late in the fall. Grows well from Kansas and Nebraska east to the Atlantic Coast and from Canada to the Gulf of Mexico. Not critical as to soils. Few grasses can equal it on wet land. Lives longer than Timothy. Seed cost is low this year. Sow about 20 lbs. per acre. It is a profitable crop either alone or in mixtures. It adds variety to pastures and increases their value. Grow some of it this year.

See page 40 for Clarinda and Chicago prices. Small lots, postpaid, 1 lb., 50c; 5 lbs., \$2.25; 10 lbs., \$4.25.

Lot "TIM" Red Top & Timothy

A Popular Low Cost Seeding

Our trade uses a lot of this for top seeding in pastures and meadows, and new stands. Many sow it alone, others add Alsike and other clovers. Adapted to a wide range of soils and climate. Especially good for wet land. Ten pounds an acre makes a full seeding. A.A.A. payments 40c an acre where adapted.

Lot "Tim" is Red Top containing some Timothy seed. We secured this seed at low cost and are selling it at figures that make an appealing bargain. The low acre seeding cost and the ease of obtaining stands make this a very popular value. Shipment guaranteed to please.

See price list for other quantity prices. Small lots, postpaid, 1 lb., 30c; 5 lbs., \$1.25; 10 lbs., \$1.95.

GROW QUICK PASTURE MIXTURE

\$2.40
BU
25 LBS

A Popular Mixture at Reasonable Cost

Our Grow-Quick Mixture is a big seller. The cost of seeding is low and it gives quick production. You can begin pasturing it lightly within relatively few weeks after sowing.

This spring may find many farmers short on pasture. This is a seeding that may help you solve your problem. Good quality seed is used and we mix it as thoroughly as we can so as to give you a fine value at low cost. Less than \$1.50 per acre for this rich mixture.

Contains Approximately 50% Clovers

The Rye Grass in this combination is a fast grower and affords the earliest feed. Meanwhile the Sweet Clover, Korean and Timothy are developing to increase its production and value. It keeps on growing until after frost. The Korean will reseed for the next year unless the season is too short. The Sweet Clover and Timothy of course live over winter and can be used the next year for plowing under, for continued pasture or cut for hay.

Sow 15 to 20 lbs. per acre. Cover seed lightly and roll if possible. A firm seed bed and a light covering are always helpful in getting stands. Sow about the time you sow small grain. Do not use a nurse crop.

Contains
**Korean Clover,
Sweet Clover,
Domestic Rye Grass
and Timothy.**
Approximately 50%
Clovers, Balance Grasses
Chicago Price \$2.55

PERMANENT PASTURE and MEADOW MIXTURE

Thrifty Mixture

A combination of Grasses and Clovers that give our customers very satisfactory results at low seeding cost. A seeding that lasts several years. Produces a fine quality and variety of feed. Gives a longer pasture season. Some of the crops in it start early. Others grow through hot dry weather and late into the fall. Some stand wet conditions. Others prefer it dry. Under almost any conditions it can give you a stand that is productive.

The grasses in the mixture are Kentucky Blue Grass, Red Top, Rye Grass and Timothy. These are combined with Korean Clover and Sweet Clover. The Rye Grass grows fast and serves as a nurse crop although a light seeding of grain can be used if desired. Red Top is also quite a fast grower and these two grasses provide early feed. The Korean and Sweet Clover are generally ready to pasture by mid summer and on till late fall. The Timothy and Blue Grass also add to the fall pasture.

The grasses are all perennials excepting the Rye Grass. The Korean Clover is an annual but generally reseeds itself no matter how closely it is pastured unless the season is too short. The sweet clover is a two-year crop and it too, nearly always reseeds when in pastures. Thus you have legumes to build up your land, increase the growth of the grasses and improve the feeding value of the pasture. Sow 15 to 20 lbs. per acre.

We guarantee the quality of the seed to show up to your entire satisfaction and assure you of good value. Your money back if the seeds or the savings are not fully satisfactory.

\$5.60
50 LBS.

Master Mixture

A combination of grasses only. Contains no clovers. Many of our customers want such a mixture. Some have clovers of their own to add. Some don't care for clovers. Others want to add one kind of clover and some another. So here it is. A straight grass mixture that we are sure you will like and priced to please you.

Our Master Mixture contains Kentucky Blue Grass, Brome Grass, Timothy, Reed Canary, Red Top and Crested Wheat Grass. These give a variety of grasses and that is what livestock likes. There are other advantages. All of them are perennials. Some start earlier in the spring. Brome Grass takes the heat and drouth exceptionally well. Meadow Fescue starts early and will grow until late in fall. It is widely adapted. Red Top grows most anywhere. Reed Canary stands wet and drouth. Timothy fills in well for several years as the other grasses are getting well established.

Poor thin pastures don't pay their way. They lose money. They become infested with weeds. They start to wash and erode. Thicken up old stands by reseeding. Disc the land, harrow. Sow one of our mixtures and roll or pack the ground. Make new seedings if old ones are too far gone. See page 25 under Blue Grass for seeding suggestions. Use 10 to 12 lbs. of mixture for top seeding or 18 to 20 pounds for a new seeding. Make those pasture acres profitable. More stock per acre for a longer period of time getting a greater variety of feed.

We use good seed and mix it as thoroughly as we can according to a definite formula. The shipment is guaranteed to please you. If you do not consider it a great value in every way at our low price you may return it for refund plus freight.

clover seeds. See p. 41.

BERRY'S LAWN MIXTURES

GENERAL CHOICE MIXTURE

This makes a fine smooth lawn in the northern half of the United States. Contains chiefly Blue Grass, Red Top, White Dutch Clover and Rye Grasses. The quicker growing grasses provide a nice green stand while the slower kinds are coming on. It is our most popular mixture, because it gives such wonderful satisfaction. Postpaid price: 1 lb., 30c; 3 lbs., 80c; 5 lbs., \$1.30; 10 lbs., \$2.50. A pound sows about 500 square feet.

TERRACE MIXTURE

This mixture contains deep rooted grasses. They hold the soil firmly and resist drought. Select this for terraces and sloping places. Soil on terraces is often filled in dirt of low fertility. It will pay you to fertilize your ground well. You cannot have a nice lawn on poor soil. Postpaid price: 1 lb., 50c; 3 lbs., \$1.30; 5 lbs., \$1.90; 10 lbs., \$3.60. All seed is thoroughly cleaned and tested.

SHADY-SPOT MIXTURE

This contains grasses naturally adapted to growing in shade, such as Poa Trivialis. Fine for grounds shaded by trees or buildings. In heavy shade a light application of lime in addition to fertilizer will improve results. This is a dandy mixture. Postpaid price: 1 lb., 45c; 3 lbs., \$1.20; 5 lbs., \$1.80; 10 lbs., \$3.25.

WHITE DUTCH LAWN CLOVER

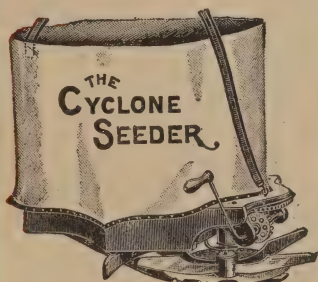

The small white clover so popular for lawns. This may be mixed with any lawn grass seed you have on hand or sown on an old lawn in the early spring. Very drought resistant. Helps soil fertility. Seed is very small. A pound sows 1,000 or more square feet, depending on how heavy percentage of clover is desired. Postpaid price: 1 lb., \$1.00; 3 lbs., \$2.70; 5 lbs., \$4.25; 10 lbs., \$8.00. See page 40 for larger quantities.

KENTUCKY BLUE GRASS

The most satisfactory all purpose lawn grass for the U. S. from Nebraska and Kansas east to the coast and from Canada south to Tennessee. Stands drought. Makes an excellent turf. Grows from early spring until late fall. Use Berry's quality Blue Grass. Postpaid price: 1 lb., 40c; 3 lbs., \$1.10; 5 lbs., \$1.80; 10 lbs., \$3.50.

TESTED RELIABLE SEEDERS, CLEANERS AND SEED TREATMENTS

CYCLONE SEEDER

This handy seeder can save you many dollars a year. It saves on seed cost because it distributes seed nicely and therefore less seed per acre is required. It also saves on labor costs as with a Cyclone Seeder you can sow many acres per hour.

Sows Clover, Timothy, Alfalfa, Lespedeza, Sudan, Oats, Wheat and any other seed that is sown broadcast. Can be regulated for any amount per acre.

Its well known double feed insures a uniform flow of seed. Sloped feed board keeps hopper properly filled. Feed adjustment is automatic. Distributing wheel scatters seed evenly. Throws equal amounts to equal distance from operator. Full directions for setting furnished.

Postpaid price \$2.85

HORN SEEDER

Sows all smooth seeds like Alfalfa, Clover, Timothy, Lespedeza, etc. Patented Brass Seed Gauge regulates amount per acre to be sown and it is reliable. Tube comes in sections or joints that fit tightly. Easily operated.

Postpaid price \$1.00

USE SEED TREATMENTS FOR BETTER YIELDS

Treating seeds like Corn, Oats, Barley, Wheat and potatoes pays. That is especially true when unfavorable weather conditions increase the danger of disease damage. Seed treatment brings larger yields and often a much better quality in the crop produced. The cost is small. For Potatoes it is only 2½¢ per bu. Corn about 15¢ per bu. or less than 3¢ per acre. Small grain treatment is also about 2½¢ per bu. See catalog pages referred to below for description and prices.

For Corn
Merko—Page 16

For Small Grain
Ceresan—Page 20

For Potatoes
Corona P.D.7—Page 17

SEED CLEANER Clipper Mills

Just before going to press we were advised that the manufacture of farm size cleaners was ordered discontinued for the duration. Sorry but it can't be helped.

SPECIAL ON ALFALFA WORLD BRAND Approved Origin

\$20.70 per bu.
\$20.95 f.o.b. Chicago

When AAA made payments for alfalfa seedings they required that the seed sown should be of approved origin. This was to make sure farmers would sow seed adapted to their section. This approved origin Alfalfa is the type they designated as approved for the North Central region which includes states like Wisconsin, Michigan and Minnesota as well as states farther south like Iowa, Illinois, Missouri, etc.

By making an early contract we were able to secure a limited quantity of this approved origin seed in high quality at a very low price. The quality is beautiful. Plump, clean and high germinating. The finest World Brand quality obtainable this year. Shipment guaranteed to please you in every way. We only wish we had more of it. Save up to \$6.00 per bushel over other seed of equal hardness rating. Better hurry for we can't replace it. Order approved origin World Brand Alfalfa.

KOREAN CLOVER

\$2.00
BU.

25 lb.

See below for other prices

Grows on the poorest land

Wonderful pasture—Excellent Soil Builder.

A VERY VALUABLE CROP

The heavy September freeze, coldest in 60 years, damaged seed crops in many sections. There will be much reseeding. Order early before supplies are gone.

Korean is a Nitrogen gatherer and will improve the poorest land where other clovers cannot even get started. It will resist more heat and drouth than any other clover. It will stop soil washing and will grow in ditches and gullies.

CHARACTERISTICS

Korean is an annual. It grows only one year from a seeding. It reseeds itself very readily and matures seed even after plants have been killed by frost. Thus it is proving itself adapted farther north than was at first thought possible. It is steadily and surely working its way north into Iowa, Illinois, Ohio, Indiana. If it does not reseed itself it will not come up the next year. When it does reseed the stands get heavier from year to year.

It is quite a common practice to put oats on land where Lespedeza has reseeded itself. After the oats are off, there is the Lespedeza to give an abundance of pasture until frost. A very valuable crop. Superior to Alfalfa and other clovers in acid or thin soils.

PASTURE VALUE

Korean shows its greatest worth in pasture. It does not afford much feed early but produces its best during the latter part of June and in July and August up to killing frosts. Therefore Korean gives pasture when most other grasses are dormant because of heat or drouth. No matter how close it may be pastured the crop will reseed if heavy frosts do not come too early. We therefore recommend Korean as a mixture for all pastures, new and old.

VALUE AS A HAY CROP

Korean does not grow very tall. To get a good hay crop the stand should be heavy. While it is not tall the stems are very leafy and a surprisingly large yield can be secured from a stand that seems fairly short. One of our customers reports a yield of three tons per acre and a seed crop afterwards. This was in central Missouri.

SEEDING SUGGESTIONS

The firmer your seed bed the better your success. Just broadcast seeding during winter or early spring. If sown with spring grain just scatter on top and then roll the land. Be sure to avoid covering it much.

Korean Prices

Regular Grade, \$2.00 bu., Clarinda, \$2.05 Chicago.

25 lb. Bu. Nice quality re-cleaned seed of high germination and good purity. Sow 12 lbs. per acre.

Special Grade, \$2.25 bu., Clarinda, 25 lbs.

Selected especially to comply with provisions of Iowa Seed law. Sow 12 lbs. per acre.

Hulled Korean \$7.20 for 60 pounds—30 lbs., \$3.60—15 lbs., \$1.90.

Has hulls removed. Generally germinates quicker. Best for late seeding. Sow 10 lbs. per acre.

In buying Korean don't be misled by too low prices. Much of the seed contains excessive weed seed and is no bargain. Considering quality our prices are low. Quality brings real satisfaction.

Ask for our Free Circular on Lespedeza.

INOCULATE YOUR SEED

Inoculation helps get bigger and better stands. Cost is low. A bushel size package inoculates two 25-lb. bushels of Lespedeza. 1 bu. size, only 30c; 2 bu., 50c; 5 bu., 90c.

Early Giant KOREAN

Matures Earlier—Grows Taller

**Adapted Further North
Also Known as No. 19604**

\$4.50
BU.
25 LBS.

You who want to grow Lespedeza and have found you are a little too far north for regular Korean should by all means order this Early Giant. It matures quite a bit earlier and may be grown 100 to 150 miles north of the regular Korean. Because of its earliness it is more certain to produce seed and thus reseed itself or provide a cash seed crop. Sow it this spring. Harvest a seed crop this fall. Seed yields of 1000 pounds per acre reported. Get a big cash income after your small grain crop.

Grows Taller

Growth up to 2 feet reported in dry season of 1936. Stands drought but responds well to moisture conditions. Compare growth of 18 to 24 inches with regular Korean. Early Giant is generally about twice as tall. Like regular it grows on very thin land without lime. Makes better hay. Valuable as a pasture. Has a very leafy growth and is high in food value. Adds nitrogen to your land.

Grow This Adapted Korean

This is the Korean you want if you live under conditions from southern Iowa to north central Iowa. There is a big need for this in states like Nebraska, Illinois, Indiana, Ohio, Pennsylvania and others where regular Korean does not do well. Don't use regular Korean where it is not adapted, but sow this Early Giant which is also known as No. 19604. Get it started in your neighborhood. Sell your first seed crop locally at a premium. Make those thin acres produce good profits. Make sure of your seed supply by ordering at once. Figure 10 to 12 lbs. per acre.

Small lots, postpaid: 1 lb., 40c; 5 lbs., \$1.75; 10 lbs., \$3.00

SERICEA LESPEDEZA

A perennial Lespedeza. Comes up from roots in the spring. Has wintered as far north as New York. Grows on very sour soil without lime. Grows taller and coarser than Korean. Very leafy. Highly drought resistant. High feeding value. A great soil builder. Sow about 6 to 8 pounds per acre, about April 15th in latitude of southern Iowa. Wants a solid seed bed. Cover seed lightly.

Seed supply is still limited. All prices are for prompt orders. See page 40. Pays up to \$1.50 acre. A.A.A. See p. 9.

Small lots, postpaid: 1 lb., 60c; 5 lbs., \$2.50; 10 lbs., \$4.50

Dear Sirs: I have used your seeds for fifteen years and have found them the best for the money. The Berry Seed Co. has saved farmers thousands of dollars by selling good seeds at popular prices. They are reliable.

Yours, M. A. McNEAL

Look at this great value. See the quality of this seed which is the heaviest yielder of all our mixtures. Fifty percent of clovers which are Red, Alsike, Sweet and Alfalfa balance Timothy. Rich in hardy, heavy yielding clovers yet low in seeding costs. You will have approximately 45 to 50 clover seeds per square foot when you sow this at 11 pounds per acre and the Timothy besides. That makes a cost of less than \$1.50 per acre. You can sow less seed, bring the cost still lower and get good results.

A Seeding That Lasts Several Years

Such a combination of clovers and grasses makes extremely heavy yields of hay. Our customers report highly satisfactory results. Big crops, Fine quality and Big savings in cost. Many use it as a pasture. They stock it heavily and get feed of excellent value. The alfalfa seed in the mixture helps to establish the crop on your land. The sweet clover opens up the soil and adds much nitrogen. The Red and Alsike fill the lower growth and the Timothy supports them and adds to the weight and growth of all. It is a great seeding and it is no wonder our customers are enthusiastic about it.

Quality Guaranteed to Please

The enclosed sample speaks for itself. Note the heavy clover content. This seed is all hardy domestic seed that has been re-cleaned. Note the letters in the opposite column. Results are what count. Satisfied customers can tell you of the great value of this seeding better than we can. Order with complete assurance of a satisfactory shipment. Your money back if you do not consider it a great value on which you have made a big saving. See our guarantee on page 8.

Start This Profit Maker

You, too, can become enthused over its wonderful production and high feeding value. See how it checks soil erosion and enriches your land. That dense heavy mat of clovers is a joy to behold. We sell thousands of bushels of Marvelous Mixture every year and with present low prices on such a combination of all home grown seed its sales should smash all previous records. We will protect prices until seed is sold or market advances make duplication impossible. Get the best bargain now. Sow around 10 to 12 lbs. per acre.

**Price is 15c per

A Few Who Speak for Thousands

It is the experience of our customers that gives our Marvelous Mixture its strongest endorsement. It is the heaviest producer we have ever developed. High in feeding value. Rich in soil building elements. Suitable for hay and pasture. Low in seeding costs. It makes an ideal combination for thousands of farmers.

Saves 50% at Berry's

Stratford, Wisc.

Dear Sirs:

I was more than pleased with the seeds I bought from the Berry Seed Co. Never had a finer stand of hay. Sowed Marvelous Mixture this spring, and the seeding looks very good. I feel I saved about half by buying from this Co.

Yours truly, THEO ROGGENBAUER.

Yield and Quality Fine

Catawba, W. Va.

Dear Sirs:

I have been using your Marvelous Mixture of grass seed for more than eight years with satisfaction. The quality and yield has never disappointed me, and can heartily recommend to others desiring good seed.

Yours truly, WILLIE L. ROBE.

Good Stands—Big Yields

Hillsdale, Wis.

Gentlemen:

We have been using Marvelous Mixture grass seed on our farm near Blue River, Wis., for a number of years and have been well pleased with the results. Have had the best stand and best yield of any seed sown for several years.

Yours truly, G. L. POUND.

Splendid Hay—Lots of It

Martinsville, Ind.

Berry Seed Co.

Dear Sirs:

I find your Marvelous Mixture makes splendid hay and I got 21 loads off of 9 acres first cutting and 11 loads of fine Alfalfa this year in second cutting. In 1928 I bought one bushel of Kansas Grown World Brand Alfalfa, and it is still fine field of hay and thick as ever, so I have been using your seed ever since.

(Signed) W. L. COLEMAN.

Marvelous Satisfies

Kent, Ohio.

Dear Sirs:

I had good results with your Marvelous Mixture, very heavy crop and good quality. Your Marvelous Mixture is my choice. There is no guesswork about this seed. I have recommended it to a good many friends and neighbors.

Yours truly, J. B. SMITH.

LOT
HONEST JOHN
FOR FINE STANDS
BIG CROPS ~ LOW COST

Only
\$18⁷⁰
BU.
60 lbs per bu.

GENUINE HARDY CORN BELT STOCK

SEE
PAGE 34

Here you have one of our biggest selling lots of Alfalfa seed. Serviceable seed priced extremely low. We believe this to be absolutely the lowest price at which you can buy seed of this character. It has purity and germination tests that we have found adequate to produce good heavy stands. And our customers have found it so. The saying "thick as hair on a dog's back" indicates the character of reports we have from many customers. People write us "we want some of your Honest John because we saw what it did for our neighbors. They had better stands than we did from much higher priced seed."

This Honest John is the same in hardness as any of our Corn-Belt stock. It should yield as well and last as long. The appearance of the seed, however, is not as nice as the higher priced lots. The color is not as good nor the berries as large. If you do not object to a lack of uniformity so long as it can produce satisfactory results, then the seed should please you. It is a seeding that pleases thousands. Sow 15 lbs. per acre. There are more seeds per pound than in larger berried stock.

TWO OUTSTANDING ALFALFA VALUES. BUY NOW!

**GENUINE
NORTHERN
GROWN**

**GRIMM
Lot NORTH**
Approximately 99% Crop Purity

FROM THE "ORIGINAL" GRIMM FIELD STATE-SUPER HARDY STOCK

The seed in Lot North comes from states where severe winters kill non-hardy plants and leave only the hardiest to survive and bear seeds. States like Minnesota, Montana and Nebraska. Contains no southern seed. Seed of this character is always in big demand and sells at a premium over other less hardy origins. Our present price is figured extremely low. A bargain in extra hardy stock.

Wherever conditions cause much trouble with winter killing, Grimm should be used. Here is a lot of nice quality seed that is priced to make it an extraordinary value. We secured this seed at a low figure. It is priced so you can secure a nice saving by acting promptly. Don't wait.

Lot North has the high quality characteristics. Good color. Smooth uniform berries, 99% pure including around 2% to 4% crop seed which is principally Red Clover and Sweet Clover. Good germination. A vigorous growing type. We'll gladly send you a sample. Compare it with the best grades. Consider the hardy character of this seed. Your saving should run around \$2.00 to \$3.00 per bu.

This is not our lowest priced seed. Other lots are described on pages 31 and 34 to 37. They are all fine values but this is such an outstanding bargain that we give it our special recommendation to all who want Genuine Northern Grown seed and do not object to a small percent of crop seed. See page 41 for Inoculation.

BERRY'S Finest Grade

GRIMM ALFALFA

Our Finest Corn-Belt Grimm

We sell different grades and origins of alfalfa as described on pages 30 and 34 to 37. The greatest possible measure of value is packed into each lot. The Grimm is gaining in popularity among farmers everywhere because of its finer character of hay and extra winter hardiness.

Our World Brand Corn-Belt Grimm has for years been one of our biggest selling lots. This present low price is made possible through early purchases and cannot be duplicated at this writing to sell for anywhere near so low a figure. It is a real bargain in high quality seed.

Supplies Short—Buy Early

Alfalfa seed is short this year, especially seed of hardy origin. Too much wet weather in many of the big seed producing sections caused a poor set of seed. Then a hard early freeze caught a big portion of the crop before it was cut. The result is less seed with

the high colored, extra fancy stock particularly short. Wholesalers who went into the market late had to pay extremely high prices. Very few have sufficient seed for a normal demand. We advise all customers who want high quality, extra hardy Grimm Alfalfa seed to buy now.

\$24⁶⁰
60 LBS BU.

World Brand Quality

There is a sample of World Brand Dak. No. 12 Alfalfa enclosed. That is indicative of our World Brand quality in other lines of seed as well. Note the smooth uniform character, the nice bold berries, the high purity and color. Old customers know World Brand represents our finest and best. For years it has satisfied our most critical customers. To you who demand the best we say, buy World Brand. Why pay more for the best than Berry's Direct-to-you prices? Save \$2.00 to \$5.00. Quality and Savings guaranteed satisfactory.

For best success with alfalfa—Inoculate your seed. The cost is low. Returns are large. See page 41.

DAKOTA No. 12 ALFALFA

WORLD BRAND QUALITY

\$24⁰⁰
60 LBS BU.

See sample enclosed of this alfalfa that is so great a favorite. This sample not only indicates the quality of this lot but shows the fine character of seed you can expect in World Brand grades of other seeds like Red Clover, Alsike, etc. Our Dakota 12 seed is Nebraska grown. In this state extremes of heat and drought and cold develop a type of alfalfa adapted to wide variations of climate. It is capable of taking a lot of punishment. Many farmers will sow no other kind, claiming it as hardy as Grimm and more productive. We consider it adapted anywhere that hardy Alfalfa is needed.

Compare our values on this fine alfalfa seed. Our price should save you around \$3.00 a bushel. Thrifty buyers will be delighted with the saving and the quality will please the most critical farmer. Better Buy Early for Best Bargains.

UNITED STATES GROWN

RED CLOVER LOT LEADER

99% PURE Including Crop Seed
A SEEDING MANY FARMERS PREFER

I got to figuring late last fall on how to give our customers a bang-up clover seeding at a most reasonable price. Since Red Clover seed is scarcer the markets have advanced. I know other farm products are higher and that as a whole farmers have more income. However, with higher labor costs, taxes, etc., there will still be farmers who are watching expenses. Therefore, I figured if I could sell a real high quality seeding at a lower cost it should be very popular. You will find just that in Lot Leader.

Character of Lot Leader

It would be easy enough to make a low price if quality was sacrificed, but I knew you wouldn't want that. The seed had to be very clean of weeds and have a high crop purity. Knowing that it is sometimes possible to get red clover seeds from fields that contain some other clovers, at a sharp discount, I started looking for such lots. I found several running from 8 to around 12% other clover crop seed like Alfalfa, Alsike and Sweet. The total purity including these was 99%. They are truly beautiful looking lots of bright, plump, high germinating seed.

All High Quality Seed

The next question was,—could the cost be lowered still further without hurting quality or yielding ability. Experience has proved to me that a little Timothy in with clover improves rather than hurts yields. In fact quite a large proportion of Timothy can be used. However, in this seeding I decided that by including a very moderate amount a farmer sowing it would get practically the equivalent of a straight clover seeding. There is enough Timothy to act as a supporting crop for the clover. That really helps as the clovers then grow more erect, there is less loss of clover leaves. The quality of the hay is often superior. Also the clover increases the feeding value of the grass. The timothy content was therefore set at about twenty-five percent.

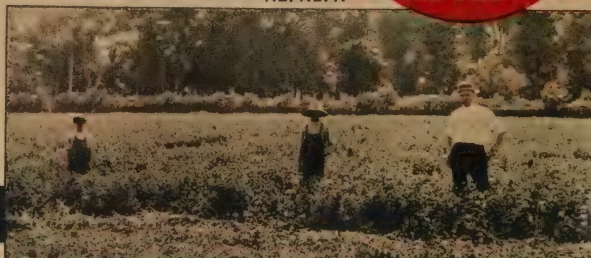

Cost Only Around \$1.50 Per Acre

Here then is a dandy clover seeding with a little grass having a high crop purity and very free of weed seed. Seven pounds will sow an acre. It should yield fully equal to a regular straight clover seeding. In fact I am certain it will yield more. The seed is all hardy domestic stock adapted any where in the U. S. It is mostly Idaho-Minnesota grown. I consider this the most outstanding value in clover seedings for the year. Buy it and if you are not completely satisfied let me know. I'll have it returned and promptly refund your money plus freight. This is truly a big extra value.

For best results with clover seedings be sure to inoculate your seed. The cost is low. It is easy to apply. A package that inoculates a half a bushel of seed costs only 30c; 1 bu. size 50c; and 2½ bu. size 90c. See page 41.

OTHER LEGUME CROP SEED, MOSTLY ALFALFA

Only \$10⁸⁰ BU.
50 LBS

A MONEY SAVING MIXTURE

LOT JUST-RITE RED CLOVER

WITH ALSIKE and TIMOTHY

\$7⁵⁰ BU.
45 LBS.

Very Satisfactory

This seeding is still lower in cost than Lot Leader. We have sold this for several years and it has proven very satisfactory and highly popular with our customers. The cost is only \$1.25 per acre as a bushel will sow around 6 acres. Contains plenty of clover seed for excellent stands and the seeding cost is very low. The seed is all hardy domestic seed adapted any where in the U. S. where such seeds are grown. The best evidence of its great value is the many repeat orders we receive. Customers who have once used it like the results they get and buy it again when they make another seeding.

The crop produced from Lot Just-Rite is heavy and high in feeding value. It is an excellent soil builder and stores nitrogen in the land as well as increasing the humus content. Our sales records show this to be the biggest sellers of its class. There is real economy in this lot.

Gives a Fine Clover Seeding

It contains 50% or better Red and Alsike Clover carefully mixed with Timothy. This runs 30 to 35% Red Clover, 15 to 20% Alsike. When you sow this at the rate of a bushel to six acres you will have approximately 20 Red Clover seeds and 18 Alsike seeds per square foot. A total of 36 clover seeds per square foot and you have the Timothy besides to hold up the clover and increase the yield.

Recleaned Quality Seed

Do not compare this with country run or cheap seed of doubtful quality. We haven't tried to see how cheap we could make this. On the contrary we have made it the best possible value at this low price. It is cleaned seed, carefully mixed. It has the quality to produce good stands.

You can use it for hay, pasture and for soil erosion control. It is an adapted seeding and a good one priced to save you money. If you don't believe you have made a worthwhile saving on quality seed, return it and get your money back including freight charges.

For best results from clover seedings—Inoculate your seed.

½ bu. size package, 30c; 1 bu. size, 50c; 2½ bu., 90c.

RED CLOVER

For
Highest Quality Buyers

When it comes to really building up land for a corn crop you can hardly beat Medium Red Clover. It gets the job done without excessive burning or drought damage. The real quality corn crops come from Red Clover sod. And of course there is good money in hay, seed and pasture crops. To get good clean vigorous hardy stands use Berry's World Brand. It is the quality that has pleased our most critical trade for years and is distinctly superior to the so-called best grade of many dealers. The government is buying up clover under the Lend Lease act. You can expect sharp market advances.

ECONOMICAL AND SATISFACTORY

This quality pleases because of the results it can give. It requires less seed per acre than country run or poorly cleaned lots. A bushel goes further. This seed is priced very low considering its fine quality. If at any time within 60 days after you receive shipment you do not consider you have saved \$1.50 to \$3.00 a bushel, write us for shipping instructions and a prompt refund.

THIS SEED IS HARDY U. S. GROWN

Suitable anywhere in the nation where hardy clovers grow. Compare sample with any you can find anywhere for appearance and quality. Such seed is worth premium prices.

You will find other grades of U. S. grown Medium Red Clover described on page 9 and priced on page 40. Lot Leader and Lot Just-Rite described on the page opposite this are also U. S. Grown. Postpaid 1 lb. 45c; 5 lbs. \$1.75; 10 lbs. \$3.00. See page 10 for the New Midland Red Clover.

GETTING GOOD STANDS

Use Berry's World Brand Seed. Avoid heavy nurse crops. Cover seed lightly. Roll if at all possible. Inoculate seed. Inoculation pays well and costs little. Price ½ bu. size 30c; 1 bu. size 50c; 2½ bu. size 90c. Also see page 41 on inoculation.

MAMMOTH RED CLOVER

U. S. Grown Seed, Priced to save you money

Critical and thrifty buyers are served alike in our World Brand grade. The quality meets demands of our most critical trade. Our low price satisfies the sense of thrift. There is always true economy in such a value.

Here is our extra fancy, northern grown Mammoth. It is re-cleaned and tested. It has size and color that indicate strength and vitality. Has a high purity. Such seed goes farther. It is far cheaper and more satisfactory than most average seed.

Our World Brand seed gives you better assurance of clean, heavy, healthy stands. That means larger and more profitable crops. This is a very fine value. Limited crops and advancing markets make it advisable to order what you need early. See page 9 for description of other grades and page 40 for prices.

Mammoth Clover is a large variety of Red Clover. It lives longer. It is also known as Sapling and Big English Clover. Superior for soil building. Extensively grown when seasons are too short for two cuttings and wherever an extra heavy crop is desired. Buy early. We look for higher markets.

CORN-BELT ALFALFA

This is the type of alfalfa that is very popular throughout the Corn-Belt because of its heavy production and its winter hardiness. Its use however, is by no means confined to the corn-belt. Northern states like Minnesota, Michigan and Wisconsin use this character of seed with very satisfactory results and customers in eastern, western and southern states like it very much.

Thoroughly Dependable

We sell this seed in different grades and pack the greatest possible measure of value into each lot. From the lowest to the highest price you will receive seed capable of producing good stands of hardy type heavy yielding Alfalfa. If you demand the finest order World Brand. Each lot and grade is a great value and every shipment is guaranteed to please you.

Reg. U. S. Pat. Off

Save \$2.00 to \$5.00 per Bu.

Berry's buying set-up and organization operated extensively last fall in the main sections where hardy alfalfa seed is produced. We were successful in operating to unusually good advantage and that is one reason why we can sell at these low prices. It will be difficult to secure additional supplies. Some lots cannot be replaced. We cannot urge you too strongly to buy Alfalfa seed early. Prices will be protected until lots are sold or market advances make duplication impossible. If we do not save you at least \$2.00 to \$5.00 per bu., return shipment for refund of your money plus freight charges.

HARDY and HEAVILY PRODUCTIVE

GRADES of CORN BELT ALFALFA

Berry's Corn-Belt Alfalfa comes in four regular grades of common. These grades are separated largely according to color and size of berries. Read page 9. There are also special lots of Corn-Belt designated by names such as "Honest John," etc. We also have the Corn-Belt Grimm such as our World Brand on page 31 and Lots Bonafide and Bed Rock. We have found our Corn-Belt Alfalfa hardy and heavy in production. See money saving prices on regular grades on page 40 and get seed that is suited to corn-belt conditions.

INOCULATE ALFALFA SEED

Better Stands—Heavier Growth

Alfalfa gathers nitrogen from the air. That is why it builds up soils and contains so much protein. But it can do this only when the plant's roots have certain bacteria working in them. You can get these bacteria by inoculating your seed. These bacteria can thus enter the roots and form nodules as soon as the seed sprouts. Then your plants will be healthier, stronger and grow larger. Plants that are not inoculated often turn yellow and die. Inoculation may mean the difference between success and failure.

Berry's Nodule Germ Inoculation is inexpensive. It is easy to apply. Full simple directions with each package. Price ½ bu. size, 30c; 1 bu. size, 50c; 2½ bu. size, 90c. If this inoculation does not form nodules on the roots of your plants we will refund the price of the Nodule Germ.

Market Conditions

Too much wet weather during the seed growing season caused seed pods to fail to fill. This was true over a large area that generally produces a lot of alfalfa seed. In addition there came the hardest early freeze in 60 years in September. That caught a lot of immature seed and killed it. Alfalfa seed is short this year.

Sowing Alfalfa

Get your seed bed as fine and well packed as possible. Sow a little later than Red Clover with a very light nurse crop. Better still a little later seeding after some advance harrowing to kill weeds. In such case sow without a nurse crop. Fifteen pounds per acre is plenty. Do not cover over half an inch. Roll, if possible after seeding. Inoculate your seed.

CUSTOMERS' REPORTS ON BERRY'S ALFALFA

Joseph Ash of Otsego, Michigan: "We got some of your World Brand Corn-Belt Alfalfa 2 or 3 years ago. It is doing so good we want some more."

C. A. Foster of Sparta, Ill., says he bought some of our cheapest Corn-Belt Alfalfa 5 years ago. Still going strong. Has another piece of ground ready for more.

Ed Phienheimer of Shipshewanna, Ind., has used Corn-Belt Alfalfa for seven years. Orders more. Says to send it whatever the price may be.

Ivan R. Arnsmeir of Juda, Wis., reports our Corn-Belt Alfalfa gave him four cuttings when his neighbors got only two. He had our lowest priced grade.

Wm. Koutny of Brandon, Iowa, states he obtained a fine stand. Lots better than some who paid five bucks per bushel more for their seed.

Oscar M. Hub of Riley, Wis., says the four bushels of Corn-Belt alfalfa was seeded with excellent results. Well pleased.

Frank L. Wilcox, Galloway, Ohio, wants another bushel and a half like the Corn-Belt he got the year before which gave very good results.

Wm. S. Van Tassel, Antwerp, N. Y., says: "I secured a wonderful stand last year of your seeds, especially of your alfalfa."

Elmer Broedlow of Jefferson, Wisconsin, writes: "Just wish to say the alfalfa I purchased of you last year withstood the drought and ice of last winter. My seeding is excellent although some report their seedings are dead again this year."

North Liberty, Indiana.

Dear Sirs: Your seeds are the best I ever used. The Yellow Biennial Sweet Clover is certainly the best. Every seed came up. I am well satisfied and can recommend your seeds highly.

Yours truly,
ELDEN KANE.

ALFALFA

Inoculate your Alfalfa Seed. Easy to apply. The cost is low. It pays big dividends. See page 41.

LOT FANCY

A Fine Fancy Quality

We generally call this our Dealers Fancy Grade because it is a quality that is so often sold as the best in a retail way. It might easily pass for the best if you didn't compare it with an extra fancy quality like our World Brand.

You'll like its high purity and smooth berries. It has good color too. Not quite as bright as the World Brand but plenty nice at that. And it has the growing power to produce good stands. The hardness is the same as the World. In fact it will do everything the higher priced grade will do. The main difference is in the color and that difference isn't great.

The saving in cost is \$1.50 per bu. over our World Brand and compared with many retail prices the saving should run up to \$4.00 per bushel. That's a lot of savings but if you don't think you have made big savings we don't ask you to keep our seed. See guarantee page 8. This year above any other year the savings by buying direct from Berry's are extra large. But buy early.

Corn-Belt Alfalfa Seed

A low priced grade that satisfied many

This is a quality similar to our Square Brand. Thousands of our customers have been using this type of seed for many years. They know the seed isn't the best for looks but they also know by experience that they can get good results from such seed. The great saving in seeding cost is clearly seen in our very low prices. Less expense with satisfactory results, gives plenty of reasons for the popularity of this lot.

The crop from this seed is just as hardy and productive as any of our corn-belt alfalfa. If you don't object to smaller berries and some discolored seed we're sure you'll like it as so many of our customers do.

WORLD BRAND CORN BELT ALFALFA

\$23⁴⁰
BU.
60 LBS.

We ask every critical buyer to check the savings you can make on this high quality grade. This is Corn-Belt alfalfa at its best. Our extra fancy quality. The highest color and plumpest berries. A grade that nearly always runs 99½ pure. Priced to save you

real money. See the samples of World Brand Alfalfa seed enclosed. That indicates the beautiful character of this grade. Compare prices. We guarantee you a saving of \$2.00 to \$4.00 per bushel over any seed of similar character and quality. If you don't consider you have made such a saving when you receive your seed, return it for refund plus freight charges.

The hardy character of our Corn-Belt Alfalfa is described on page 34. The beautiful quality of this seed is sure to please you. This is seed that we consider winter hardy and highly productive. It is this character of alfalfa that has helped build up such an extensive alfalfa seed business for us. Quality to please our most critical trade and a price to suit our keen judges of value. You will appreciate this high grade bargain.

Chippewa Falls, Wisconsin.

Gentlemen: My father used your seeds for 30 years and would never think of planting any other seeds than Berry's. I have been farming for 14 years and always bought my seeds from you. The seeds always come up, have strong hardy plants and bear excellent crops.

Yours truly,
WM. E. KLEMKE.

LOT BIG KROP

Choice Quality Corn-Belt Alfalfa

\$20⁷⁰
BU.
60 LBS.

If you want a good serviceable, in between quality, order Lot Big Krop. It is a finer grade than the Honest John (page 30) and the Lot Good Service described above. It is not as smooth and uniform as the extra fancy World Brand described in the opposite column.

It is the same hardy Corn-Belt alfalfa like the others. This medium quality seed has given our trade a high degree of satisfaction for many years. The very low price we have on it makes it a great value that we do not believe can be duplicated anywhere. It is a good practical value for thrifty buyers.

Order early while supplies are available. Avoid higher prices later.

EXTRA HARDY ALFALFA

Shipped in a Sealed Bag A Real Value

A selected bargain in medium grade Grimm Alfalfa seed. Honest-to-goodness quality without the extra high color that means higher prices. It is seed of good character; cleaned, good growing power, extra hardy.

Lot Bonafide is Northern Grown of a productive hardy type. It is one of our most popular and biggest selling lots. This grade may sell as a fancy quality. It certainly is a serviceable lot.

We know that a lot of farmers have to watch their expenditures very carefully. That is why we made a special effort to secure seed of this type. We strive to supply the needs of every customer. It is typical of Berry Service to enable you to secure such quality of Grimm Seed at so low a price. Shipment is guaranteed to satisfy you. Any buyer of Lot Bonafide who does not think he has made a big saving can return shipment and get his money back.

Lot BED ROCK GRIMM

25c per bu. Higher at Chicago

Shipped in a Sealed Bag
Serviceable Seed—Hardy Origin

\$19.80
BU
60 LBS.

Grimm Alfalfa is in greater demand than ever. This lot places it within the reach of every farmer who wants this kind. This lot is priced very low for such quality. It is a grade that has given our customers satisfactory results. Has good growing power. Produces the same kind of alfalfa as higher priced seed.

This low price is possible because we obtained some Grimm seed that was somewhat discolored. It would not classify for fancy colored grades. Berries are a little smaller. While the germination per hundred seeds is lower there are so many more seeds per pound that this is largely compensated for. Several tests per ounce show more sprouts than an ounce of larger berried kind.

A Heavy Producer

We sell this seed because we know that it has the ability to produce good, strong stands. In appearance it isn't the best but from a practical standpoint it does very nicely. Sow 15 pounds per acre. Shipment is guaranteed to satisfy. If you want to get a start with Grimm at a low cost, order this lot. Customers report it an outstanding bargain.

INOCULATE ALFALFA SEED SEE PAGE 41

OKLAHOMA GRIMM

World Brand

An oak tree is hardy most anywhere you find it. That is also true of Grimm Alfalfa. It is the variety that counts. With northern origins short and high in price we were glad to buy up a lot of fine quality Oklahoma grown Grimm that was offered to us. The information we have indicates that this seed will produce plants of very hardy character and that it is widely adapted throughout the nation. The seed is beautiful large berried, fine colored, high germinating seed. High purity. No noxious weeds. While it lasts it certainly is a rare bargain.

CARL A. C. JOINSON

BEST COSSACK

Considered by Many The Hardest of All

Cossack Alfalfa is in wide demand by those having unusually much trouble with winter killing. We really doubt if it is really superior to our Grimm in this respect but have a nice stock of beautiful seed.

Anyone wishing Cossack Alfalfa can certainly save money on seeding costs with this extra value lot.

This seed is our very finest World Brand grade. It is truly an extra fancy lot. You can expect something very fine when you order this. This variety produces hay of a very nice quality. Sample sent free. Compare our quality; then compare prices. You should find a saving that will surprise you. Bargains like this move fast.

GRIMM ALFALFA

At STRIKINGLY LOW MONEY SAVING PRICES

MONTANA BEST GRIMM

\$25⁸⁰
BU.
\$26.05 CHICAGO
60 LBS.

World Brand Grade

Montana Grimm is quite generally considered the best the nation produces. The seed is in big demand. This year

all northern grown seed is scarce due to unfavorable weather conditions. By contracting early we were fortunate in getting seed on a favorable basis. We did not get as much as we wanted but did secure more than our share. Thus we have excellent seed at lower prices as we can give you greater values.

Our World Brand Montana Grimm is of high quality. In color, purity and germination it runs extra good for this year. This seed is of unquestioned hardness and adapted anywhere extra hardy seed is needed. Such seed is definitely short. We probably will be sold out by spring. Right now however, you can buy it at a price that should save you \$2.50 to \$4.00 per bushel. If you want extra nice Montana Grimm we advise buying now. You may not be able to get it anywhere at any price later in the season. Postpaid price, small lots: 1 lb., 70c; 5 lbs., \$3.00; 10 lbs., \$5.25.

**STATE
CERTIFIED
GRIMM**

\$29.95 IN CHICAGO

State Sealed Seed

There is some demand for State Certified Grimm. Most Grimm is not Certified due to technicalities, lost records or desire to avoid red tape. However, for those who wish State Certified Grimm we have secured limited stocks. It is necessary to pay big prices for such seed, but any comparison will show you our price is low for State Certified seed.

This seed is grown on fields that were sown from approved seed and the crop was grown, harvested and cleaned under state supervision. It is shipped in State Sealed bags when ordered in full bushel lots. We reserve the right to ship from Chicago if Clarinda stocks are exhausted. If Chicago shipment is not acceptable please state so on your order.

WORLD BRAND NEBRASKA GRIMM

An Extra Value

There are many grades and origins of Alfalfa seed. This is sometimes confusing to the buyer. Some know what they want and there are many different likes and dislikes. There is, for example, a big demand for Canadian seed as described above. There are others who prefer U. S. Grown Grimm providing they are sure of its adaptability and hardy character.

EXCEPTIONAL MERIT

For sheer merit, adaptability, yields and hardness we don't believe you can beat Nebraska grown Grimm. While it may not get as cold in Nebraska as in Canada or Montana there is often less snow protection and therefore more damage to crops. Besides in Nebraska there are often periods of extended drought and high temperatures. That can be damaging too and those are more nearly the conditions under

der which most alfalfa is grown in this nation.

Big Yields

When it comes to yields we believe Nebraska Grimm has it over the others in that it grows somewhat taller and therefore produces a heavier tonnage.

High Quality

Berry's World Brand Nebraska Grimm is high quality seed. It will test around 99 1/2 % pure. The seed is bright, plump and a first class quality in every way. We are close to Nebraska and have excellent buying connections. This seed was bought to advantage and our price is way down compared to the average quotations. The savings will run up to \$5.00 per bushel. But again we advise and urge you to buy early as we anticipate market advances.

ALSIKE CLOVER

WORLD Brand

\$17⁴⁰_{BU.}
60 LBS.

This is a clover so valuable, so adaptable to conditions unfavorable to other clovers that many farmers are passing up a good bet when they do not use it. In this World Brand you secure our finest quality. Highest in color and plumpest berries. The grade that has satisfied our most critical trade for years. All hardy U. S. Grown seed.

Alsiike is a fine stemmed perennial clover. Higher in feeding value than Red, greener in color and less dusty. Under favorable conditions stems grow 3 to 5 feet long. Prefers loam to heavy soils. Grows on land too sour for red and is extra winter hardy. It is excellent practice to sow a couple of pounds of alsiike per acre with Red. Helps to secure a better stand and a thicker growth.

Alsiike is economical to sow. It is a smaller seeded clover, 5 to 6 pounds per acre is plenty to sow. Use it alone or with other grasses for hay and pasture. Stands trampling. An extra good clover for pasture and makes wonderful hay.

Alsiike is grown from Oregon to Maine and from Minnesota to Tennessee and other southern states. In the south is used largely for pasture on lower ground. North and east it shows its great value as a hay crop. Extra good on wet land, stands a lot of overflow. Its use however, is by no means confined to wet land. It is generally easier to get a stand of alsiike. Compare our values. Although the seed is relatively scarce we have very low prices and can save you money on this our finest quality.

Postpaid 1 lb., 50c; 5 lbs., \$2.25; 10 lbs., \$4.00.

Lot ECONOMY ALSIKE WITH TIMOTHY

A special lot and a seeding that our trade takes to in a big way. A bushel sows six acres. That averages about 60 clover seeds per square foot. You have the Timothy besides to hold up the Alsiike. That helps it grow taller and cleaner. One crop aids the other. They will produce a greater tonnage in combination than when grown separately. Makes heavy crops of fine quality hay and pasture. Very nutritious as Alsiike is higher in feeding value, pound for pound than Red Clover.

Lot Economy generally contains 50% or more Alsiike. This is mixed with the Timothy to make a blending and quality that our customers consider a real bargain and a money-making seeding. Do not confuse this with the average combination of Alsiike and Timothy. It is richer in clovers. Requires less seed per acre.

Shipment is guaranteed to please you. You can cut your seed bill. The seed is U. S. grown and hardy anywhere in the U.S.A. If you want to make an adapted seeding and an economical one order Lot Economy. We are sure you will be well pleased.

Dorset, Ohio.
Dear Sirs: I have been using your seeds for years back and I find them the best seeds I can buy. I have saved money on the seed orders I purchased from you. I gladly recommend you as reliable company to deal with.

Yours respectfully,
LAWRENCE S. GIDDINGS.

\$7⁵⁰_{BU.}
45 LBS.

LOT ALSIKE MERIT

This lot of Alsiike sells at a substantial discount under our World Brand simply because it may have a little Red Clover or other farm crop seed in it. Will average 90% or better pure clovers. Free samples on request will show you just how nice this seed is.

You will like it for hay and it is very good for pasture. If you are making a new seeding you should like it and it is fine too for top seeding on old meadows and pastures. If you are making up a pasture mixture with other grasses you can use Lot Merit. It helps to reduce seeding costs and it is a value we are sure you will appreciate. Return seed for refund if you are not completely satisfied. See guarantee page 8.

\$14⁴⁰_{BU.}
60 LBS.

GIANT INCARNATE or CRIMSON CLOVER

Resembles Red Clover. Grows up to 2 to 2½ feet.

Upright branching plants. Roots deeply. A bountiful provider of nitrogen. Will thrive better than Red Clover on thinner and poorer soils. Very efficient for green manuring. Plowing under a good crop is estimated equal to 20 loads of manure per acre. Stubble plowed under 12 tons. A cheap source of nitrogen. One authority says it's worth \$20.00 to \$30.00 per acre in nitrogen.

Most extensively used in the south as a fall sown crop. We suggest only spring seeding in north where it is a quick growing annual. Prefers cool growing season. Sow 15 lbs. per acre. Our seed guaranteed to please you.

Small lots, prepaid, 1 lb., 35c; 5 lbs., \$1.50; 10 lbs., \$2.75.

\$9⁶⁰_{BU.}
60 LBS.

WHITE DUTCH CLOVER

The clover used in lawn and pastures. A perennial. Roots at joints. Will withstand acid conditions and poor drainage. Increases feeding value of pastures. Stimulates growth of lawn grasses. Seed is very small. 2 or 3 pounds sow an acre. Seed is very scarce now. Our prices very low. Quality very nice. Small lots, prepaid, 1 lb., \$1.00; 5 lbs., \$4.25; 10 lbs., \$8.00.

\$9⁹⁰_{BU.}
FOR 15 LBS.

TIMOTHY WORLD BRAND

Our Finest Grade—Iowa Grown

The value of Timothy is again being appreciated. It is one of the surest to make a stand. Grows on a wide range of soils and is adapted to a wide area. Helps check soil washing better than straight clovers. Used alone and in combination with clovers and alfalfa to produce money making crops. Hay, pasture and seed crops are all valuable. A seeding lasts several years. Sow 10 to 12 lbs. per acre. Our present prices will save you money.

Berry's Quality Prices Low

Located as we are at the door of one of the World's greatest Timothy seed producing sections we have a better opportunity to get the best. Our buying costs are low. Transportation is a small item. For years we have been large handlers of Timothy seed. Our machinery is designed to handle it efficiently. Our experience has taught us much. We handle a large volume. All these factors combine to make our prices low and quality extra nice.

More for Your Money

Our World Brand grade is extra fine. That is what our most critical customers have been demanding and using for years. We have other grades too, Fancy, and Square. See page 9 for description and page 40 for prices. A quality and a price to meet every need and a genuine saving guaranteed on each one. Return for refund if shipment not satisfactory. Buy direct. Save Money. Get that extra measure of value and ease the strain on your pocketbook.

Single pounds, postpaid, 25c; 5 lbs., \$1.00; 10 lbs., \$1.80

PLANET BRAND TIMOTHY

\$2.60
BU.
45 LBS.

This is a very serviceable grade of re-cleaned Timothy seed. It has good purity and germination and the ability to produce fine stands. It sells for less money than our World Brand grade because it isn't so nice in appearance. It contains some lighter weight seed and some lots with a larger percentage of hulled seeds are blended in. Therefore it is not quite as bright or uniform in appearance. This Planet Brand will compare very favorably with much seed used. When compared with our World Brand you will see it is not quite as nice looking.

Costs Only 60c an Acre

A bushel will sow 4 to 5 acres. Timothy is one of the surest seedings. It is adapted to a wide range of soils and climate. Gives you protection against soil erosion at low cost. It is a small investment that buys profitable returns. Don't risk the wastefulness of thin stands of grass when it costs so little to get a good one. Provide for bigger yields and better soil protection by sowing Timothy this year. This seed is good sound merchandise of good practical value.

Stoddard, Wisconsin.

Dear Sirs: In the spring of 1931 I purchased some of your Lot More-Hardy Alfalfa at \$10.50 per bushel. I also used some high priced seed from another firm. All sowed on the same ground. Your seed made a good stand, the other failed. You saved me money and I got better results.

Yours truly, ALBERT J. JONAS.

DOMESTIC RYE GRASS

Fast Grower—Big Yielder

Domestic Rye Grass is rather light green in color. Leaves are a little broader than Blue Grass and grows much taller. Requires no nurse crop. In fact it grows so fast it is often used as a nurse crop for other slower growing grasses. Do not confuse this with Rye that is sown for grain. It is entirely different. The seed is somewhat like that of Blue Grass only larger. If you need early pasture or hay, something to sow early, use Domestic Rye Grass. A full seeding is 25 lbs. per acre. Some sow less. Prepare a good seed bed, cover seed lightly and roll if possible. Sow alone or in mixture.

Our Grow-Quick Mixtures (see page 26), contain a good percentage of this valuable grass. Buy now. For present prices see page 40.

Small lots, postpaid: 1 lb., 25c; 5 lbs., \$1.00; 10 lbs., \$1.80.

3 Timothy AND CLOVER MIXTURES

AT
LOW
SEEDING
COST

TIMOTHY ALSIKE and RED CLOVER

Regular Grade

Contains 20 to 25% Clovers
All Hardy U. S. Grown

An economical seeding but a good one. There is ample clover seed to produce a good stand. At 10 lbs. per acre it provides around an average of 25 clover seeds and at 8 pounds per acre 20 to 22 clover seeds per square foot. The Timothy is in addition. There is a distinct advantage to the Timothy. It supports the clover plants. They grow straighter and taller. There is less loss of clover leaves because there are not so many in contact with the ground. Most of the feeding value is in the leaves.

The clovers help the Timothy. It gets the benefit of nitrogen gathered by the clovers. A number of tests show that grasses contain more nitrogen when they are grown with clovers. It has also been shown that Timothy and clovers grown together will yield more than when grown separately. Thus better quality, larger yields and low cost are big factors in making our mixtures so popular.

Only 90c an acre

That is all it costs when sown at 8 pounds per acre. No one can afford to neglect seedings when the cost is so low. Build up your land. Get good hay and pasture crops. The way to big permanent profits is to make liberal clover and grass seedings every year.

\$4⁹⁰
BU.
45 LBS.

TIMOTHY & RED CLOVER HOME GROWN

All mixtures 15c bu. higher at Chicago

SUPER GRADE

Contains 28 to 32%

Red Clover

Hardy U. S. Grown

\$5⁷⁰
BU.
45 LBS.

Red Clover is hard to beat as a soil builder in the corn-belt. It leaves the land in ideal condition for corn crops. The ground works up nice. It is easy to cultivate. There is less danger of burning than with some other legumes. You can be surer of a good vigorous well filled crop of corn. In fact a good grass sod is good too, only it lacks the nitrogen clovers bring. A combination of Red Clover and Timothy gives wonderful results, for you get both humus and nitrogen from the growth plowed under.

Berry's Timothy and Red Clover mixture has always been and long will be a seeding to give you these results. Yes, soil building, soil conserving, and at the same time produces money making hay and pasture crops. Then too it is economical.

The clover grows erect in the Timothy because the grass helps hold it erect. Thus the clover can do it best. Less spoilage; more leaves. The Timothy benefits by the nitrogen gathered by the clover. That increases its feeding value. All this for a cost of around a dollar per acre. Some sow 8, some 10 lbs. per acre. At the latter rate you get around 23 clover seeds per square foot. Three or four clover plants make a wonderful stand. You have the Timothy besides.

Compare any prices on such a cleaned mixture with Berry's direct-to-you quotations. We guarantee a saving of 20% and complete satisfaction on every shipment. See page 8.

Send us your order. Cut costs. Make a real seeding

TIMOTHY and SWEET CLOVER RED CLOVER

Contains 50% Hardy Home Grown Clovers

Picture a field with a nice vigorous growth of luscious sweet clover. In between the sweet clover a heavy growth of Timothy with Red Clover filling in the gaps and lower growth. What a crop and what a yield. Rich in protein, high in feeding value, powerful in soil enrichment. A combination that is good for hay or pasture or both. Costs only \$1.05 an acre, figuring 10 lbs. of seed per acre. At 8 lbs. it's only 85c an acre. No other mixture so rich in clovers at so low a price.

It is all cleaned seed and hardy home grown. Carefully mixed for uniform seedings. We know of no other seeding so low in cost that will produce as heavily. Helps inoculate soil for alfalfa. Should provide pasture the first year, an early hay crop the next year and then pasture for the balance of the second year. Shipment is guaranteed to please you in every respect. See page 8. For heavy production at lowest cost order Timothy, Sweet and Red Clover Mixture.

\$4⁸⁰

North Manchester, Ind.
Dear Sirs: After using Berry's seeds for five years I am fully convinced as to the quality of them. It is to my interest to buy from you. I always speak a good word for Berry's Seeds whenever the occasion arises.
Yours truly,
A. F. STELLAR.

3 POPULAR MIXTURES

Our ready mixed seedings have always been popular. They give a blend of clovers and grasses that produce heavily. They yield more when grown mixed than separately. The cost of seeding is reasonable. All the seed is recleaned and shipment is guaranteed to satisfy you in every respect. Return it for refund if not satisfactory.

TIMOTHY AND ALSIKE

20-25% Clover

Regular Grade Low Cost — Big Yields

An Economical and Highly
Satisfactory Seeding

Costs Only 90c an Acre

\$4⁷⁰
BU.
45 LBS.

A seeding rich in clovers at a very low cost. At 8 pounds per acre you will have around 30 alsike seeds per square foot. It would take around 40% Red Clover mixture to give you that much clover. Makes a wonderful quality of hay. Less dusty than Red Clover and higher in feeding value. Fine for pasture. Checks erosion. A seeding lasts several years. Very popular with our trade because of the satisfaction it gives.

Both Alsike and Timothy are very winter hardy. Alsike being the hardiest of the clovers. It will also grow on soils that are too sour or too wet for other clovers. Timothy and Alsike have the same soil and climatic requirements. They are naturally adapted to growing together. The Timothy supports the clover, enabling it to grow erect, taller and more leafy. The alsike forms a dense mat of clover down in the Timothy and it seems to stimulate the growth of the grass. Thus both do better when grown in a mixture instead of separately.

We know the sections where large quantities of this seed are grown together. The seed is harvested mixed. Because it is so difficult to separate the two we can buy it at a substantial discount below the cost of the Timothy and the Alsike unmixed. We secure the bulk of our seed from these sections. It is processed, cleaned and uniformed. It is passed on to you at prices that are low figures for such fine quality clover rich seeding.

This mixture when sown at 10 lbs. per acre will give an average of 32 Alsike seeds per square foot. It would take about a 50% Mixture of Red Clover to give you as many clover seeds. Alsike seeds are smaller and go farther. This mixture satisfies because it is easy to get a catch, lasts for several years and produces big crop of the finest mixed hay.

We guarantee to save you money on this seed. Ask for sample. Compare for color, purity and clover content. This seed has good growing power. It is truly a remarkable value. We recommend and urge its use because we know it is a seeding that gives satisfaction and the seeding cost is low this year. Buy early and protect yourself on price.

4 WAY
TIMOTHY AND CLOVER
MIXTURE **\$5⁹⁰**
BU.
45 LBS.

\$6.05 bu. f.o.b. Chicago
28 to 32% Legumes

Red Clover, Alsike and Alfalfa in a generous measure mixed with Timothy to form a splendid seeding. This is one of our most popular and biggest selling combinations. Ample clovers to produce a good legume stand. An excellent way to see how Alfalfa will do on your land. A seeding of 10 lbs. per acre averages 30 clovers and Alfalfa seeds per square foot. 8 lbs. per acre 25. This seed is all hardy home grown. All recleaned seed, carefully mixed. Comes ready to sow. Produces heavily. Makes fine hay and very good for pasture. It will build up your land and check soil washing.

Costs only around \$1.00 an acre to sow and that is a really low price this year for such a fine 4 way mixture. No farmer can afford to neglect grass and clover seedings and with this combination you get a good one at small cost. We consider this one of our best mixtures. Our price is guaranteed to save you money and shipment is guaranteed to satisfy you. See page 8. We are sure you will be delighted with this seeding. It is economical, productive and very popular.

TIMOTHY and RED CLOVER

REGULAR GRADE 15-20% Clover

\$4.65 Chicago—45 lbs.

Seeding Cost as Low as 80c an Acre

The same quality of seed that is used in our extra rich grade described on page 42. Our lowest cost mixed seeding. Contains sufficient clover to give an average of 12 to 13 clover seeds per square foot when sown at 10 lbs. per acre. That costs only \$1.00 an acre. 8 lbs. per acre costs only a trifle over 80c an acre. Satisfactory stands of clover can be secured from such a seeding. All hardy U. S. Grown, cleaned seed. If you want to economize as much as possible, buy this Regular Grade of Timothy and Red Clover mixed. If you don't consider it an exceptional value in every way at this low price, return shipment for full refund.

\$4⁵⁰

45 LBS.

VARIETIES AND TYPES

That which we list as Sweet Clover is the White Type. Because of conditions in principal seed producing sections it may contain some yellow. Lives two years.

GRUNDY COUNTY TYPE. Matures about 3 weeks earlier than common white. Grows around 3½ ft. high. Lives 2 years. See page 37.

YELLOW TYPE. Lives 2 years. Matures between White and Grundy County. Finer stemmed and leafy. See pages 37 and 39.

HUBAM. An annual White Blossom Sweet Clover. See page 39.

GOLDEN ANNUAL. A wonderful new one year yellow. See opposite column page 44.

Valuable Crops

All Sweet Clover are great Nitrogen gathering and soil building crops. A crop plowed under is equal to 25 loads of manure. They are wonderful pasture crops. Can be pastured first fall with two head of cattle per acre. The second year 3 or 4 head and hogs besides. Generally produces a hay crop first fall and two next year. Some take hay or pasture first fall and plow under next spring.

Sow early spring like Red Clover. Use 12 to 15 lbs. per acre. Have a firm seed bed and cover lightly.

A NEW SWEET CLOVER GOLDEN ANNUAL CLOVER

A Great Cash Crop—Heavy Seed Producer The Most Palatable Sweet Clover

Here is an entirely new variety of sweet clover. A clover that we believe is destined to rapidly replace other sweet clovers because it has so many valuable characteristics. The demand for the seed will be tremendous. Get in on the big money by growing a seed crop this year.

A Big Cash Income

One Iowa farmer sowed 15 pounds last spring on 4 acres and harvested 1250 lbs. of seed last fall. Another got 360 lbs. from two acres and still another 25 bushels or 1500 lbs. from 2½ acres. That is 10 bushels per acre. This was from seeds planted in rows.

This clover ripens seed more evenly than other sweet clover and the seed hangs on to the plant. Very little loss from shattering. In the fall there are practically no leaves or blossoms but all seed.

Characteristics

It is an annual like Hubam, making its full growth, blooming and bearing seed the same year it is sown. It is slightly later than Hubam. It is leafier and has finer stems. The crop is very palatable. It is not as bitter as most sweet clover. Makes a fine pasture after small grain in August, September, when two-year-old sweet clovers are dried up. It is an excellent soil builder. Its roots are thick and fleshy, very much like the two-year sweet clovers. These roots go down about 4 feet.

How to Make Money

Its value for fall pasture and for fall plowing of the clover for fertilizer will be more common when seed is more plentiful and cheaper. Now is the time to cash in on it as a seed crop. Sow with small grain using 6 to 8 pounds per acre. The seed is smaller than other sweet clover. Or plant in rows with a corn planter fitted with drill plates using about 2 lbs. per acre. Be sure you have a firm seed bed. Pack with a roller if possible after seeding. Do not cover over 1 inch. If in rows cultivate as soon as you can see the rows and keep it clean. Inoculate your seed with Sweet Clover Inoculation. Harvest when top seed is fully matured.

There will be a big market for this seed crop because it has so many superior features that it will be several years before the demand can be supplied. We have a limited quantity only. Order at once and don't wait until it is gone before you order.

While it lasts our price is \$33.00 per bushel of 60 lbs.; \$17.00 for 30 lbs. and \$9.00 for 15 lbs. f.o.b. Clarinda. We do not have this at Chicago.

Small lots Postpaid 1 lb. 90c; 5 lbs. \$4.00; 10 lbs. \$7.50.

Inoculate Your Seeds

Inoculation provides young plants with the bacteria they need to gather nitrogen from the air. Helps assure healthier and more vigorous plants and bigger yields. Easy to apply. Full directions furnished. Cost is low.

Price: 30c for ½ bu. size; 50c for 1 bu. size; 90c for 2½ bu. size.

See page 41 for further information. Berry's Nodule Germ is guaranteed.

**Our Greatest Sweet Clover
Value
Better than 99% Pure**

We made a wonderful buy on a large lot of White Blossom type sweet clover. It is practically equal to our World Brand grade and still is \$1 cwt. lower in price. It is scarified, high germinating seed and as satisfactory to sow as any seed you can buy. We recommend it because it contains about 5% of mottled seeds which indicates the presence of yellow sweet Clover. In our opinion this increases its value as a pasture, makes good hay and a great fertilizing crop.

Save up to \$1.50 and \$3.00 bu.

Here is a lot free of Noxious weeds, carefully re-cleaned and a quality and a bargain you, as a buyer can be proud to show to your friends. Some wholesale houses are actually asking retail dealers considerably more than our selling price. Retail dealers may ask you \$2.00 to \$3.00 per bushel more money.

In fact, retail dealers who read this catalog can save money by buying this Lot Wonderful. We sold a goodly portion of this Lot through our offer in our December Seed Facts. Any farmer who needs sweet clover seed and wants a high quality at a low price should act immediately. This bargain won't last long. Our customers sure know how to pick bargains and this is another one of those bargains that make Berry's values the talk of thousands.

**SWEET CLOVER
Lot DO-MORE**

All Sweet Clover 15c higher Chicago

This lot stretches your money over more acres than any other. It is our lowest priced grade. It is a quality that has been giving our customers satisfactory results. It isn't the finest for looks but the favorable reports we get on it indicate its real value and after all, seed is sown for results.

Lot Do-More has been scarified. It comes from re-cleaned stocks. The crop from this seed is the same kind as will be secured from any of the higher priced grades. Sweet Clover is the greatest of all soil builders and the most productive pasture crop.

**\$4.90
BU.
60 LBS.**

This Grade in Big Demand

Every year we sell large quantities of this grade and this year the quality is improved. As mentioned above it is not the finest looking seed. It has some off-colored seeds in it. The berries are smaller and therein lies the secret of its performance in the field. While the germination per hundred seeds is lower than in the average larger berried grades, there are so many more seeds in a pound of Lot Do-More that this helps to compensate for the lower test per hundred seeds. The true value of a lot of seed, in our opinion, is the number of sprouts per oz. or per pound. You sow your seed by weight or measure and not by counting it out.

Reduced Seeding Costs

You do not have to sow Lot Do-More at any heavier rate than the higher priced seed. This lot is a real value. Compare it with the cost of sowing any other clover seed. Our customers who use this quality are boosters. They come back for more.

If you want our finest looking seed order World Brand. Lot Wonderful is also a good value. But if you want to cut seeding costs to bed rock order Lot Do-More. You may order this seed with perfect assurance of receiving seed of this character. You can have 60 days to test it after you get it. Then, if for any reason you are not entirely pleased you may return it and your money plus freight will be refunded. We cannot emphasize this value in a fairer or stronger way.

**YELLOW SWEET CLOVER
Lot SAV-MOST**

**\$6.00
BU.
60 LBS.**

We offer this Yellow Type Sweet Clover. It is a biennial or two year kind. Somewhat leafier than the White Type. Does not grow as tall and coarse. Blooms and matures 10 days to two weeks earlier. Preferred to many for hay. Some claim it is surer to make a stand.

Our Lowest Priced Yellow Type

Lot Sav-Most gives you a very low cost on this finer stemmed leafier sweet clover. It gives you a lot of value at low cost. We sell large quantities of this seed. It is our lowest priced grade.

Naturally it isn't as nice looking as the World Brand or Premium smaller berries in it. The color and uniformity are not equal to our World Brand but the amount we sell of it each year indicates that it gives satisfaction to our trade.

Sow it alone or in mixture for hay and pasture. See seeding suggestions bottom page 44. Start Sweet Clover this year. It is a money maker. Stands heat and drought. Produces lots of valuable feed and does a wonderful job of soil building. Lot Sav-Most gives you the yellow Type Sweet Clover at very low seeding costs.

Inoculate All Clover Seed

Inoculate with Berry's Nodule Germ. Inoculation helps make more vigorous growth, better stands and yields. Costs only 30c, 1/2 bu.; 50c, 1 bu.; 90c, 2 1/2 bu. Easy to apply. Read page 41. It pays to use it.

COMPARE ON
A QUALITY
BASIS**

All Sweet Clover 15c bu. higher for Chicago Shipment

A Good Value—Moderately Priced

Lot Pearl is the biennial or two year sweet clover same as the World Brand grade described on this page and the Lot "Do-More" on page 45. The tall growing, big-rooted, long seasoned sweet clover. A leader in production. Unexcelled as a soil builder. Big pasture yields. Enormous hay crops. A valuable money making crop. Average seeding required is only 15 lbs. per acre.

A Medium Grade

Lot Pearl sells at lower prices because it is not as nice looking. If you demand the finest order our World Brand. If you want to cut seeding costs and willing to take seed that has some small berries and some off colored seed, then Lot Pearl should suit you ok. It has the ability to produce good stands. The seed is cleaned and blended. It lacks the uniformity and smoothness of our higher priced lots, but many of our customers have used a grade like this for many years and they are well pleased.

\$5⁷⁰—
BU.
60 LBS.

Compare Values

Lot Pearl is like our choice grade. There are a good many more seeds per pound than in the World Brand. If you would weigh out an equal weight of seed out of both grades and test all of the seeds in each pile you might find the larger number of sprouts in the lower priced seed. It is important to remember that while the germination per hundred seeds is lower in the cheaper grades, that larger number of seeds per pound tends to equalize that difference.

Inoculate Sweet Clover
Page 41

GRUNDY COUNTY

Grundy County Type Sweet Clover

An earlier maturing variety of biennial White Blossom Sweet Clover. Grows around 3½ ft. tall. Blooms about three weeks earlier than the Common Sweet. Matures seed more evenly. Easier to handle because of its shorter growth. It is in big demand where the common grows too rank or where earlier maturity is desired. Only requires 12 lbs. of seed per acre because the berries on this variety generally run smaller in size.

World Brand Quality

We have the Grundy County type only in our finest quality. World Brand has pleased our most critical trade for years. It is scarified, cleaned, tested and shipment is guaranteed to please you in every way. You may compare it with the finest obtainable. If you do not find this a superior value at our low price you may return it for refund. See page 8.

Supplies of this Grundy County type are much smaller than of the common type. Be sure to order your Grundy County Type Sweet Clover early and save money. There is good money in seed production.

WORLD BRAND SWEET CLOVER

Do you want the satisfaction of knowing you have the best? Do you like to compare values with your neighbor and prove that you have the finest quality and the biggest bargain? Order Berry's World Brand, for it is our finest and best. A first class quality in every way. See the sample of World Brand Alfalfa enclosed for the fine character of this grade. Consider quality. Then compare prices. You'll see a big and genuine saving of around 20% or more.

Sweet Clover has been one of our specialties for years. We were the first to feature it as a main farm crop in a big way. These many years of specialization have taught us much about the great crop and about handling sweet clover seeds. Our buying contacts, cleaning and scarifying machinery, our buying power, etc., enables us to give you values such as this. When you sow World Brand you sow our finest. There is no seed that would give you better assurance of success.

Sweet Clover is a crop of great value. Its enormous pasture capacity, its big seed yields, its heavy hay crops, its marvelous soil building power, these are all money making features. Cash in on them in the fullest degree by sowing Berry's World Brand. Sweet Clover seed is considerably short this year. Our present price is at or below many wholesale quotations to dealers. Save that extra profit. Never have the savings at Berry's been so attractive. But don't wait until this is sold and then have to buy on the basis of replacement prices. Buy it today.

15c higher
Chicago

Binghamton, N. Y.

Dear Sirs: I have used your seeds for some time and I have had good results. I have used other seeds, but they are too high. I save about a third in buying from you and get better results.

Yours truly,
MIKE ZOPP.

WORLD BRAND YELLOW TYPE SWEET CLOVER

\$7.20 BU.
60 LBS.

15c Higher, Chicago
An Extra Value

Our very finest extra fancy quality. The choice of our most critical trade. Guaranteed to please the most exacting trade. See guarantee, page 8. Why pay more than our money saving price on this beautiful seed? Consider quality and check the savings. This is quick germinating scarified seed.

Yellow Type Sweet Clover is in great demand. It is finer stemmed than the white and more leafy. Does not get so rank. Matures about 10 days earlier. Many say it is easier to grow. Provides pasture in abundance. Makes hay superior to white.

Brings Better Profits

Farmers generally are in dire need of clovers. They will restore humus, fertility and profits. Land will be easier to work. It will drain better yet hold the proper moisture at the surface for growing crops. Make your soil perform better. Use Sweet Clover to do the job. It will improve land quicker and at lower cost.

Our prices are guaranteed to save you money. See price list for price on our Planet Brand. Let us take care of your Sweet Clover needs.

It has been our specialty for years and we are equipped to take care of your needs.

Lakefield,
Minn.

Dear Friends:
I like your seeds and recommend them to others. Your seeds do well in

this section. I save money by buying from you. I am well satisfied and am sure other farmers will, too.

Yours truly,

JOHN GREIN.

LOW PRICE on HUBAM TYPE CLOVER

ANNUAL WHITE SWEET CLOVER

\$10.80 BU.
60 LBS.

The Sweet Clover That Does Two Years Work in One

Hubam seed is relatively scarce this year but we were fortunate in securing some fine seed. Supplies are limited however so order early. Sow it this spring.

Use it as a hay, seed, pasture or soil building crop this fall. Hubam is a variety of sweet clover that blooms and bears seed the same year it is sown. It is an annual. Does not live over winter. Gives an enormous growth and production in a short season.

15c Higher, Chicago

Get Two Cash Crops in One Year

Sow Hubam Type with small grain. Harvest your grain. Then cut clover for seed. Produces up to 600 lbs. of seed per acre. Sometimes more. Or use it as a pasture. It grows fast, attaining height up to 4 or 5 feet if not cut or pastured. Think what a carrying capacity that means. The growth is rich in protein, making it all the more valuable. Makes a heavy production of rich hay if cut when it begins to bloom. Or if you want to enrich your land fast, plow under a full growth. Some pasture it a while and then plow it under. Think of it, all this in the same year the crop is sown. No wonder farmers who know the crop were willing to pay up to \$15.00 a bushel for the seed a few years ago.

Seeding Suggestions

Inoculate your seed with Berry's Nodule Germ. See Page 41. Sow on winter grain when ground can be harrowed lightly. Sow 15 lbs. per acre. Harrow lightly or roll after seeding. Rolling is best. Sow with spring grain in a similar way. Cover seed lightly with a harrow and roll. The firmer the seed bed the better.

If you cut Hubam as a seed crop or use it for pasture, often the crop will reseed itself for another year. It does not become a pest. It is easily eradicated by cultivation. If plowed under before it seeds it will not come up again.

Low Price on World Brand Quality

Our Hubam Type seed is carried in one quality and that is our World Brand. That is our best grade and a fine quality that pleases critical buyers. Make comparisons on a quality basis and note the big savings our prices can give you. This is the year to get started with this valuable, quick acting, money making clover. Use Berry's World Brand scarified seed. We use care in the purchase and preparation of this seed. Our seed is scarified. Shipment guaranteed to please you and save you money. See Page 8.

We want your business and are making our prices correspondingly low. Don't pay more for seed that is no better or will do no more for you. Here in this great crop you can get a measure of value that we do not believe can be duplicated anywhere else. Let us help you get started with this money maker.

Small Lots, postpaid: 1 lb., 35c; 5 lbs., \$1.50; 10 lbs., \$2.50.

INOCULATE CLOVERS PAGE 41

MIXED SWEET CLOVER

Lot PREMIUM

We consider this one of our biggest Sweet Clover values. It is a fancy quality seed which is just under our famous World Brand grade for quality. That means it is seed having good color and size and high purity and scarified for high germination. You can buy this fine fancy seed at this low price because it contains both yellow and white. That does not lower its value for practical purposes and enables you to make extra savings. Do not confuse this with lower grade mixtures of white and yellow sometimes sold. This Lot Premium has the quality that pleases. Runs approximately 80% White and 20% Yellow.

YOUR HOME GARDEN IS AMERICA'S FIRST LINE of OFFENSE

PLANT a COMPLETE GARDEN THIS YEAR

DO YOUR PART TO WIN THE WAR

You can help win this war in your own back yard. Grow vegetables for Victory. Let the Army and Navy have the cans. The big Home Victory or War Garden Program now being sponsored by our National Victory Council, Secretary of Agriculture, and other government agencies needs the support of everyone. Only by 100% cooperation and participation by everyone can we be insured of success in this Garden Program so vital to National Health and Victory.

Victory will come to America because we'll unite in this and other crusades essential to it. If you want to be sure of doing your part order the Approved Family War Garden Collection page 53 at Berry's special price of only \$3.75 postpaid. Save more by getting your neighbors to order too—price in groups of 8 or more only \$3.59 prepaid.

That is why we term this Home Garden Promotion being carried on by State Agricultural Colleges and your national government "America's First Line of Offense." Fresh vegetables from your own garden in a complete variety is the basis for our health rules. Don't depend on someone else to garden for you. Help make America self-sufficient by doing your share in raising your own food supplies.

and PROTECT YOUR Family's HEALTH and PROSPERITY

Raising lots of fresh vegetables for eating and canning not only insures you and your family better health but also adds greatly to your farm income. Surveys made recently show that the most successful farmers today are those who raise a big home garden. The whole family can take a part in it and the garden is the backbone of successful farm management. It also trains the children in a family to do their part and they here may learn the vital importance of assuming responsibility in contributing something vital to their own family's welfare.

We all know fresh vegetables from our garden taste better than any we may buy. There is also nothing like home canned foods. But some of you may not appreciate how far on food or living costs your own garden will carry your family. Government economists say a ½ acre farm garden will save up to \$200 on food costs for the average family of 5. With Berry's New "Victory Garden" Bulk Packages (see page 53) and our big collection offers on pages 49, 52 and 53 you may get enough seed to plant 1 acre of all vegetables for as little as \$3.75.

GARDEN SEED SUPPLIES SHORTEST in HISTORY

This year many contributing factors beyond the control of seedsmen have combined to give us the shortest garden seed supplies in history. First acreages of nearly all vegetable seeds were greatly reduced and adverse growing conditions drastically cut down the yields and in some cases meant total crop failure.

We would not be so short of seed though if it wasn't for the fact we normally import a part or nearly all of our requirements on several important vegetables. The imports have been cut off nearly 100% by the War in Europe. Imports furnish about 80% of our Spinach, all of our Cauliflower and Herbs, 60% of our Cabbage, 50% of our Turnip, 35% of our Radish and so on.

Other countries that normally import items from these same European nations have now turned to us for help. We have shipped hundreds of cars of seed to England for that country needs it (to survive the war) and will pay any price, also large exports to South America and Russia.

Some companies this year will not be listing in their catalogs some standard items. We can't expect to fill all orders later in the season in full (regardless of price). But as long as we can, you'll find the lowest prices and biggest measure of the year in Berry's "Victory Garden" Bulk Packages described on page 53.

ORDER NOW BERRY'S TELL YOU WHAT AND HOW TO PLANT

In order to aid you in planning your garden so as to have all the vegetables necessary to health in your diet we'll furnish with each garden seed order for \$1.00 or more our Planting Guide. This shows you just how far Berry's "Victory Garden" Bulk Packages will go so you won't need to waste any seed.

If you want to be sure of the right vegetables and varieties and save the most money, order our big "Lucky 7" or State Approved War Garden Collection pages 49 and 53. Also on page 53 see why in every Victory Garden Bulk Package you get more seed for your money at Berry's.

GERMAIN'S HOTKAPS

Crop insurance at low cost enabling you to market your vegetables three weeks earlier and insures finest quality. (Pictured on page 52.) Hotkaps are "individual hothouses" for each plant giving protection and forcing plant growth. They allow the proper amount of air and light for quickest plant development. Hotkaps are used to protect any flower or vegetable, being particularly adapted for vine crops.

Complete instructions given with each size package ordered or get our free circular before ordering. Postpaid prices: 25 Kap (Home Garden) size with paper setter, 50c. 100 Kap Size with fiberboard setter, \$1.95. 250 Kap Size with setter, \$3.50.

Not prepaid: 1,000 Kaps without Setter, \$11.00. Weight, 28 lbs.

SEE POST CARD ENCLOSED

You will find enclosed in this catalog a post card addressed to the Berry Poultry Farm of Clarinda, Iowa. This is a different firm than the Berry Seed Co. While there is no connection between these companies we are sure you will be well pleased with any dealings you may have with the Berry Poultry Farm. Mail this card promptly and you will hear from them direct. They will send you free large poultry catalog, printed in colors.

YOUR CHOICE With

LUCKY "7"
COLLECTION

A GIFT YOU WILL REMEMBER

One dollar in itself is not much to have given you. Still on a \$1.79 order it is more than you would expect. Multiplied by several thousands or tens of thousands it becomes a large sum of money. That is what we are actually doing to promote more and larger gardens in the interest of Victory.

We are actually giving you more than \$1.00 though when we give you that sum in garden seeds your choice free. It will actually save you over a year's time a good many times that amount in food costs and as health insurance. We can't do more and stay in business to serve you in years to come. We know you don't expect more. All you want is to do your part and get value received for any money sent us. We've guaranteed you more than that in this big free offer.

Order Now While Stocks Are Complete

Look over our complete line of vegetables and pick out your favorites. Don't miss the new and improved varieties of beets, carrots, cabbage, and tomatoes. See page 50 for "Berry's Specials." We have added new and exceptional varieties of tomatoes to our list, see page 51. We offer the self determinate (need no pruning) varieties: Victor, Allred, and Bison, in addition to the old favorites: Earliana, John Baer, Rutgers, Marglobe, Oxheart, Ponderosa, etc.

Onion seed; our complete list on page 59 will interest you; all varieties in New Crop. High Germinating seed. Radishes, Lettuce, Melons, Spinach, Squash, and Pumpkins are varieties necessary to completely balance all varieties necessary to completely balance your "Victory Garden." Buy our Lucky "7" collection so we can help your "war effort" with all the varieties you will need. Order now and get exactly what you want.

In this free collection you may order Victory Garden Bulk Packages—the big money saving size—as well as the regular size packets. Your choice of \$1.00 gift is limited to regular sized packets 5—9c and V.G.B.P. at catalog prices. List on order sheet your choices totaling up to \$1.00. If your order totals over \$1.00 please remit for the difference.

For complete Home War Garden Collection (Regular price \$4.20) at special low price \$3.75. See bottom of page 53.

RECOMMENDED FOR EVERY HOME VICTORY GARDEN

This collection contains the identical varieties of Peas, Beans and Sweet Corn recommended by State Colleges, leading seedsmen, and government agencies; for the farm or home gardener cooperating for our Defense under the "Food for Freedom" program. That includes all of us. "United we stand—divided we fall."

All of us have our favorite varieties, we can't please all the people all the time; but we know this collection contains many of your favorites. We know you'll cooperate then and order today. Every gardener, which includes us all and those in other States, is going to be offered this or a similar collection to plant a big home Victory Garden in this hour of National Emergency. For the complete Home War Garden Collection see bottom of page 53.

We want at least 100,000 of our good customer friends to show us they are 100% good Americans by ordering of us and planting this collection. We guarantee highest quality seeds and for early orders as long as supplies hold out we'll give you free as explained opposite \$1.00 worth of garden seeds your choice.

This looks like a lot of seeds for so low a price. It certainly is but we want to give you the bargain of a lifetime on garden seeds. Few of us have been raising a big enough garden and eating enough fresh home grown vegetables. Now by canning liberal quantities you can save more than ever as food costs are rising daily—and this is the way to good health which you can not buy at any price. Avoid the rush. Protect your family. Order today. We will mail at once. For first 5,000 orders we will furnish special 25c Planting Guide Free.

BERRY'S "LUCKY 7" COLLECTION \$1.79 POSTPAID

WORLD'S GREATEST BARGAIN

BERRY'S HYBRID SWEET CORN GARDEN

Why pay a premium for Hybrid Sweet Corn? Only because the yield may be increased 50%? No—a bigger difference is in the superior quality and deliciously sweet and tender flavor. Hybrid Sweet Corn is nearly 100% drought and wind-resistant. Order both early and late varieties or our 8 Row (Early) and 12 Row (late) blends of best varieties.

HYBRID BERRY'S "Earli-Best"

Berry's "Best Early" Yellow Sweet Corn

The best variety in your favorite Golden Bantam type 8-10 rowed. Selected for early maturity and extra fine quality from all hybrids developed to date. Because it matures uniformly, we recommend making several plantings at 6-8 day intervals. Plant 1/2 or 1 pound each time. No. 20X—V.G.B.P., 21c; 1 lb., 34c; 2 lbs., 64c; 5 lbs., \$1.45, postpaid.

Berry's 8 Row Hybrid Blend

A mixture of four finest hybrids, blended to make the earliest possible crop, and to insure superior hybrid flavor and quality over the longest possible period. For the earliest, most productive and finest quality Sweet Corn, plant this Hybrid blend to bear over a two to three weeks period. No. 201X—V.G.B.P., 23c; 1 lb., 36c; 2 lbs., 66c; 5 lbs., \$1.55, postpaid.

38¢ LB.

Berry's 12 Row Hybrid Blend

A combination of 12 row hybrids with same plant heights and that mature at different times. Enjoy hybrid quality over a long picking period of at least two weeks by planting this blend. About 10 days later than our 8 row blend. No. 200X—V.G.B.P., 24c; 1 lb., 38c; 2 lbs., 70c; 5 lbs., \$1.65, postpaid.

Regular Sweet Corn Prices, Page 55

36¢ LB.

STOWELL'S Evergreen Hybrid

A Favorite Variety at Its Best

Of many hybrids developed of the Stowell's type, we have selected this as the best. It gives you unsurpassed Stowell's quality and increased yields. It is vigorous and highly resistant to disease, wind and drought. Plant successively at one week intervals. No. 287X—V.G.B.P., 27c; 1 lb., 45c; 2 lbs., 79c; 5 lbs., \$1.75, postpaid.

45¢ LB.

I WANT EVERY GARDENER TO "TASTE THE DIFFERENCE" OF THESE 8 FAVORITE VEGETABLES. A NEW THRILL AWAITS YOU IN THEIR EXTRA DELICIOUS QUALITY

Charles Sinn, our general garden seed manager, is now serving you in the U. S. Army. Arthur F. Brenckle is now in charge.

THE BEST NEW DWARF GREEN BEAN

ANDRETH'S STRINGLESS In Improved Burpee's Bean

For years everyone has planted the old standby, Stringless Green Beans, in their garden. It has given satisfaction—just as the old "Model T" did in the days gone by. Now we are able to give you something new and much better at little extra cost. Did you ever stop to think how little your garden seed costs? But my, what a difference there can be—something you must see for yourself.

Be sure and try this one now. It is more prolific than the old Burpee's, much better quality and more hardy. It is disease resistant—will thrive anywhere, make a succession of plantings this year. You need at least 2 pounds for your garden. Our stock is western grown, hand-picked and polished, germination about 95%. There is no better seed or variety than this for the home garden. Victory Garden Bulk Package, 15c; ½ lb., 27c; 1 lb., 45c; 2 lbs., 80c, postpaid. Other Beans, pages 54-55.

Nutrition experts are now urging us to eat more fresh vegetables. All 8 of these are important in our daily diet for health. Grow these at home—they'll taste better and save you a lot of money on food costs at our introductory offer of all 8 for only 75c, postpaid; you save 45c. Order No. 52X—Delicious fresh vegetables such as these are delicacies that cost little but mean a lot to our National Victory Program.

OUR BEST-A FAVORITE OF THOUSANDS

Berry's Beat-'Em-All Radish

Think of it! Crisp, snappy radishes ready to eat 15 to 18 days after planting. A decidedly superior variety with sparkling red top and white tip. An extra early variety of superior quality for home or market. Save money by buying enough for a succession of plantings and enjoy fresh radishes all summer. Lot 725X—Postpaid: Pkt., 15c; V.G.B.P., 20c; ¼ lb., 75c; ½ lb., \$1.35; 1 lb., \$2.25. Radishes, Also Page 65

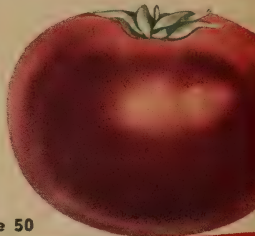

AN EARLY TOMATO of WONDERFUL QUALITY

Berry's Early Wonder Tomato

A favorite with home and market gardeners for years. The very earliest tomato that gives you unsurpassed quality. The color is a deep, glossy, bright, brilliant red. The skin is smooth. The thick meat is finely flavored. The fruit is nearly round

and large in size. Has a small seed cavity, firm but juicy flesh. A vigorous grower, it bears enormous crops, over a long period. Grow this tomato for the earliest finest quality fruit. Lot 156X—Postpaid: Pkt., 15c; V.G.B.P., 27c; oz., 50c; ¼ lb., \$1.50; ½ lb., \$2.75.

YOUR SELECTION

DELICIOUSLY SWEET, TENDER, HEALTHFUL

Berry's Tenderflesh Carrot

The finest health giving vegetable at its best. Crisp, tender, delicately flavored flesh makes this a garden favorite with anyone who grows it. Supreme quality. Coreless, distinctive cylindrical in shape with very little taper, its flesh has a deep rich orange color. This is a very early maturing strain developed for home gardens. Some say it is the favorite vegetable in their garden. Be sure to try it! Lot 012X—Postpaid: Pkt., 15c; Victory Garden Bulk Package, 29c; oz., 60c; ¼ lb., \$1.75; ½ lb., \$3.25.

Regular Varieties, Page 58

A MOST SUPERIOR QUALITY PEA FOR YOU

Berry's Supreme Wonder Pea

Named because you will marvel at its quality and production. A dwarf wrinkled variety growing vigorous dark green pods about 20 inches high. They are loaded with pods filled with dark green peas. You have never tasted peas so tender, so sweet, so delicious. The best there is for your garden. Plant, at least two pounds at different times so you will have plenty for canning. Lot 364X—Postpaid: V.G.B.P., 15c; ½ lb., 27c; 1 lb., 45c; 2 lbs., 80c.

See Also Pages 62-63

AN EXTRA FINE EARLY CABBAGE

Berry's Earliest Cabbage

We challenge you to beat this variety anywhere for earliness, quality and productivity. A round head type cabbage that starts with a bang, heads in a hurry and is ready to eat before most kinds curl up its outer leaves. Heads are firm, color bright green. Rich flavor. Grows compact so may be planted closer together than most varieties. For the first cabbage in your garden, plant this. Lot 971X—Postpaid: Pkt., 15c; Victory Garden Bulk Package, 25c; oz., 45c; ¼ lb., \$1.50; ½ lb., \$2.75.

Later Varieties, Page 57

Berry's Mammoth Melting Sugar Watermelon

The sweetest most delicate flavor you ever tasted. Absolutely stringless, its scarlet flesh fairly melts in your mouth. A spice to its sugar—sweet juice makes it always a delicacy at any time. Big beauties growing 20 to 25 inches long, weighing 40 to 60 pounds. Dark green color with tough rind, creamy colored seed. Hardy, vigorous vines often bearing 6 to 8 melons each. The earliest finest quality melon we have ever seen. Plant extra early. Lot 153X—Postpaid Pkt., 15c; V.G.B.P., 20c; ¼ lb., 75c; ½ lb., \$1.35; 1 lb., \$2.25.

Melons, Pages 60-61

A BEET of TRULY SUPERIOR QUALITY

Berry's Early Blood Red Beet

An early variety of deep blood red color. A selection of equally superior quality for table, canning and pickling. Smooth globe shaped roots with short tops. Extra sweet and crisp, it matures quickly but is a splendid keeper. If you want the best, try this one. It will be a favorite among all others. Lot 393X—Postpaid: Pkt., 15c; V. G. B. P., 22c; ¼ lb., \$1.10; ½ lb., \$2.00; 1 lb., \$3.50.

More Beets
Page 56

BERRY'S TOMATOES

Rich Juicy

BEST EARLY RED VARIETIES

Save money. Grow your own tomato plants. They are hardier than those shipped in or produced in greenhouses. Plant 10-12 seeds per hill in your regular outdoor garden as early as frost danger is over. No transplanting necessary. Your tomatoes may be later but they will be just as good. Under "Food for Freedom" Program you need 3 regular size packets or 1 Victory Garden Bulk Package (V.G.B.P.). See page 53.

In nutrition value Tomatoes are high and should appear more often in our diet than any other vegetable except potatoes. They retain most of their ascorbic acid (Vitamin C) even when cooked. They are easy to grow, readily canned and the average family needs 150 quarts per year. Tomatoes should appear in our diet 6 days a week, as recommended by Bureau of Home Economics, U. S. Dept. of Agriculture.

156X Berry's Early Wonder. (See opposite page.)

654 Bison. See picture at right. For a sure crop of the finest quality, earliest tomato try Bison. It produces abundantly where other varieties fail. Bison is the best new Tomato in years. It produces smooth, luscious, deep red fruit a little larger than Earliana and maturing a few days earlier. Far superior to Earliana in yield and quality. Pkt., 8c; V.G.B.P., 15c; oz., 34c; ¼ lb., \$1.05; ½ lb., \$2.00.

670 Break O'Day. Most prolific of early types being a cross on Marglobe and maturing a little later than Earliana. Fruits orange-red, medium large, smooth, solid and heavy. Vines wilt-resistant. Pkt., 7c; V.G.B.P., 14c; oz., 32c; ¼ lb., 95c; ½ lb., \$1.75.

655 Earliana. A favorite of home gardeners. Vines open, spreading, and very productive. Fruits deep scarlet, medium size, exceptionally smooth. Pkt., 5c; V.G.B.P., 13c; oz., 29c; ¼ lb., 85c; ½ lb., \$1.50.

653 All Red. Needs no pruning. As Early as Bison. Fruits red, large, smooth, without green top or green core. Pkt., 10c; V.G.B.P., 15c; oz., 34c; ¼ lb., \$1.05; ½ lb., \$2.00.

BISON

New "ALL AMERICAN" WINNER

658 Victor — 1941 All-American Bronze Medal Winner. The finest extra early tomato, producing large clusters of finest quality deep scarlet fruit. In production it equals Earliana with a much higher percentage of fruit of marketable quality. The fruits are solid, heavy, juicy and of excellent flavor. Recommended for early market and home use, especially for the more northern states. Pkt., 8c; V.G.B.P., 17c; oz., 45c; ¼ lb., \$1.35.

INTERMEDIATE OR SECOND EARLY SORTS

661 Pink Marglobe. A new disease resistant variety. Earlier than regular Marglobe, it is also a heavier yielder. Otherwise similar to regular Marglobe, but flesh is pink. Pkg., 9c; V.G.B.P., 16c; oz., 36c; ¼ lb., \$1.10; ½ lb., \$2.00.

664 Certified Rutgers. The outstanding new variety in its class. To insure you getting the variety at its best we offer only certified seed. Really an improved Marglobe maturing a little earlier and being a heavier yielder. It ripens from the inside out to a uniform bright scarlet color. Thrives under more unfavorable conditions than other varieties. Pkt., 7c; V.G.B.P., 13c; oz., 28c; ¼ lb., 80c; ½ lb., \$1.45.

674 Bonny Best. Earliest of all tomatoes in this group. Fruits medium large, apple-shaped, smooth, solid, bright scarlet in color, of excellent quality, setting in clusters of 4 to 8. Unexcelled as a general purpose tomato. Pkt., 6c; V.G.B.P., 12c; oz., 25c; ¼ lb., 75c; ½ lb., \$1.35.

665 Marglobe. A most popular all-purpose variety, very vigorous and productive, disease resistant. Uniformly large solid fruits, bright scarlet, of finest quality and flavor. Pkt., 5c; V.G.B.P., 11c; oz., 22c; ¼ lb., 65c; ½ lb., \$1.15.

652 John Baer. An old favorite with large smooth scarlet red fruits of excellent flavor. Pkt., 5c; V.G.B.P., 12c; oz., 25c; ¼ lb., 75c; ½ lb., \$1.35.

Berry's
Giant
Improved
Ponderosa

OXHEART

671 A distinctively attractive variety entirely different from any other tomato. Increasing in popularity each year because of its very solid, meaty fruit of a delicious sub-acid flavor. Almost seedless, the fruits grow extremely large and heart shaped. Flesh is pink. A favorite of thousands. For the home garden. Pkt., 9c; V.G.B.P., 18c; oz., 55c; ¼ lb., \$1.75.

Oxheart

this giant of all tomatoes—a favorite of thousands. Almost seedless, making it fine for slicing. Vines are vigorous and productive, fruits large, oblong-purplish red, thin skinned and solid. Recommended for superior flavor. Pkt., 9c; V.G.B.P., 18c; oz., 55c; ¼ lb., \$1.75.

663 New Stone. An old reliable home garden type. Very productive fruits large, smooth, attractive scarlet-red, of fine flavor. Pkg., 5c; V.G.B.P., 10c; oz., 18c; ¼ lb., 65c; ½ lb., \$1.10.

675 Beefsteak. Bred from the original Ponderosa, and resembles it closely. A brilliant crimson scarlet, wilt resistant, the large fruits are carried in clusters. Solid and meaty, making it excellent for table use. Pkt., 6c; V.G.B.P., 13c; oz., 34c; ¼ lb., \$1.05; ½ lb., \$2.00.

666 Ponderosa. Vines large and spreading, bears until frost. Fruits are purplish-pink and grow to immense size. They are solid, meaty and of finest flavor. Pkt., 7c; V.G.B.P., 14c; oz., 35c; ¼ lb., \$1.00; ½ lb., \$2.00.

SMALL FRUITED VARIETIES FOR PRESERVES

657 Red Cherry. Pkt., 10c; V.G.B.P., 13c; oz., 37c.

659 Red Pear. Pkt., 10c; V.G.B.P., 13c; oz., 37c.

667 Yellow Plum. Pkt., 10c; V.G.B.P., 13c; oz., 37c.

668 Yellow Pear. Pkt., 10c; V.G.B.P., 13c; oz., 37c.

669 Ground Cherry. Pkt., 10c; V.G.B.P., 13c; oz., 37c.

SPECIAL FAVORITES

660 Mingold — 1940 All-American Silver Medal Winner. An attractive new yellow tomato rich in vitamin D. Fine for tomato juice and sliced in salads with the reds. Fruits are medium large, nearly globular. Solid with thick walls. Pkt., 7c; V.G.B.P., 14c; oz., 35c; ¼ lb., \$1.10.

656 White Beauty. Many feature this variety as "Snowball." An ivory white tomato with paper white flesh. As big as Ponderosa with few seeds and no acid. Grow something different in a big excellent quality tomato that anyone can eat. Pkt., 8c; V.G.B.P., 15c; oz., 38c; ¼ lb., \$1.15.

662 Golden Ponderosa (Yellow). A very large deliciously mild flavored late variety for the home garden, wilt-resistant and nearly seedless. Same as Ponderosa except flesh deep yellow color. Pkt., 6c; V.G.B.P., 13c; oz., 34c; ¼ lb., \$1.05.

Three new Favorites—1 pkg. each White Beauty, Victor and Mingold Tomato—varieties every gardener should know. Tomatoes are a fine crop to can—have plenty of them. Regular price 23c—our special offer No. 501X —15c postpaid.

LATE or MAIN CROP

673 Berry's Giant Improved Ponderosa — the largest tomato developed to date. Our seed has been triple tested, in laboratory greenhouse and trial grounds in removing the roughness and splitting tendency from

what our
"Victory Pro-
gram" means
to you.

Only \$1.00 POSTPAID

Order with
"Lucky 7" Collec-
tion page 49 for a com-
plete Home "Victory
Garden."

WHAT THIS COLLECTION MEANS TO YOU

This collection contains those vegetables most vital in our daily health diet. Individuals make up a nation, so the success of our Victory Program depends on you, your neighbors, friends and relatives. Good health comes first of all from the proper foods in our daily diet, secondly from exercise. You can get both of these best at home in your garden. Victory comes to the "survival of the fittest."

Our entire Victory Program starts with the Home Garden. That means all of us. The slogan for 1943 is not "V" for Victory but "U" for Unity in our "Food for Freedom" program. Berry's in offering you "Victory Garden" Packages (more seed for less money as explained on opposite page), are cooperating with our U. S. Government Victory set-up. If you'll unite and do your part—you will not only order this "Prize" Collection today but also our "Lucky 7" Collection, page 49. These two collections are made up so that they should be ordered together and contain the proper vegetables in such quantities as recommended by U. S. Dept. of Agriculture, your own State College and the Nutrition Program. Do your part for Victory. Order both today—save money now—and more later on food costs. Enjoy life by having its greatest asset—good health.

AMERICA'S GREATEST GARDEN SEED VALUE

We bar no seed house or dealer in making this statement. We let you be the judge and we know you'll agree with us. First, compare our prices on bulk garden seeds with others on Radish, Lettuce, Beets, etc., by ounce, ¼ pound or any amount. You will find we have lowered them in many cases from last year's catalog when others have raised. In fact, we don't know where your \$1.00 will make you as much money as here. The vegetables produced from these "Victory Garden" Packages may save you \$50-\$100 on food costs alone.

This collection at our catalog prices would cost \$1.70 if the same items were ordered individually. Where can you equal such a saving—nearly 50%? We say the same amount of seeds elsewhere would probably cost \$2.50, so this is really a \$2.50 value for \$1.00. It is hard to believe but that is our part in the Victory Program; to give you the largest amount of high quality garden seeds you can buy anywhere for \$1.00 so you will plant a larger garden this year. Now all we ask of you is to do your part in our Victory Program by ordering this collection today as well as Berry's "Lucky 7," page 49. This will give you all the garden seeds you need for a big "Victory Garden" and save you a lot of money on food costs.

(1) This "Prize" Collection is guaranteed the year's biggest garden seed bargain.

(2) Don't order alone though—you won't have enough Peas, Beans, Corn, etc.

(3) Order with "Lucky 7," page 49, or its equivalent in other garden seeds.

1—V.G.B.P. Early Alaska Peas

1—V.G.B.P. Burpee's Stringless Beans

1—V.G.B.P. Golden Bantam Sweet Corn

1—V.G.B.P. Early Blood Turnip Beet

1—V.G.B.P. White Icicle Radish

1—V.G.B.P. Black Seeded Simpson Lettuce

1—V.G.B.P. Early Green Cluster

1—V.G.B.P. Danver's Half Long Carrot

RAISE MORE For VICTORY

Plant Our Victory Garden Bulk Packages

This second World's War promises to last longer than the first. Victory will come to the "survival of the fittest," and the more we Prepare today the quicker Victory will come tomorrow. In all our plans for victory, our united action as individuals will write the verdict.

Every American can answer the call to arms right at home. Let us unite 100% behind our War Council in their request for more and bigger town and farm gardens. It will not only mean better health for us but a home garden save immensely on living costs. The better health we enjoy as individuals, and the more self-sufficient we become in our own food requirement—the stronger we become as a Nation.

Berry's give everyone an equal opportunity to participate in this widespread War Garden Promotion by offering new large sized Packages "Victory Garden" at the year's lowest prices.

MORE SEED FOR LESS MONEY

The most economical way to order garden seeds is in bulk—you get the most value for your money. With seed supplies short though we don't want to order more than we need and waste any.

The regular sized packets which usually sell for 5 to 10c each at the higher price of garden seeds today don't contain enough seed to plant a larger garden that we all need. We, therefore, offer Victory Garden Bulk Packages which at slight additional cost may contain several times as much seed as smaller packets. They contain just as much value as our larger bulk units which we know you will find will save you money.

On Peas, Beans and Sweet Corn we don't offer any regular packets as no one should plant less than V.G.B.P. size. We recommend only V.G.B.P. or larger units be ordered on all vegetables telling you on each vegetable how much 1 V.G.B.P. will plant and how many V.G.B.P. the average family needs to have enough to eat the year round. Study this valuable information at the top of most pages 54-66 inclusive. First though refer again to our Special War Garden Collections on page 48, on opposite page and below.

BERRY'S GUARANTEE SATISFACTION

Berry's have long been known to thousands of garden seed buyers for their superior quality. We are one of the oldest and largest mail order seed houses serving thousands of new customers each year. Laboratory-tested quality to thousands of old customers who order of us each year has meant gardening satisfaction from quick germinating, strong vigorous growing seeds that produce better quality vegetables.

Our customers' complete satisfaction over many years is probably the most important test given our seeds. We guarantee our garden and flower seeds to grow. If they fail to do so due to poor germination we will replace the seed free of charge.

We guarantee safe arrival of every order to you. It is easy to order by mail as you get free delivery—planting instructions—and everything to make it easy for you to raise a big garden with little effort. We ship all orders promptly but don't delay—mail yours today.

STATE APPROVED FAMILY WAR GARDEN

Single Collections \$3.75 each, Prepaid

Here is a garden planting designed to give you an abundance of delicious crisp fresh vegetables. There is a lot of difference, you know, in varieties. The ones chosen for this list were picked for their fine quality, excellent flavor, heavy production, as well as for storing and canning purposes. These kinds and varieties are approved by the Iowa State College and the Iowa Agricultural War Board.

Fresh vegetables in stores will be scarce because of transportation problems. Canned vegetables will be definitely short because of military needs and exports to Europe. Don't get caught short of food. You can have it in great abundance and

in finer quality if you grow it at home from this great collection.

Help win the war in your own back yard, by getting this Family War Garden. We must guard our health in times like these, for doctors are scarce and sickness stops work. Help our boys fight by eating right.

In spite of vegetable seed scarcity our price is low, and at \$3.75 this assortment is a great bargain. Order yours at once while they are still available. Get your neighbors to join in ordering and take advantage of the quantity price: \$3.59 in lots of 8 or more.

WAR GARDEN PACKAGE

- 1 lb.—Beans (Bush) — Stringless Green Pod.

- 5 lb. Bag Bug-Dust-O-Cide—\$1.60.
- 10 lb. Bag Bug-Dust-O-Cide—\$3.00.
- 25 lb. Bag Bug-Dust-O-Cide—\$6.95.
- 50 lb. Bag Bug-Dust-O-Cide—\$12.00.
- 100 lb. Bag Bug-Dust-O-Cide—\$20.00.
- Empty Fiberboard Dusters—25c each.

ORDER SEVERAL VICTORY GARDEN BULK PACKAGES

New
Brittle
Wax

Our Victory Garden Bulk Packages contain enough seed for one person only. The average family of 5 needs at least 2 pounds of beans.

YELLOW POD WAX BEANS

126 New Brittle Wax. The outstanding variety for the home garden. Plant large, erect, vigorous, very productive. Hand-some yellow pods, round, slightly curved, extremely brittle, fleshy, succulent, absolutely stringless and fibreless. The standard of highest quality. Postpaid: V.G.B.P., 19c; 1 lb., 29c; 3 lbs., 79c; 5 lbs., \$1.25.

127 Pencil Pod Black Wax. Of finest quality. Large plant, very productive. Pods round, slightly curved, golden yellow, absolutely stringless, brittle and without fibre. Postpaid prices: V.G.B.P., 18c; 1 lb., 27c; 3 lbs., 70c; 5 lbs., \$1.10.

130 Berry's Top Notch Golden Wax. This is an improved strain of regular Golden Wax. Pods average one inch longer and are much more productive. Very early—our best for the home garden. Postpaid prices: V.G.B.P., 18c; 1 lb., 28c; 3 lbs., 75c; 5 lbs., \$1.15.

117 Sure Crop Wax. Fine for the home garden. A later variety but a heavy yielder under unfavorable conditions. Absolutely stringless pods. Postpaid prices: V.G.B.P., 18c; 1 lb., 27c; 3 lbs., 70c; 5 lbs., \$1.10.

Sure Crop Wax Bean

BERRY'S GARDEN BEANS

Famous for Their Tested Quality

Beans, Peas and Sweet Corn require a large part of your total gardening space. Therefore in connection with Beans and Sweet Corn on these two pages also refer to pages 62-63 for Peas. In planning how much room you need figure an average family of 5 persons for the quantities shown in our "Lucky 7" Collection, page 49, or a total of 5½ pounds. It contains 2 pounds of Beans in all the best varieties. Prices are just as low as if ordered separately, too, and by ordering this collection you get the big free gift of \$1.00 value in other garden seed your choice.

One pound of beans drilled will plant 100 feet of row. The average person needs at least 60 feet planted to eat 8 quarts under the Nutrition Program. Because of this we don't list any small packets of Beans, the smallest being our Victory Garden Bulk Package which contains enough seed for one person only.

If your family requirements are smaller than the amounts found in our "Lucky 7" Collection order the Special Collections of Beans on this page and page 55 to save money.

GREEN PODDED BUSH BEANS

121X—Landreth's Stringless Green Pod. An improved Burpee's Stringless—seeds look the same as Burpee's. Full description and picture on page 50. Postpaid: Victory Garden Bulk Package, 15c; ½ lb., 27c; 1 lb., 45c; 2 lbs., 80c.

116 Tendergreen. (See picture at right.) Hardy and prolific. Light green pods 7 in. long are round, meaty, tender, stringless. For the home garden, canners or truckers. Postpaid: V.G.B.P., 17c; 1 lb., 28c; 3 lbs., 75c; 5 lbs., \$1.15.

134 Burpee's Stringless Green Pod. The old favorite garden bean for home, market or canning. Plants sturdy, very prolific. Pods round, fleshy, perfectly stringless and of excellent quality. Postpaid: V.G.B.P., 15c; 1 lb., 27c; 3 lbs., 75c; 5 lbs., \$1.10. Not prepaid: 10 lbs., \$2.00.

132 New Bountiful. An extra early green podded variety ready to pick in six weeks. Vines vigorous and productive. Brittle, meaty and tender, absolutely stringless, and of fine flavor. Postpaid: V.G.B.P., 17c; 1 lb., 28c; 3 lbs., 75c; 5 lbs., \$1.15. Not prepaid: 10 lbs., \$2.00.

133 Giant Stringless Green Pod. One of the favorite stringless podded sorts. Pods round, meaty, brittle. Stringless throughout entire growth. Heavy producer. Postpaid: V.G.B.P., 17c; 1 lb., 28c; 3 lbs., 75c; 5 lbs., \$1.15. Not prepaid: 10 lbs., \$2.00.

125 Tennessee Green Pod. One of the earliest snap beans, pods long, flat, dark green, of excellent flavor. Plants hardy and productive. Postpaid: V.G.B.P., 17c; 1 lb., 27c; 3 lbs., 75c; 5 lbs., \$1.15. Not prepaid: 10 lbs., \$2.00.

150 Red Kidney. Dark Red. The old-fashioned baking bean. Produces large flat green pods, well filled with large red kidney-shaped beans, rich in flavor. **Postpaid: V.G.B.P., 15c; 1 lb., 23c; 5 lbs., 90c.**

BEAN CULTURE—HOW TO PLANT

Don't plant until the ground is thoroughly warm. Plant about $2\frac{1}{2}$ feet apart in rows, about 3 inches apart in the row. Cover about 2 inches pressing soil down firmly. One pound plants about 100 feet of row. Plant every 10 days to two weeks for a continuous supply. Pick frequently to insure longer bearing. Don't pick or cultivate when vines are wet.

Plant Pole Beans one week later than Bush Beans. Plant 3 to 6 beans to a hill, about 3 to 4 feet apart.

SWEET CORN

Make a succession of plantings, especially on Hybrid varieties. The average person needs 5 quarts canned and 1 pound dried. This requires about 1 V.G.B.P. per person as 1 pound will plant 50 hills 3 feet apart.

EARLY SWEET CORN

276 Early Sensational. The ears are beauties to see, uniform size, well filled and plenty of them. The earliest of any variety with finest flavor. Kernels creamy white, extra sweet, juicy and tender. **Postpaid: V.G.B.P., 19c; 1 lb., 29c; 2 lbs., 54c; 3 lbs., 79c.**

277 Golden Bantam. The favorite early yellow sweet corn. Ears 5 to 6 inches long, kernels broad, deep golden yellow, very sweet, juicy and tender. **Postpaid: V.G.B.P., 15c; 1 lb., 23c; 2 lbs., 40c; 3 lbs., 55c.**

278 Delues Golden Giant. Mid-season yellow variety, good for home and market garden. A week earlier than Bantam. **Postpaid: V.G.B.P., 16c; 1 lb., 25c; 2 lbs., 45c; 3 lbs., 59c.**

281 Early Sunshine. Four to five days earlier than Golden Bantam. Good sized ears, 10 to 12 rowed. Kernels golden yellow, sweet, tender. **Postpaid: V.G.B.P., 17c; 1 lb., 26c; 2 lbs., 47c; 3 lbs., 63c.**

283 Early Minnesota. A very dependable productive variety, extra early. Ears are long, with large white grains, sweet and tender. **Postpaid: V.G.B.P., 17c; 1 lb., 27c; 2 lbs., 47c; 3 lbs., 63c.**

LATE SWEET CORN

289 Golden Evergreen. A cross between Golden Bantam and Stowell's Evergreen combining the deliciously sweet flavor of Golden Bantam with the tenderness of Stowell's Evergreen. Ears with 14 to 18 rows, kernels rich golden yellow of finest quality. **Postpaid: V.G.B.P., 17c; 1 lb., 26c; 3 lbs., 69c; 5 lbs., \$1.05.**

290 Early Evergreen. The earliest of all Evergreens. Ears are fully as large as Stowell's and remain tender for a longer period. One week earlier. **Postpaid: V.G.B.P., 16c; 1 lb., 25c; 3 lbs., 65c; 5 lbs., \$1.00.**

287 Stowell's Evergreen. The best known standard main crop sweet corn, excelling all others. Ears 8 inches long, 16 to 20 rowed. Very productive. Kernels clear white, deep, medium width, sugary and tender. **Postpaid: V.G.B.P., 14c; 1 lb., 24c; 3 lbs., 57c; 5 lbs., 85c.**

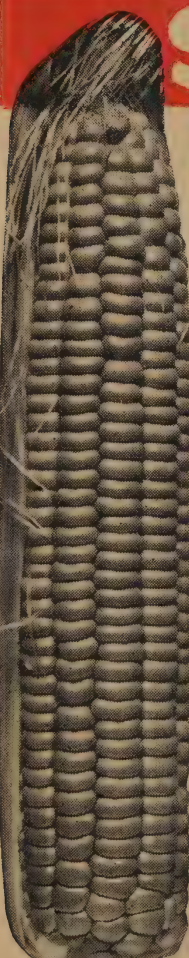

284 Country Gentleman. One of the best known late varieties, superior for home and market gardens and commercial canners. Stalks often with two ears. Ears 7 to 8 inches long, with narrow irregular grains of good quality, sweet and tender. **Postpaid: V.G.B.P., 15c; 1 lb., 23c; 3 lbs., 63c.** Not prepaid: 10 lbs. \$1.25.

HYBRID SWEET CORN

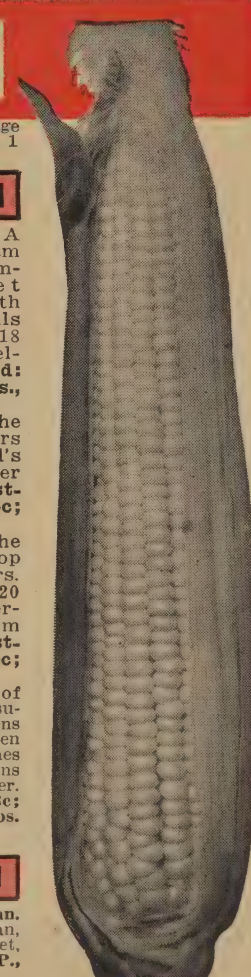

284X—Golden Country Gentleman. A golden yellow country Gentleman, large ears, shoe peg Kernels, sweet, fine quality. **Postpaid: V.G.B.P., 21c; 1 lb., 33c; 3 lbs., 89c.**

277X Golden Bantam Hybrid. Your favorite early Sweet Corn now better than ever. More hardy, finer flavor, heavier yielder. **V.G.B.P., 25c; 1 lb., 40c; 2 lbs., 75c.**

Stowell's Evergreen

BETTS OF QUALITY

CHOICE TABLE BETTS

Beets should be planted both in Spring and Fall. Will keep fine stored in pit or may be canned. One V.G.B.P. will plant 25 feet of row. Plant about 1½ inches deep about 2 inches apart in row. Make several plantings about one week apart. Average person requires 10 pounds per year—1 V.G.B.P.

393X **Berry's Early Blood Red Beet.** Very early, thrives anywhere, deliciously crisp and tender, good uniform size. (Pictured, described more fully page 50.) Postpaid: Pkt., 15c; V.G.B.P., 22c; ¼ lb., \$1.10; ½ lb., \$2.00; 1 lb., \$3.50.

154 **Early Blood Turnip.** (Pictured at right.) Excels in flavor and appearance. A medium early variety, roots top shaped, dark red, retaining color even when cooked. Sweet and crisp. Matures quickly but is a splendid keeper. Postpaid: Pkt., 5c; V.G.B.P., 12c; oz., 18c; ¼ lb., 49c; 1 lb., \$1.79.

151 **Crimson Globe.** An exceedingly fine table beet, of mid-season maturity. Large globe shaped roots. Flesh purplish-red with moderate zonings. Postpaid: Pkt., 5c; V.G.B.P., 13c; oz., 19c; ¼ lb., 54c; 1 lb., \$1.98.

153 **Improved Extra Early Eclipse.** An early variety for home use. Globe shaped, medium dark red color, with zones of lighter color. A fine pickler; sweet, crisp. Postpaid: Pkt., 5c; V.G.B.P., 12c; oz., 18c; ¼ lb., 49c; 1 lb., \$1.79.

155 **Crosby's Egyptian.** An extra early variety preferred by market gardeners, splendid for bunching. Roots globe shaped, slightly flattened, with small tap root. Finest quality, tender and sweet. Flesh purplish-red. Postpaid: Pkt., 5c; V.G.B.P., 12c; oz., 18c; ¼ lb., 49c; 1 lb., \$1.79.

157 **Detroit Dark Red.** The outstanding variety for home use, truck gardeners, and canning. Fine quality, tender and sweet. Roots perfectly round. With small tap root, uniform. Flesh dark red with slight zone. Postpaid: Pkt., 6c; V.G.B.P., 14c; oz., 21c; ¼ lb., 59c; 1 lb., \$2.10.

167 **Berry's Early Wonder.** (Pictured at right.) This wonderful early beet is the result of years of reselecting and improving. For earliness it can't be beat. Very uniform in growth, root globular in shape. Postpaid: Pkt., 7c; V.G.B.P., 15c; oz., 23c; ¼ lb., 65c; 1 lb., \$2.25.

158 **Swiss Chard.** Makes continuous greens of delicious flavor throughout the summer. Grows anywhere. Plant from early spring till July. Postpaid: Pkt., 5c; V.G.B.P., 12c; oz., 18c; ¼ lb., 49c; 1 lb., \$1.79.

Plant These 3 Varieties for a Home Victory Garden

- 1 V.G.B.P. Early Blood Turnip.
- 1 V.G.B.P. Detroit Dark Red.
- 1 V.G.B.P. Crimson Globe.

Early Blood
Turnip Beet

The Victory Garden Program calls for more food. The average family should plant at least 3 V.G.B.P. of Beets.

MANGELS AND SUGAR BETTS

Stock Feeders—Raise Mangels

The average yield of mangels per acre is 30 tons. Aside from the minimum feeding value of \$2.50 per ton, the mangel is a regulator that keeps stock in the best health.

Mangels are very easily grown. A loose or sandy loam type of soil is best to grow mangels on. Drill about 6 pounds of seed per acre in rows 2 feet apart. Cultivate right after planting down the drill rows.

The following 3 varieties postpaid:
Oz., 15c; ¼ lb., 45c; 1 lb., \$1.35; 5
lbs., \$6.00.

162 **Mammoth Long Red.** Heaviest yielding and largest of mangels. Flesh pink tinged.

160 **Golden Tankard.** Very large size and easily lifted. Skin deep orange, flesh yellow with white zones.

166 **Giant Half Sugar.** Heavy yielder, valuable for feeding. Flesh white, with good sugar content. Grows half out of the ground, making it easy to harvest.

CELERY

251 **White Plume.** Earliest of all. A favorite for the table because of crisp tender quality. Stalks are uniformly large and solid. Pkt., 6c; V.G.B.P., 16c; oz., 25c; ¼ lb., 65c.

253 **Giant Pascal.** An excellent variety for fall and winter use. Large, thick, crisp, stringless stalks with a delicious nut-like flavor. Blanches to a beautiful yellowish-white. Pkt., 6c; V.G.B.P., 16c; oz., 25c; ¼ lb., 65c.

252 **Golden Self Blanching.** Most desirable for truckers. Stalks heavier than white varieties blanching into a rich golden yellow. Fine quality, crisp, tender, free from strings. Postpaid: Pkt., 8c; V.G.B.P., 20c; oz., 30c; ¼ lb., \$1.00.

255 **Celeriac or Turnip-rooted Celery.** Roots nearly globe-shaped, are used for flavoring soup, stews, etc. Postpaid: Pkt., 7c; V.G.B.P., 18c; oz., 27c; ¼ lb., 75c.

White Plume Celery

CABBAGE

Cabbage is of vital importance in our Health and Nutrition Program for Victory. Rich in Vitamin C when eaten raw. Can be grown over a long season. Plant seed in hills for plants outdoors as early as possible, cover lightly about $\frac{1}{2}$ inch. Plant both early and late varieties. Order at least 2 V.G.B.P. to have plenty for a daily diet. One person needs about 50 pounds a year. Used more often in a health diet than any other vegetable except Potatoes and Tomatoes.

EARLY VARIETIES

971K Berry's Earliest Cabbage. The best for earliness, quality and productiveness. (See picture page 50.) Postpaid: Pkt., 15c; V.G.B.P., 25c; $\frac{1}{4}$ lb., \$1.50.

179 Golden Acre. A new variety, sure header; heads round and very solid, few outer leaves. Used by truckers for earliest markets. Postpaid: Pkt., 8c; V.G.B.P., 21c; oz., 35c; $\frac{1}{4}$ lb., \$1.00; $\frac{1}{2}$ lb., \$1.75.

176 Early Jersey Wakefield. Small compact conical heads, broad base. Few leaves permitting close planting. A favorite of market gardeners and shippers. Postpaid: Pkt., 6c; V.G.B.P., 18c; oz., 27c; $\frac{1}{4}$ lb., 80c; $\frac{1}{2}$ lb., \$1.45.

182 Copenhagen Market. Finest round-headed early cabbage. Heads uniform, solid, excellent quality. Few outer leaves. Short stem. Desirable likewise for early kraut. Postpaid: Pkt., 7c; V.G.B.P., 20c; oz., 30c; $\frac{1}{4}$ lb., 90c; $\frac{1}{2}$ lb., \$1.60.

185 Norseman. A good shipping variety, heads round, weigh 8 to 10 lbs. Superb quality. Postpaid: Pkt., 5c; V.G.B.P., 17c; oz., 26c; $\frac{1}{4}$ lb., 78c; $\frac{1}{2}$ lb., \$1.40.

Danish Ballhead

LATE VARIETIES

186 Premium Late Flat Dutch. Excellent for home and market garden use. Very solid, large, flat heads, 6 to 7 inches deep. High quality. Deserves its wide popularity. Postpaid: Pkt., 5c; V.G.B.P., 16c; oz., 24c; $\frac{1}{4}$ lb., 70c; $\frac{1}{2}$ lb., \$1.25.

187 Drumhead Savoy. Popular for its tasty flavor. Sweeter than ordinary cabbage. Has crinkled leaves. Round ball-like heads are very heavy. An excellent keeper. Postpaid: Pkt., 6c; V.G.B.P., 18c; oz., 27c; $\frac{1}{4}$ lb., 80c; $\frac{1}{2}$ lb., \$1.45.

191 Danish Ballhead. A superior variety, one of the finest late cabbages. Extremely hard heads, 8 to 9 inches across. Desirable for shipping, storage, and kraut. Pictured at right. Postpaid: Pkt., 8c; V.G.B.P., 21c; oz., 35c; $\frac{1}{4}$ lb., \$1.00; $\frac{1}{2}$ lb., \$1.75.

194 Mammoth Redrock. The largest and best red cabbage. It is fine for slaw, pickling or boiled. A sure header, heads weighing 10 to 15 lbs. An excellent keeper. Postpaid: Pkt., 7c; V.G.B.P., 19c; oz., 28c; $\frac{1}{4}$ lb., 85c; $\frac{1}{2}$ lb., \$1.55.

CELERY OR CHINESE CABBAGE

175 Celery or Chinese Cabbage. Most popular for the home garden. Cylindrical, tapering heads. Crisp and tender. Plant during July-August. Makes fine chicken feed. Postpaid: Pkt., 5c; V.G.B.P., 25c; oz., 40c; $\frac{1}{4}$ lb., \$1.25; $\frac{1}{2}$ lb., \$2.25.

CAULIFLOWER

Choicest Imported Seed

Danish Giant

220 Early Snowball. Most widely used early variety, especially valuable for market. Dwarf habit. A sure header, medium size. Delicious, white and tender. Postpaid: Pkt., 10c; $\frac{1}{4}$ oz., \$1.00; $\frac{1}{2}$ oz., \$1.75; oz., \$3.00; $\frac{1}{4}$ lb., \$9.00.

221 Berry's Danish Giant. Snow white heads, large and compact, of excellent quality. The finest late variety. Postpaid: Pkt., 10c; $\frac{1}{4}$ oz., \$1.00; $\frac{1}{2}$ oz., \$1.75; oz., \$3.00; $\frac{1}{4}$ lb., \$9.00.

Our seeds are guaranteed satisfactory. Victory Garden Bulk Packages are the year's biggest garden seed values. See page 53.

MEDIUM EARLY

181 Early Flat Dutch. A strain popular with market and home gardeners. Heads almost round, good solid quality, weigh about 5 lbs. Postpaid: Pkt., 5c; V.G.B.P., 16c; oz., 24c; $\frac{1}{4}$ lb., 70c; $\frac{1}{2}$ lb., \$1.25.

180 Glory of Enkhuizen. A variety from Holland. Used largely for kraut, also by truck gardeners and shippers. Heads globe shaped, solid, with few outer leaves, weigh 6 to 8 lbs. Remarkably fine flavor, splendid keeper. Postpaid: Pkt., 6c; V.G.B.P., 18c; oz., 27c; $\frac{1}{4}$ lb., 80c; $\frac{1}{2}$ lb., \$1.45.

YELLOW DISEASE RESISTANT VARIETIES

The most destructive and widespread cabbage disease found in all sections east of the Rocky Mountains. "Yellows" is caused by minute organisms living in the soil indefinitely that thrive on living cabbage plants. The only control is to grow varieties that have been developed and are proven to be "Yellows Resistant."

174 Marion Market. Heads are almost round, very solid. Similar to Copenhagen Market but about 10 days later. Postpaid: Pkt., 9c; V.G.B.P., 24c; oz., 45c; $\frac{1}{4}$ lb., \$1.25.

190 Wisconsin Hollander No. 8. Similar to Danish Baldhead. Good for kraut and winter storage. Postpaid: Pkt., 9c; V.G.B.P., 24c; oz., 45c; $\frac{1}{4}$ lb., \$1.25.

183 Jersey Queen. 55 days. Selected from Jersey Wakefield with which it remains identical in type and season. Leaves smooth and dark green. Heads pointed small and compact, permitting close planting. Postpaid: Pkt., 8c; V.G.B.P., 22c; oz., 41c; $\frac{1}{4}$ lb., \$1.15.

188 Racine Market. 60 days. Selected from Copenhagen Market. It is dependably early and uniform; heads are round, solid, and of superior quality. Fine for early kraut. Postpaid: Pkt., 7c; V.G.B.P., 21c; oz., 39c; $\frac{1}{4}$ lb., \$1.05.

BETTER SEED MEANS BETTER GARDENS

TABLE CARROTS

Carrots are vital to health. Rich in Vitamin A, also B, and C. They have a wide variety of uses in meal plannings, can be eaten raw from gardens, stored in pits or canned. The average family should plant 1½ ounces of seed or 150 feet of row half in the spring, half in the fall. Cover seed only a fraction of an inch.

Seed supplies of carrot are the shortest in history. We have made the year's lowest prices on V.G.B.P., good as long as our supplies last.

012X Berry's Tenderflesh Carrot. A superbly delicious quality vegetable, entirely coreless. A vegetable favorite of all who try it. (Pictured page 50.) Postpaid: Pkt., 15c; V.G.B.P., 29c; oz., 60c; ¼ lb., \$1.75; ½ lb., \$3.25, postpaid. **201 Oxheart.** A short thick variety, best for heavy soil where it can be easily lifted. Roots orange-scarlet, about five inches in length; very heavy yielder. Postpaid: Pkt., 6c; V.G.B.P., 19c; oz., 29c; ¼ lb., 85c; ½ lb., \$1.55; 1 lb., \$2.95. **204 Danvers Half Long.** None better for home gardens or market. Flesh bright orange in color and very tender. Grows six to seven inches long, tapered. Very productive. Postpaid: Pkt., 7c; V.G.B.P., 24c; oz., 32c; ¼ lb., 95c; ½ lb., \$1.75; 1 lb., \$3.25.

205 Chantenay. A fine sort for bunching, market or home gardens. About 6 inches long, stump rooted, deep orange in color. A heavy yielder. Postpaid: Pkt., 8c; V.G.B.P., 24c; oz., 36c; ¼ lb., \$1.05; ½ lb., \$1.95; 1 lb., \$3.75.

212 New Coreless Carrot. The greatest improvement made on any vegetable in years. Fine flavor, tender and sweet. Early, uniform size. Postpaid: Pkt., 9c; V.G.B.P., 27c; oz., 39c; ¼ lb., \$1.15; ½ lb., \$2.10; 1 lb., \$3.95.

STOCK CARROTS

206 Long Orange. Suitable for stock or table use. Roots red-orange, tapered to a point. A good winter keeper. Oz., 30c; ¼ lb., 90c; ½ lb., \$1.70; 1 lb., \$3.15.

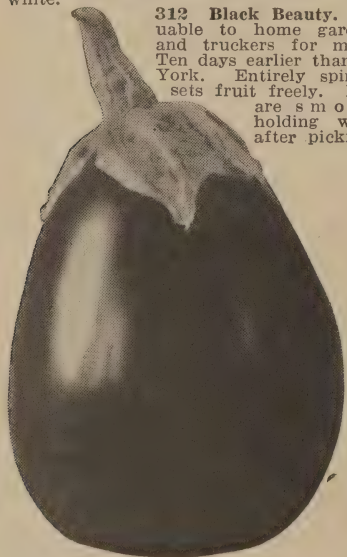

208 Mastodon. Flesh white, crisp, solid, very sweet in flavor. Roots frequently measure 15 to 20 inches in circumference. A heavy yielder. Oz., 15c; ¼ lb., 45c; ½ lb., 85c; 1 lb., \$1.50.

EGGPLANT

These two varieties postpaid: Pkt., 9c; V.G.B.P., 24c; ¼ lb., \$1.50; ½ lb., \$2.50; 1 lb., \$4.50.

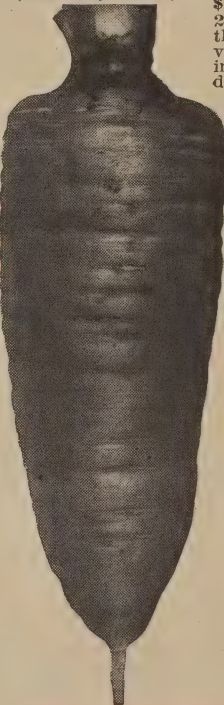

310 Improved New York Purple. Our strain of this leading market variety is unsurpassed. Skin glossy black purple, flesh white.

312 Black Beauty. Valuable to home gardeners and truckers for market. Ten days earlier than New York. Entirely spineless, sets fruit freely. Fruits are smooth, holding well after picking.

New York Purple

New Coreless Carrot
(Seed very scarce)

Victory Garden Bulk Packages are guaranteed to be the year's biggest values. Order at least 3 on carrots.

WHITE HULL-LESS HYBRID POP CORN

New Minhybrid 250 White Hull-less Popcorn is the variety to grow this year. It will give you bigger yields, earlier maturity, better quality and a premium price.

Introduced by Minnesota Experiment Station, records since 1931 show: (1) 16% greater yield than average White Hull-less; (2) 20% greater popping expansion; (3) earlier maturity; (4) it is practically free from smut; and (5) it is in popping condition 30 days earlier than regular White Hull-less.

Last year there was not enough to supply the demand. This year we offer it at these low prices postpaid: V.G.B.P., 20c; 1 lb., 40c; 2 lbs., 75c; 3 lbs., \$1.05.

CUCUMBER

Special Pickling Cucumber. Available in regular size packets only—15c each.

225 Berry's Champion Pickler. The best variety for home gardens. Excellent for slicing and pickling. Fruits dark green in color, uniform in size, straight and smooth. We recommend this variety very highly. Postpaid: Pkt., 15c; V.G.B.P., 24c; ¼ lb., 75c; ½ lb., \$1.35; 1 lb., \$2.50.

226 National Pickling. The finest early pickling type slightly larger than Early Green Cluster. Uniformly smooth and cylindrical with well rounded ends. Flesh thick preventing splitting in the center and hollow sides in the pickles. Size 7x3 inches, 1¼ pounds. Postpaid: Pkt., 8c; V.G.B.P., 13c; oz., 19c; ¼ lb., 59c; ½ lb., \$1.09; 1 lb., \$1.89.

228 Chicago Pickle. One of the most popular pickling varieties; also good for slicing. Mid-season. Fruits medium green, uniform in size.

Postpaid: Pkt., 7c; V.G.B.P., 12c; oz., 18c; ¼ lb., 55c; ½ lb., \$1.05; 1 lb., \$1.80.

230 Early Green Cluster. A fine pickling variety and for early slicing. Very prolific, fruits small, pale green,

borne in bunches. Postpaid: Pkt., 6c; V.G.B.P., 11c; oz., 17c; ¼ lb., 50c; ½ lb., 95c; 1 lb., \$1.75.

231 White Spine Evergreen. Fine for home garden, and widely used for shipping. Dark green, holds color well. Crisp and tender. Postpaid: Pkt., 6c; V.G.B.P., 11c; oz., 17c; ¼ lb., 50c; ½ lb., 95c; 1 lb., \$1.75.

233 Boston Pickler. Very early and prolific; uniform size, slightly tapered, weigh about 1½ lbs. Dark green. Fine for table. Postpaid: Pkt., 7c; V.G.B.P., 12c; oz., 18c; ¼ lb., 55c; ½ lb., \$1.05; 1 lb., \$1.80.

234 Improved White Spine. Vigorous and productive, fruit uniform, seven to nine inches long, very showy. Postpaid: Pkt., 6c; V.G.B.P., 11c; oz., 17c; ¼ lb., 50c; ½ lb., 95c; 1 lb., \$1.75.

239 Straight 8. The highest award winner of the All-America trials in 1935. The best new cucumber. Fruits are of excellent quality, uniform size, dark green color. About 8 inches long, 2 inches wide. Vines vigorous and productive. Ideal for the home garden, local market, or shipping. Postpaid: Pkt., 9c; V.G.B.P., 14c; oz., 21c; ¼ lb., 63c; ½ lb., \$1.15; 1 lb., \$2.00.

236 Improved Long Green. Standard late variety. Splendid for slicing; excellent quality. Fruits dark green, weigh 3 to 3½ lbs., flesh white, firm and crisp. Postpaid: Pkt., 8c; V.G.B.P., 13c; oz., 19c; ¼ lb., 59c; ½ lb., \$1.09; 1 lb., \$1.89.

POP CORN

All varieties postpaid: V.G.B.P., 11c; ½ lb., 15c; 1 lb., 22c; 3 lbs., 60c; 5 lbs., 80c.

301 White Rice. Grains clear white, long and pointed at the top. Pops out large and tender.

303 White Hull-less. Dwarf grower, small ears. Kernels hull-less, snowy white when popped; fine flavor.

304 South American (Dynamite). Kernels yellow, pop to immense size. Stalks grow larger than field corn, with two to three ears on a stalk.

ONION SEED and ONION SETS

NEW CROP—HIGH GERMINATION

High germinating onion seed stocks are the shortest in history. A greatly reduced acreage was planted by growers this year and some crops were total failure due to thrip. There has also been a heavy export trade we normally don't experience.

We are very fortunate in being able to offer you only strictly new crop seed testing high in germination and guaranteed satisfactory. Our prices to you in some cases are lower than we would sell to other seed houses. Stocks are limited though so order at once. Have your own State Laboratory make a germination test for you. Order early while our stocks are still complete.

Yellow Sweet Spanish

Onion is an important vegetable to good health. One ounce will plant 100 feet of row the need of an average family. We suggest raising some onions from seed, plants and sets. Sets are best for early green onions, plants produce the later milder varieties.

432 Southport Red Globe. The finest of the red onions. Uniform in size, handsome, perfect globe type. An excellent keeper. Skin glossy red, flesh white, fine grained and tender. (Pictured at right.) Pkt., 10c; V.G.B.P., 27c; oz., 55c; ¼ lb., \$1.60; ½ lb., \$2.90; 1 lb., \$5.50.

426 Improved Large Red Wethersfield. Bulbs large, well flattened, skin purplish-red, flesh white, tinged with pink, very firm. Keeps well; an excellent commercial variety. Pkt., 10c; V.G.B.P., 27c; oz., 40c; ¼ lb., \$1.25; ½ lb., \$2.25; 1 lb., \$4.25.

431 Woodruff's Early Yellow Globe. 3 weeks earlier than Danvers or Southport Yellow Globe. Very hardy, heavy yielder. Beautiful yellow color. Globe shaped. Best for storage of early types. Pkt., 10c; V.G.B.P., 30c; oz., 55c; ¼ lb., \$1.60; ½ lb., \$2.90; 1 lb., \$5.50.

441 White Portugal. A large onion, skin and flesh white, mild flavored. Excellent for sets, pickling, bunching, and storage. Pkt., 10c; V.G.B.P., 40c; oz., 65c; ¼ lb., \$1.85; ½ lb., \$3.40; 1 lb., \$6.50.

427 Golden Globe or Golden Marvel. Finest yellow globe variety for sets or commercial onions. A ready seller on any market—has eye appeal. Excellent keeper. Postpaid: Pkt., 10c; V.G.B.P., 30c; oz., 45c; ¼ lb., \$1.35; ½ lb., \$2.40; 1 lb., \$4.50.

435 Yellow Globe Danvers. A splendid variety for home gardens and market. Nearly globe shaped with pure yellow skin, white flesh and mild flavor. Most productive with fine keeping qualities. Postpaid: Pkt., 10c; V.G.B.P., 30c; oz., 55c; ¼ lb., \$1.60; ½ lb., \$2.90; 1 lb., \$5.50.

443 Ebenezer. An excellent variety for producing sets of exceptional keeping quality. Matured bulbs will keep in good condition all winter. Flesh white, tender and unusually mild. Postpaid: Pkt., 10c; V.G.B.P., 27c; oz., 45c; ¼ lb., \$1.35; ½ lb., \$2.40; 1 lb., \$4.50.

440 Crystal White Wax. A fine quality white onion of extremely mild flavor. Will grow anywhere, suitable for table use or growing sets. Postpaid: Pkt., 10c; V.G.B.P., 40c; oz., 70c; ¼ lb., \$2.15; ½ lb., \$3.65; 1 lb., \$7.00.

436 Southport Yellow Globe. Grown for commercial purposes. Large, globe shaped, rich yellow color. Flesh white and mild. An excellent keeping onion. (Picture at left.) Postpaid: Pkt., 10c; V.G.B.P., 30c; oz., 55c; ¼ lb., \$1.60; ½ lb., \$2.90; 1 lb., \$5.50.

425 Yellow Sweet Spanish. Most popular variety today. Golden yellow, larger than Prizetaker, flesh white, very mild and of pleasing flavor. Very prolific, excellent for shipping or fall storage. Postpaid: Pkt., 10c; V.G.B.P., 45c; oz., 85c; ¼ lb., \$2.35; ½ lb., \$4.40; 1 lb., \$8.50.

434 White Sweet Spanish. The largest and mildest of all onions. American grown strain. Globular, with golden yellow skin; flesh white, very mild and of good flavor. Postpaid: Pkt., 10c; V.G.B.P., 45c; oz., 85c; ¼ lb., \$2.35; ½ lb., \$4.40; 1 lb., \$8.50.

Southport Yellow Globe

MUSK MELONS

Musk melons are rich in vitamins—an excellent health food. They thrive under varied conditions and soils. Plant in hills six feet apart each way or if in drills have six feet between rows and thin plants to 12 inches in the row. Plant thick and thin out after plants are up. The average family needs at least 1 ounce which will plant 100 hills or drill 200 feet of row.

SALMON FLESHED

402 Berry's Favorite. (Center Picture.) A large size melon with quality equal to any. Early, luscious flavored, finest eating qualities for the home garden. Size about 6 $\frac{3}{4}$ by 7 $\frac{1}{4}$ inches, weighs about 6 $\frac{3}{4}$ pounds. Prominent ribs, good netting. Postpaid: Pkt., 15c; V.G.B.P., 22c; oz., 29c; $\frac{1}{4}$ lb., 85c; $\frac{1}{2}$ lb., \$1.50; 1 lb., \$2.75.

409 Golden Delicious. A popular medium early, large melon. Thick flesh of finest texture and rich flavor. Good netting over a hard rind. Slightly smaller than Berry's "Favorite" and ribs not so prominent. Postpaid: Pkt., 6c; V.G.B.P., 10c; oz., 15c; $\frac{1}{4}$ lb., 45c; $\frac{1}{2}$ lb., 75c; 1 lb., \$1.40.

410 Shumway's Giant. The largest of the pink fleshed melons it is deeply ribbed with a fine netting. Weighs about 10 pounds. Skin turns creamy yellow as it ripens. About 4 days later than Golden Delicious. Postpaid: Pkt., 7c; V.G.B.P., 10c; oz., 16c; $\frac{1}{4}$ lb., 48c; $\frac{1}{2}$ lb., 80c; 1 lb., \$1.45.

418 Osage. (Picture at right.) The finest flavored "Queen" of salmon-fleshed melons. Flesh exceptionally thick, tender and sweet. Fruits distinctly ribbed and netted; weigh around 6 lbs. Postpaid: Pkt., 5c; V.G.B.P., 8c; oz., 12c; $\frac{1}{4}$ lb., 35c; $\frac{1}{2}$ lb., 65c; 1 lb., \$1.25.

411 Sugar or Honey Rock. All-American winner in 1933. Has been most popular for the home garden since. Very early, weighs about 3 pounds, flesh thick and very sweet. Postpaid: Pkt., 6c; V.G.B.P., 9c; oz., 14c; $\frac{1}{4}$ lb., 40c; $\frac{1}{2}$ lb., 70c; 1 lb., \$1.35.

413 Hoodoo (Hearts of Gold). Fruits practically round, weighing about 2 lbs., small seed cavity. Tender, juicy, sweet and delicious. A good shipper. Postpaid: Pkt., 6c; V.G.B.P., 9c; oz., 14c; $\frac{1}{4}$ lb., 40c; $\frac{1}{2}$ lb., 70c; 1 lb., \$1.35.

406 Lake Champlain. Globular shape, weight 3 to 3 $\frac{1}{2}$ lbs. Flesh salmon-orange, sweet, juicy, well flavored. One of the earliest varieties. Pkt., 5c; V.G.B.P., 9c; oz., 15c; $\frac{1}{4}$ lb., 40c; $\frac{1}{2}$ lb., 70c; 1 lb., \$1.35.

420 Hales Best. An early melon with very thick flesh of sweet flavor. A Rocky Ford type, but excelling all others for long distance shipping to markets. Postpaid: Pkt., 5c; V.G.B.P., 8c; oz., 12c; $\frac{1}{4}$ lb., 35c; $\frac{1}{2}$ lb., 65c; 1 lb., \$1.25.

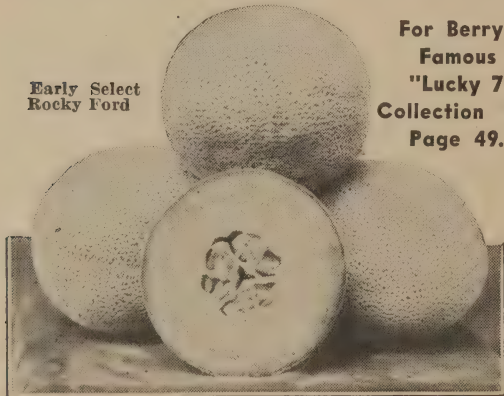

416 Tip Top. Very productive, of fine appearance, showy. Fruits pale green, turning to yellow at maturity; flesh bright salmon, sweet and delicious. Weighs about 8 lbs. Postpaid: Pkt., 5c; V.G.B.P., 8c; oz., 12c; $\frac{1}{4}$ lb., 35c; $\frac{1}{2}$ lb., 65c; 1 lb., \$1.25.

Berry's Favorite
Musk Melon

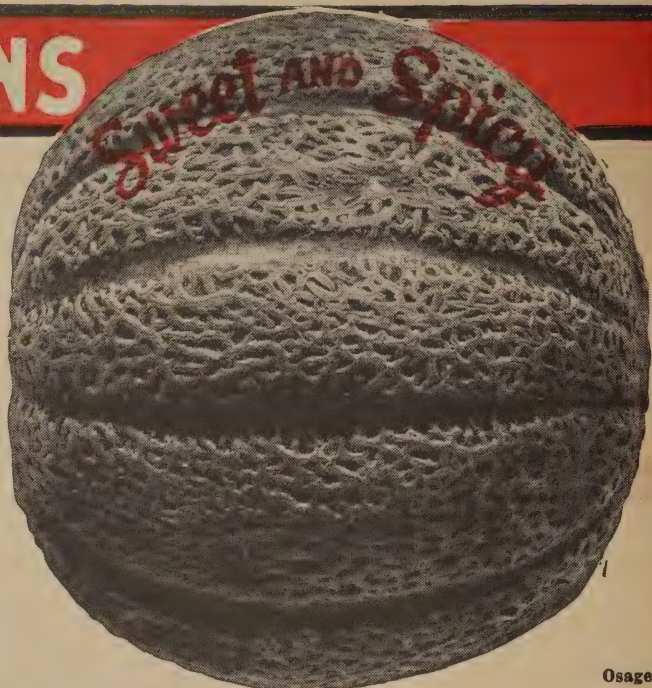

Every family should plant as much musk melon seed as 2 V.G.B.P. to insure enough for their needs.

Osage

GREEN FLESHED

Musk melon seed is short this year. This applies to other vine seed crops in Colorado. We believe you will find we have the year's biggest values on all garden seeds for the Home Victory Garden. We save you \$1.00 on the Victory Garden Collection, page 53, which is adapted for every American gardener.

417 Gold Lined Rocky Ford. In delicious flavor Gold Lined far excels the regular Rocky Ford. It is slightly longer and a few days later. Oval in shape, small seed cavity. Flesh thick and firm. Postpaid: Pkt., 8c; V.G.B.P., 12c; oz., 18c; $\frac{1}{4}$ lb., 55c; $\frac{1}{2}$ lb., \$1.00; 1 lb., \$1.85.

408 Montreal Market. Fruits very large, thick, green meated, delicious and sweet. Often weigh 18 lbs. Almost round, deeply ribbed, well netted. Pkt., 5c; V.G.B.P., 9c; oz., 13c; $\frac{1}{4}$ lb., 40c; $\frac{1}{2}$ lb., 70c; 1 lb., \$1.30.

412 Early Hackensack. A most popular variety for home use

and truck gardening. Fruits large, globular, flattened. Flesh is thick, very sweet and spicy. Postpaid: Pkt., 6c; V.G.B.P., 10c; oz., 15c; $\frac{1}{4}$ lb., 45c; $\frac{1}{2}$ lb., 80c; 1 lb., \$1.50.

405 Early Green Nutmeg. One of the oldest and most popular varieties. Very early and prolific. Fruits weigh about 3 pounds, are heavily ribbed and well netted. Pkt., 7c; V.G.B.P., 11c; oz., 16c; $\frac{1}{4}$ lb., 50c; $\frac{1}{2}$ lb., 90c; 1 lb., \$1.65.

401 Extra Select Rocky Ford. (Picture at left.) Probably the most widely known cantaloupe. Almost round, covered with netting. Green flesh of delicious flavor. Fruits weigh about 2 $\frac{1}{2}$ lbs. Postpaid: Pkt., 5c; V.G.B.P., 8c; oz., 12c; $\frac{1}{4}$ lb., 35c; $\frac{1}{2}$ lb., 65c; 1 lb., \$1.25.

403 Honey Dew. Green fleshed fruits 7" x 8"; skin smooth, hard, and creamy white; flesh very thick, sweet, juicy, and distinctly flavored. A good keeper. Pkt., 5c; V.G.B.P., 9c; oz., 15c; $\frac{1}{4}$ lb., 40c; $\frac{1}{2}$ lb., 70c; 1 lb., \$1.35.

MUSTARD

Postpaid prices on all 4 varieties: Pkt. 5c; V.G.B.P., 8c; oz., 12c; 2 oz., 18c; $\frac{1}{4}$ lb., 35c; $\frac{1}{2}$ lb., 60c; 1 lb., \$1.00.

710 Chinese Curled. The best known and most popular for greens. Large leaves. Ready for use in 6 weeks after sowing.

713 Southern Giant Curled. The most popular sort for greens. Leaves long and wide, light green, heavily crumpled and curled at the edges.

711 Large Smooth Leaved. Large broad oval leaves of deep green color with a white rib. A vigorous variety.

580 Mustard Spinach. A quick grower, resistant to heat and drought. Used for greens, combines flavor of both mustard and spinach.

Superbly Flavored

WATER MELONS

Berry's Improved Kleckley Sweet

Plant in hills about 8 feet apart each way. One V.G.B.P. will plant about 15 hills. The average family if space permits should plant twice that much. Don't disturb the vines after they start to run. Don't plant until ground is warm and cover only about 1 inch. Because of long growing season required in northern states plant only early varieties.

WHITE SEEDED

368 Berry's Improved Kleckley Sweet. Finest melon for home and market gardens. An improved type of the old popular strain; larger and wilt-resistant. Medium early, dark green skin, with bright red flesh very tender and melting. **Postpaid: Pkt., 5c; V.G.B.P., 7c; oz., 9c; ¼ lb., 27c; ½ lb., 49c; 1 lb., 89c.**

153X Berry's Mammoth Melting Sugar. Very early for such a large melon. Sweetest, most delicate flavor of any. (Pictured page 52.) **Postpaid: Pkt., 15c; V.G.B.P., 20c; ¼ lb., 75c; ½ lb., \$1.35; 1 lb., \$2.25.**

370 Georgia Rattlesnake. A large long melon, striped light and dark green. Rind rather thick; flesh red, of good quality. Very prolific and drought resistant. **Postpaid: Pkt., 6c; V.G.B.P., 8c; oz., 12c; ¼ lb., 35c; ½ lb., 65c; 1 lb., \$1.10.**

374 Dixie Queen. A recent introduction of finest quality. Early, it attains an average size of 15x12½ inches, weight 32 pounds. Color light green striped with darker green. Flesh dark pink with very few seeds—white. Deliciously flavored. **Postpaid: Pkt., 7c; V.G.B.P., 10c; oz., 15c; ¼ lb., 45c; ½ lb., 75c; 1 lb., \$1.35.**

375 Mixed. Finest for the boy's melon patch. Old favorite varieties—something to please everybody. 20c for ¼ lb. will pay big returns. Will plant 120 hills of about 30 varieties. **Postpaid: Pkt., 4c; V.G.B.P., 6c; oz., 8c; ¼ lb., 25c; ½ lb., 45c; 1 lb., 75c.**

BLACK SEEDED

357 Harris Earliest. Extra early, ready to pick in about 80 days, melons weigh about 20 pounds. Very red, firm flesh, of most delicious flavor. Fruits round, dark green striped with light green. **Postpaid: Pkt., 6c; V.G.B.P., 8c; oz., 12c; ¼ lb., 35c; ½ lb., 65c; 1 lb., \$1.10.**

358 Sweetheart. Vines vigorous and productive. Fruits large, oval. Rind thin, flesh bright red, firm, sweet and tender. A very fine shipper. **Postpaid: Pkt., 5c; V.G.B.P., 7c; oz., 9c; ¼ lb., 27c; ½ lb., 49c; 1 lb., 89c.**

371 Berry's New Winter. A melon of finest quality that will keep until Christmas. Nearly round, pale yellow. Flesh is bright red and sweet as honey. **Postpaid: Pkt., 8c; V.G.B.P., 11c; oz., 16c; ¼ lb., 50c; ½ lb., 90c; 1 lb., \$1.65.**

376 Early Kansas Red Seeded. A remarkably early melon for its large size. Finest quality, flesh rich red of delightful flavor. **Postpaid: Pkt., 7c; V.G.B.P., 10c; oz., 14c; ¼ lb., 40c; ½ lb., 70c; 1 lb., \$1.25.**

379 Early Northern Sweet. A new fine first early variety for home gardens. From Minnesota it is nearly round. Color green, flesh of best quality, dark pink in color. Seeds light brown. **Postpaid: Pkt., 6c; V.G.B.P., 9c; oz., 12c; ¼ lb., 40c; ½ lb., 70c; 1 lb., \$1.25.**

No. 613 2 collections, each variety (Value 52c)...35c

Halbert's Honey

352 Halbert's Honey. One of the best for home and local markets; not a good shipper. Color dark green. Thin rind, rich red sugary flesh of fine texture. **Postpaid: Pkt., 5c; V.G.B.P., 8c; oz., 10c; ¼ lb., 30c; ½ lb., 55c; 1 lb., 95c.**

356 New Irish Grey. Large, long grey melon of excellent quality. Rich red flesh of good texture. Rind thin but very tough. Good shipper. **Postpaid: Pkt., 6c; V.G.B.P., 9c; oz., 12c; ¼ lb., 40c; ½ lb., 70c; 1 lb., \$1.25.**

360 Tom Watson. Very popular shipping melon of the long type. Early; keeps well. Flesh bright red, of excellent flavor. **Postpaid: Pkt., 5c; V.G.B.P., 7c; oz., 9c; ¼ lb., 27c; ½ lb., 49c; 1 lb., 89c.**

369 Golden Honey. Dark green, medium sized, long oval shape. Cream colored flesh which is very tender and delicious. **Pkt., 7c; V.G.B.P., 9c; oz., 12c; ¼ lb., 40c; ½ lb., 70c; 1 lb., \$1.25.**

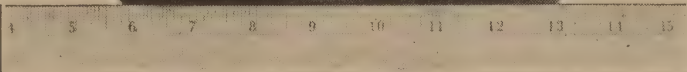

372 Phinney's Early. Small, long type, light and dark green striped. An early melon. Very prolific. Flesh pinkish red. **Pkt., 6c; V.G.B.P., 8c; oz., 10c; ¼ lb., 30c; ½ lb., 55c; 1 lb., 95c.**

377 Stone Mountain. Light veined with dark green. Fruits round, weigh about 45 lbs. Flesh rich red of fine texture, tender, sweet, luscious. (See picture at right.) Wilt-resistant. **Postpaid: Pkt., 6c; V.G.B.P., 9c; oz., 12c; ¼ lb., 40c; ½ lb., 70c; 1 lb., \$1.25.**

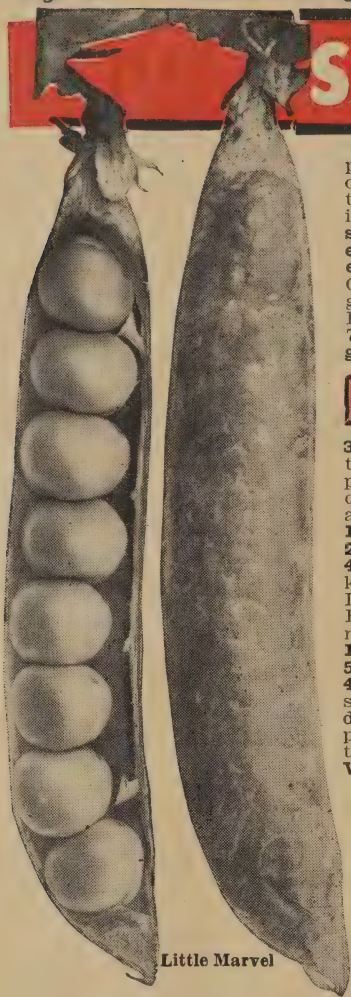

Berry's "Sweet As Honey" Melons

Just enough seed in our best varieties to insure favorite melons over a longer season. Plant all at same time. 1 V.G.B.P. Golden Honey, Dixie Queen and Berry's Improved Kleckley Sweet—regular price 27c—No. 610—only 19c, postpaid.

**Stone
Mountain**

SAVORY GARDEN PEAS

Little Marvel

The average family needs to plant in pounds more Peas than Beans. They are one of the most delicately flavored of all vegetables being rich in Vitamins A, B, C, and iron. Excellent for home canning. **You should plant at least 2 pounds of early varieties, 3 pounds of later types and ½ pound of edible pod** such as White Marrowfat, Dwarf Grey Sugar or Mammoth Melting Sugar. To get what you need and save money order our Home Garden Collection this page or "Lucky 7" page 49. **Nothing smaller than V.G.B.P.** gives you enough seed for planting.

EXTRA EARLY VARIETIES

364X Berry's Supreme Wonder Pea. (Pictured page 50.) A variety you will want to plant several times during the spring. Finest quality for eating fresh or canning, most abundant yielder. **Postpaid: V.G.B.P., 15c; ½ lb., 27c; 1 lb., 45c; 2 lbs., 80c.**

451 New Laxtonian. (1½ ft.) The best known of the early dwarf, large podded sorts. Large telephone like pods of finest quality. Requires no support, making it one of the most popular varieties. (Pictured below.) **Postpaid: V.G.B.P., 19c; 1 lb., 29c; 3 lbs., 79c; 5 lbs., \$1.19.**

478 Laxton's Progress. An excellent and standard dwarf early variety for home gardens. Bears heavily, producing straight, plump deep green pods. Each pod contains 8 to 10 large sweet deep green peas. **Postpaid: V.G.B.P., 18c; 1 lb., 28c; 3 lbs., 77c; 5 lbs., \$1.15.**

460 Thomas Laxton. (2½ ft.) A great favorite of home and market gardeners. Pods single, plump and square ended, containing 7 to 8 large tender peas of good quality. **Postpaid: V.G.B.P., 19c; 1 lb., 29c; 3 lbs., 79c; 5 lbs., \$1.19.**

459 Berry's American Wonder. (1 ft.) Vines bear in greatest abundance. Pods large, containing 5 to 8 delicious peas. Very early. **Postpaid: V.G.B.P., 15c; 1 lb., 23c; 3 lbs., 63c; 5 lbs., \$1.00.**

456 McLeans Little Gem. A pea that always gives entire satisfaction. Very early but has the fine sugary flavor of later

sorts. Pods 2½ to 3 inches long, round and filled with peas of delicious flavor. **Postpaid: V.G.B.P., 16c; 1 lb., 25c; 3 lbs., 69c; 5 lbs., \$1.10.**

455 Early Alaska. Smooth seeded and earliest of all. Hardy, vigorous grower maturing well filled pods of finest quality. Ideal for first markets and home gardens. **Postpaid: V.G.B.P., 14c; 1 lb., 21c; 3 lbs., 60c; 5 lbs., 90c.**

457 First and Best. Favorite home garden variety for early crop. Very hardy and abundant yielder. Yellow seeded peas 6 to 8 to a pod. **Postpaid: V.G.B.P., 14c; 1 lb., 21c; 3 lbs., 60c; 5 lbs., 95c.**

An all-season collection of varieties chosen for best yields and finest quality. We want everyone to order these 4 varieties in the quantity they need at our special low prices.

Early Alaska. Earliest of all. Smooth seeded. 56 days.

Little Marvel. Finest early dwarf wrinkled pea. 62 days.

Berry's Everbearing. Fine, prolific, mid-season. 70 days.

Fillbasket. Superior late variety (Pole). 75 days.

620 1—V.G.B.P. above 4 varieties—49c.

Regular catalog price 66c—you save 17c.

621 1 lb. above 4 varieties—4 lbs. Postpaid, 79c.

Regular catalog price \$1.06—You save 27c.

MID-SEASON VARIETIES

471 Telephone. (4 ft.) A standard variety of high quality, excellent for home and market garden and shipping. Pods filled with peas of fine flavor. (Wrinkled.) **Postpaid: V.G.B.P., 18c; 1 lb., 29c; 3 lbs., 80c; 5 lbs., \$1.20.**

477 Dwarf Telephone. (22 in.) Vines light green, stocky and productive. Pods large, filled with 8 to 10 wrinkled peas of excellent quality. Excellent for home gardens, truckers and shipping. Picture next page. (Wrinkled.) **Postpaid: V.G.B.P., 15c; 1 lb., 23c; 3 lbs., 63c; 5 lbs., \$1.00.**

476 Dwarf Grey Sugar. (2-2½ ft.) An edible podded variety; sweet, tender and delicious. Very productive; resistant to Fusarium wilt. (Smooth seeded.) **Postpaid: V.G.B.P., 16c; 1 lb., 25c; 3 lbs., 69c; 5 lbs., \$1.10.**

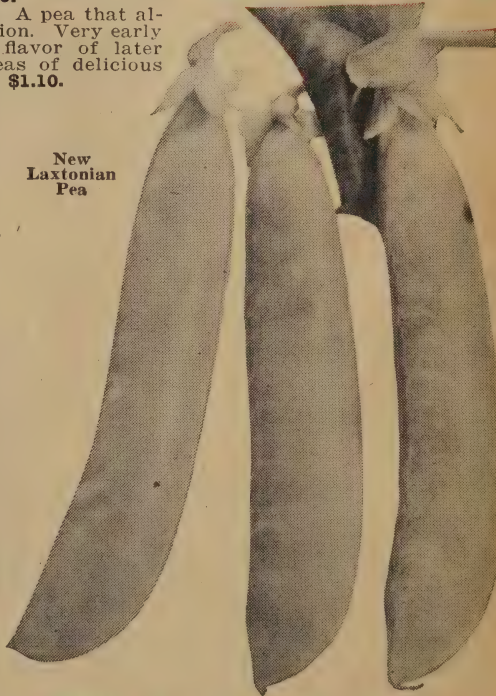

Pea Culture

Plant as early as anything in garden—light freezing does not hurt Peas. In the South plant two crops—early spring and fall; in the north make successive plantings about one week apart. Peas will grow on poorer soils than most crops. Smooth varieties are hardest, wrinkled varieties of finest quality. Plant about 1 inch apart, 3 inches deep. 1 pound will drill 50 feet of row. You can double row peas about 8 inches apart spacing between double rows about 36 inches.

SPECIALS

463 Little Marvel. (18 in.) Home gardener's favorite. Exceptional in quality and yield. Pods well filled with tender peas. Extra early. **Postpaid: V.G.B.P., 17c; 1 lb., 29c; 3 lbs., 75c; 5 lbs., \$1.20. Not prepaid: 10 lbs., \$1.75.**

468 Berry's Everbearing. A prolific and continuous bearing variety. Pods 3 to 4 inches long containing 6 to 8 large wrinkled peas of superior flavor. The best main crop or mid-season variety. **Postpaid: V.G.B.P., 18c; 1 lb., 29c; 3 lbs., 80c; 5 lbs., \$1.20.**

New
Laxtonian
Pea

Planting a big garden will aid us to quicker Victory, and save you up to \$200 on food costs. See pages 48 and 53 for details.

LETTUCE CRISP, HEALTHFUL AND DELICIOUS ALL THE TIME

Lettuce is a favorite vegetable because of its varied uses and vitamin and mineral content. You should plant early in spring as well as fall both leaf and head varieties. Head lettuce requires the cooler season and for large heads thin out to six inches apart. The approved Victory Garden Package for every American farm garden listed pages 49 and 53 contains 1 ounce. We suggest you order 2 V.G.B.P. of leaf varieties and 1 of Head Lettuce or 2 regular size packets. One V.G.B.P. plants 100 foot of row.

Heading Varieties

331 Crisp as Ice. Attractive bronze, glassy leaves. Heads solid, medium sized, well blanched and of delicate flavor. Popular for the home garden. Postpaid: Pkt., 5c; V.G.B.P., 9c; oz., 13c; ¼ lb., 40c; ½ lb., 70c; 1 lb., \$1.25.

332 Improved Hanson. Unsurpassed for home and market garden use. Heads large and compact, tender and sweet, light yellow-green color. Postpaid: Pkt., 5c; V.G.B.P., 8c; oz., 12c; ¼ lb., 35c; ½ lb., 60c; 1 lb., \$1.10.

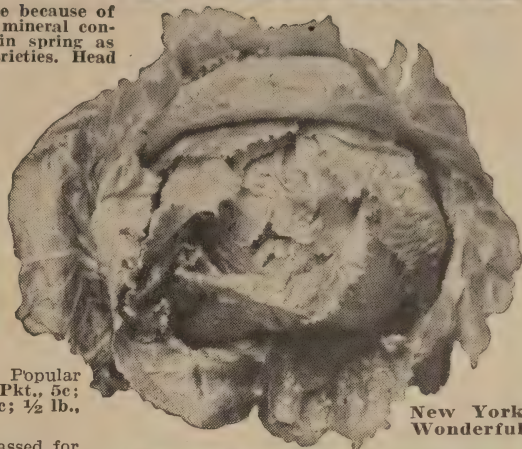

333 Selected Big Boston. A very popular variety for forcing; splendid shipper. Very solid heads, extremely tender. Leaves tinged with brown, heart light golden yellow. Postpaid: Pkt., 5c; V.G.B.P., 9c; oz., 13c; ¼ lb., 40c; ½ lb., 70c; 1 lb., \$1.25.

334—California Cream Butter. A fine early heading variety. The solid heads are a rich golden yellow with a most agreeable and delicate buttery flavor. A good shipper and ready seller on the market. Postpaid: Pkt., 5c; V.G.B.P., 10c; oz., 15c; ¼ lb., 45c; ½ lb., 80c; 1 lb., \$1.45.

336—Iceberg. A large late variety. Conical shaped heads, of medium size, crisp and sweet, white interior. Outer leaves light green tinged with brown, crinkled. Postpaid: Pkt., 5c; V.G.B.P., 9c; oz., 13c; ¼ lb., 40c; ½ lb., 70c; 1 lb., \$1.25.

335 Berry's Bountiful. Grows beautiful compact heads, weighing 2 to 3 lbs. Exceedingly tender, creamy flavor. A splendid variety for shipping. None excels. Postpaid: Pkt., 9c; V.G.B.P., 13c; oz., 20c; ¼ lb., 60c; ½ lb., \$1.00; 1 lb., \$1.75.

337 New York Wonderful. The outstanding shipping variety. Leaves dull green, heads large and solid, crisp and of excellent quality, fine flavor. (Pictured above.) Postpaid: Pkt., 8c; V.G.B.P., 12c; oz., 18c; ¼ lb., 55c; ½ lb., 90c; 1 lb., \$1.60.

New York
Wonderful

LOOSE LEAF VARIETIES

326 Black Seeded Simpson. A popular variety, leaves large, light green in color. Best for forcing. Tender. Postpaid: Pkt., 5c; V.G.B.P., 7c; oz., 11c; ¼ lb., 30c; ½ lb., 50c; 1 lb., 90c.

327 Early Curled Simpson. One of the most widely used for home gardens. Very early, non-heading, of excellent flavor. Postpaid: Pkt., 5c; V.G.B.P., 7c; oz., 11c; ¼ lb., 30c; ½ lb., 50c; 1 lb., 90c.

328 Grand Rapids. Excellent for early planting outside, and for forcing. Superior quality, beautiful appearance, leaves light green, heavily fringed. (Picture below.) Postpaid: Pkt., 5c; V.G.B.P., 9c; oz., 13c; ¼ lb., 40c; ½ lb., 70c; 1 lb., \$1.25.

329 Early Prizehead. An early non-heading variety. Remains tender and crisp. Leaves medium green, light brown edges. Postpaid: Pkt., 5c; V.G.B.P., 8c; oz., 12c; ¼ lb., 35c; ½ lb., 60c; 1 lb., \$1.10.

No. 631—Regular catalog price 23c.
Special offer—only **15c**

- 1 V.G.B.P. Early Curled Simpson
- 1 V.G.B.P. Grand Rapids
- 1 V.G.B.P. Improved Hanson Head

ENDIVE

315 New Moss Curled. Very fine variety, with fine curled leaves. One of the best. Desirable for salads. Postpaid: Pkt., 5c; V.G.B.P., 8c; oz., 12c; ¼ lb., 35c; ½ lb., 60c; 1 lb., \$1.10.

317 Broad Leaved Batavian. Large broad leaves, partially curled, compact head, blanches easily. Handsome in appearance, fine in flavor. Postpaid: Pkt., 5c; V.G.B.P., 8c; oz., 12c; ¼ lb., 35c; ½ lb., 60c; 1 lb., \$1.10.

Fillbasket
Peas

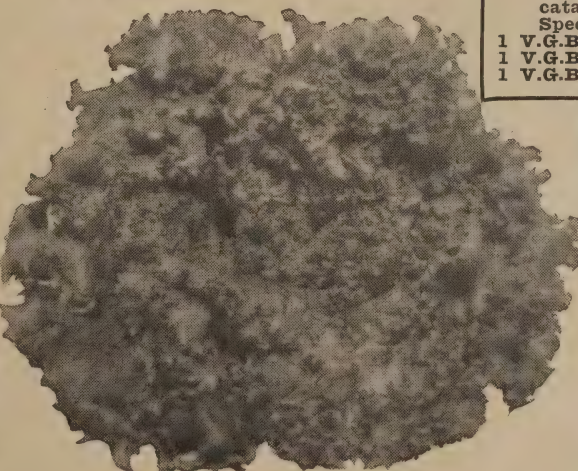

PEAS—LATE VARIETIES

465 Fillbasket or Potlatch. (26 in.) A superior late variety for home and market. Peas tender, fine flavored. Postpaid: V.G.B.P., 17c; 1 lb., 29c; 3 lbs., 80c; 5 lbs., \$1.20.

473 Improved Stratagem. A favorite with home gardeners because of its large, handsome pods. Very productive. Pods long, well filled with large peas of delicious flavor. Postpaid: V.G.B.P., 18c; 1 lb., 29c; 3 lbs., 80c; 5 lbs., \$1.20.

474 White Eyed Marrowfat. (5 ft.) Vines hardy and productive. Pods large, peas of fair quality. Grown extensively for dry use. Postpaid: V.G.B.P., 15c; 1 lb., 23c; 3 lbs., 63c; 5 lbs., \$1.00.

475 Mammoth Melting Sugar. (4-5 ft.) The best of the edible podded sorts for home and market garden use, wilt resistant. Very tender and richly flavored. Postpaid: V.G.B.P., 19c; 1 lb., 31c; 3 lbs., 87c; 5 lbs., \$1.35.

Grand Rapids Lettuce

LARGER YIELDS·BETTER QUALITY

2 V.G.B.P. of Pumpkin is enough for average needs. They will plant 30 hills in between the Corn or will drill 100 feet of row. Plant shallow when ground is quite warm. On peppers we recommend 2 V.G.B.P. for average family needs. Plant the same as Tomato. See page 51.

PUMPKIN

481 Mammoth Prize. The largest of all Pumpkins. Valuable for stock feeding, but is also fine for pies. Flesh is thick of a beautiful bright yellow, fine grained, solid and tender. **Postpaid: Pkt., 5c; V.G.B.P., 8c; oz., 10c; ¼ lb., 30c; ½ lb., 50c; 1 lb., 90c.**

483 Sweet, or Sugar Pie. Standard variety for pies. Flesh thick, dry and sweet, orange-yellow, and of superior quality. Fruits weigh 6 to 8 lbs., keep well. Will make pies that will melt in your mouth. **Postpaid: Pkt., 5c; V.G.B.P., 7c; oz., 9c; ¼ lb., 25c; ½ lb., 40c; 1 lb., 70c.**

485 Kentucky Field. Used largely for canning. Grow large, flat, weigh 10 to 15 lbs. Flesh deep yellow, coarse, thick and nutritious, and of good flavor. Also used for stock feeding. **Postpaid: Pkt., 5c; V.G.B.P., 6c; oz., 8c; ¼ lb., 24c; ½ lb., 39c; 1 lb., 65c.**

486 Connecticut Field. (Picture below.) The standard cornfield pumpkin. Fruits grow large, weigh 15 to 25 lbs. Smooth, hard, orange-red skin; flesh orange-yellow, thick, coarse, and sweet. Fine for pies, canning, or feeding to stock. **Postpaid: Pkt., 5c; V.G.B.P., 7c; oz., 9c; ¼ lb., 25c; ½ lb., 40c; 1 lb., 70c.**

484 Cushaw or Crookneck. Very popular variety. Very large, often 2 ft. long, crookneck shape. Creamy white shell; flesh yellow, solid, sweet. Excellent for pies; used also for stock feeding. **Postpaid: Pkt., 5c; V.G.B.P., 7c; oz., 9c; ¼ lb., 30c; ½ lb., 50c; 1 lb., 90c.**

487 Green Striped Cushaw. Cream with dark green stripe. 16-20" long, weight 12-16 lbs. Yellow Flesh. **Postpaid: Pkt., 5c; V.G.B.P., 7c; oz., 9c; ¼ lb., 30c; ½ lb., 50c; 1 lb., 90c.**

489 Mixed. A combination filling all practical purposes: for pies, local markets and stock feed. The boys will find just the right size for Hallowe'en too. **Postpaid: Pkt., 4c; V.G.B.P., 6c; oz., 8c; ¼ lb., 20c; ½ lb., 35c; 1 lb., 60c.**

Connecticut Field Pumpkin

PEANUTS

Should be shelled before planting. Plant in rows 2½ to 3 ft. apart, 10 inches apart in the row. Cover one to two inches. A sandy soil is best.

621 New Mammoth Virginia. Of upright growth. Large pods and kernels. Always yield less imperfect pods than any other variety. Vines good for stock. **Postpaid prices: ¼ lb., 12c; ½ lb., 17c; 1 lb., 30c; 5 lbs., \$1.35.**

PEPPERS

Ruby King Pepper

510 Sweet Mountain.

Plants very productive, growing upright, about 2 ft. tall. Fruits large, smooth, handsome. Green turning to rich red, when ripe. **Postpaid: Pkt., 6c; V.G.B.P., 12c; oz., 18c; ¼ lb., 60c; 1 lb., \$2.00.**

511 Large Bell or Bull Nose.

Plants small, erect, prolific, early. Large fruits bell shaped, deep green turning to scarlet, mild and sweet in flavor. **Postpaid: Pkt., 7c; V.G.B.P., 13c; oz., 20c; ¼ lb., 65c; 1 lb., \$2.15.**

515 Ruby King.

Excellent for home and market garden and shipping. Plants medium dwarf, erect, productive. Fruits dark green turning to ruby red. Flesh thick, mild and sweet. Used for mangoes. **Postpaid: Pkt., 7c; V.G.B.P., 13c; oz., 20c; ¼ lb., 65c; 1 lb., \$2.15.**

517 Pimiento.

A good canning variety. Fruits heart shaped and very smooth; color dark green changing to crimson. Flesh thick, sweet and mild. **Postpaid: Pkt., 6c; V.G.B.P., 12c; oz., 18c; ¼ lb., 60c; 1 lb., \$2.00.**

512 Cayenne.

A favorite hot variety used largely for canning, pickles, and drying. Plants large and productive. Fruits long, tapering; deep green changing to brilliant red. **Postpaid: Pkt., 5c; V.G.B.P., 11c; oz., 17c; ¼ lb., 55c; 1 lb., \$1.75.**

519 Chili.

Used for canning and drying. Fruits long and tapering, deep green changing to bright scarlet; extremely hot. **Postpaid: Pkt., 5c; V.G.B.P., 11c; oz., 17c; ¼ lb., 55c; 1 lb., \$1.75.**

518 California Wonder.

One of the finest mild sweet flavored peppers, with thicker flesh than other varieties. Upright, prolific, vigorous grower. Very attractive, smooth, uniform and deep green. Excellent for shipping, home or market gardening. **Postpaid: Pkt., 8c; V.G.B.P., 16c; oz., 25c; ¼ lb., 85c; 1 lb., \$2.75.**

516 King of the North.

A sweet pepper like Ruby King but earlier. 65-70 days from time of setting out until fruit is ready to use. Plants 22-26" tall, erect, very heavy yielding, and hardy. **Postpaid: Pkt., 8c; V.G.B.P., 16c; oz., 25c; ¼ lb., 85c; 1 lb., \$2.75.**

520 Harris Early Giant.

Fruit 3-3½" in diameter, 4-4½" long. Thick sweet flesh, dark green turning to bright scarlet. **Postpaid: Pkt., 9c; V.G.B.P., 19c; oz., 29c; ¼ lb., 90c; 1 lb., \$3.25.**

PARSNIPS and PARSLEY

Postpaid prices on all varieties: Pkt., 6c; V.G.B.P., 12c; oz., 18c; ¼ lb., 55c; ½ lb., 95c; 1 lb., \$1.65.

502 Improved Hollow Crown Parsnip.

Roots long, white and smooth; hollow crowned. Tender and of excellent flavor. Keeps well.

503 Improved Guernsey Parsnip.

Roots white, uniformly tapered. Extra thick crown. Flavor delicious.

495 Champion Moss Curled Parsley.

Very compact plant, with very dark green leaves. Used for garnishing.

RHUBARB or Pie Plant

For Roots (See page 76)

Postpaid prices either variety: Pkt., 5c; V.G.B.P., 12c; oz., 20c; ¼ lb., 60c; ½ lb., \$1.00; 1 lb., \$1.75.
626 Victoria. A splendid variety for family use. Sometimes called "wine-plant."
627 Mammoth. Market garden variety, very large and a wonderful producer.

Hollow Crown Parsnip

ALL TESTED AND GUARANTEED SEED

RADISHES

Radish can be planted several times at intervals in early spring and again in the fall. Plant several different varieties. One V.G.B.P. will drill 50 feet of row. Plant $\frac{1}{2}$ inch deep, 1 inch apart in row.

526 Crimson Giant. The largest of early radishes. Suitable for early forcing or planting out-of-doors. It is always crisp, tender and of fine flavor. Never gets pithy. Postpaid: Pkt., 5c; V.G.B.P., 8c; oz., 11c; $\frac{1}{4}$ lb., 35c; $\frac{1}{2}$ lb., 60c; 1 lb., \$1.00.

528 Early Scarlet Turnip. An early maturing variety. Roots small, round, skin red. Flesh very white, mild and crisp. Postpaid: Pkt., 5c; V.G.B.P., 8c; oz., 10c; $\frac{1}{4}$ lb., 30c; $\frac{1}{2}$ lb., 55c; 1 lb., 90c.

530 Early White Turnip. The earliest white radish. Flesh pure white, crisp and tender. Has a short top and is a quick grower. Postpaid: Pkt., 5c; V.G.B.P., 8c; oz., 11c; $\frac{1}{4}$ lb., 35c; $\frac{1}{2}$ lb., 60c; 1 lb., \$1.00.

532 White Strasburg. A variety popular with market gardeners. Roots about five inches long, thick at the shoulder, tapering to a point. Crisp and tender. Postpaid: Pkt., 5c; V.G.B.P., 8c; oz., 10c; $\frac{1}{4}$ lb., 30c; $\frac{1}{2}$ lb., 55c; 1 lb., 90c.

533 French Breakfast. One of the most popular varieties, excellent for home garden, forcing or early outdoor planting. Excels in appearance and quality. Medium sized, olive-shaped. Scarlet with a white tip. Flesh white, crisp and delicious. Postpaid: Pkt., 5c; V.G.B.P., 8c; oz., 11c; $\frac{1}{4}$ lb., 35c; $\frac{1}{2}$ lb., 60c; 1 lb., \$1.00.

535 Early Scarlet Turnip, White Tipped. A favorite for early outdoor planting. Fine in quality and appearance. Roots nearly round, carmine red, white tipped, crisp and mild. Postpaid: Pkt., 5c; V.G.B.P., 7c; oz., 10c; $\frac{1}{4}$ lb., 30c; $\frac{1}{2}$ lb., 50c; 1 lb., 85c.

Icele Radish is extra select. One of the best forcing varieties. Roots bright scarlet, globular, crisp, tender and of fine quality. Postpaid: Pkt., 5c; V.G.B.P., 8c; oz., 10c; $\frac{1}{4}$ lb., 30c; $\frac{1}{2}$ lb., 55c; 1 lb., 90c.

541 Icele. The most popular white radish. Grow long and slender, free from side roots. Flesh clear white, brittle, mild flavored. Postpaid: Pkt., 5c; V.G.B.P., 7c; oz. 9c; $\frac{1}{4}$ lb., 27c; $\frac{1}{2}$ lb., 47c; 1 lb., 80c.

525 Sparkler. Resembles Scarlet Turnip White Tip, but more white and somewhat flattened on lower side. Very solid, crisp, tender and sweet flavored. Has short tops and does not become pithy when ready for table use. Excellent for the home garden. Postpaid: Pkt., 5c; V.G.B.P., 7c; oz., 9c; $\frac{1}{4}$ lb., 27c; $\frac{1}{2}$ lb., 47c; 1 lb., 80c.

540 Mixed. We offer an excellent assortment of the best varieties of radishes, early, medium and late. Postpaid: Pkt., 4c; V.G.B.P., 6c; oz., 8c; $\frac{1}{4}$ lb., 25c; $\frac{1}{2}$ lb., 45c; 1 lb., 75c.

725X Berry's Beat-em-all. (Illustrated page 52.) The crisp, snappy radish we all like. Extra early—ready to eat in 15 to 18 days after planting. Sparkling red top with dainty white tip. A most superior quality radish for home gardens. Postpaid: Pkt., 15c; V.G.B.P., 20c; $\frac{1}{4}$ lb., 75c; $\frac{1}{2}$ lb., \$1.35; 1 lb., \$2.25.

3 DELICIOUS SNAPPY RADISHES

The 3 best radishes for the home garden. Extra early, tender, snappy, delicious. Each one a superior variety. No. 650—35c value—only 20c, postpaid.

- 1 V.G.B.P. Berry's Beat-em-all
- 1 V.G.B.P. Crimson Giant
- 1 V.G.B.P. White Icele

WINTER RADISHES

542 Chinese Rose. A winter radish; bright rose-red in color; flesh white, very firm. Keeps a long time when stored in sand. Postpaid: Pkt., 6c; V.G.B.P., 8c; oz., 11c; $\frac{1}{4}$ lb., 35c; $\frac{1}{2}$ lb., 60c; 1 lb., \$1.00.

Early Scarlet
Turnip White
Tipped Radish

The average family should plant at least 3 V.G.B.P. of Radish. This amount is found in the Approved Home War Garden, page 53.

Roots white, flesh sweet and tender. Postpaid: Pkt., 6c; V.G.B.P., 8c; oz., 12c; $\frac{1}{4}$ lb., 35c; $\frac{1}{2}$ lb., 55c; 1 lb., \$1.25.

612 Rutabaga Improved Purple Top Yellow. A dependable variety. Roots large, round, yellow with purple top; flesh light yellow, firm, sweet and tender. Postpaid: Pkt., 6c; V.G.B.P., 9c; oz., 15c; $\frac{1}{4}$ lb. 45c; 1 lb., \$1.25.

HERBS

Herbs have been previously imported. Growers are now trying to produce them in this country but on many crops this past year seed production was a complete failure. As long as available stocks last we can furnish packets.

683 Caraway. Seeds used for flavoring bread, pastry, meats and sauces. Postpaid: Pkt., 10c.

685 Dill. Leaves are used in pickles and flavoring soups and sauces. Postpaid: Pkt., 5c; V.G.B.P., 15c; oz., 25c; $\frac{1}{4}$ lb., 75c; 1 lb., \$2.50.

687 Sage. Leaves and tops used for seasoning and stuffing. Postpaid: Pkt., 10c.

693 Sweet Marjoram. Used for seasoning soups, sauces, etc. Can be used either fresh or dried. Postpaid: Pkt., 10c.

Purple
Top
White
Globe
Turnip

TURNIPS

Turnips are excellent for greens and keep well in pit storage. They should be planted both in early spring and fall. 1 V.G.B.P. will plant 50 feet of row. Drill seed about 2 inches apart—cover very lightly.

601 Purple Top Strap Leaf. Fine for table use or stock feeding; one of the most widely planted varieties. Tops medium small, roots four to six inches across, flat. Purple-red at the top; flesh white, fine grained and tender. Postpaid: Pkt., 5c; V.G.B.P., 7c; oz., 9c; $\frac{1}{4}$ lb., 25c; 1 lb., 60c; 5 lbs., \$2.50.

602 New White Egg. Fine for market gardeners. Roots egg-shaped, smooth. Skin is thin. Flesh is white, fine grained, cooks mealy and tender. Best quality. Postpaid: Pkt., 6c; V.G.B.P., 8c; oz., 12c; $\frac{1}{4}$ lb., 35c; 1 lb., 85c; 5 lbs., \$3.75.

605 Large White Globe. A very productive type. Large, globe-shaped, skin white and smooth. Valuable for home garden and market. Postpaid: Pkt., 5c; V.G.B.P., 8c; oz., 11c; $\frac{1}{4}$ lb., 30c; 1 lb., 75c; 5 lbs., \$3.25.

607 Purple Top White Globe. (Picture above.) Unsurpassed for home planting or truck gardening. Attractive in appearance, fine in quality. Roots large, globe shaped, lower portion white, upper-part purple-red. Flesh is of fine flavor, white, crisp and fine grained. Postpaid: Pkt., 5c; V.G.B.P., 7c; oz., 9c; $\frac{1}{4}$ lb., 25c; 1 lb., 60c; 5 lbs., \$2.50.

609 Cowhorn. Grown largely for stock feeding. Roots 12 to 15 inches long, tapering, often crooked. Flesh tender and mild flavored. A good keeper. Postpaid: Pkt., 7c; V.G.B.P., 10c; oz., 13c; $\frac{1}{4}$ lb., 40c; 1 lb., \$1.00; 5 lbs., \$1.50.

608 White Milan. An extremely early variety, used for forcing or planting outdoors.

VEGETABLE FAVORITES OF THOUSANDS

WINTER SQUASH

Winter Squash, particularly yellow fleshed varieties, is an excellent source of Vitamin A. Squash is also easily kept in dry storage. A family should have 50 pounds a year. We recommend 1 V.G.B.P. of Summer Squash and 2 V.G.B.P. of winter varieties. Plant in hills summer types about 4 feet apart, winter about 8 feet apart. One V.G.B.P. will plant 25 hills.

552 **Golden Hubbard.** Earlier than green Hubbard. Fruits: 8-10 lbs. with a hard warty orange skin. Thick, yellow, fine grained, dry flesh; excellent quality for canning and freezing. Postpaid: Pkt., 6c; V.G.B.P., 10c; oz., 15c; ¼ lb., 45c; ½ lb., 75c; 1 lb., \$1.35.

554 **Improved Hubbard.** Standard winter variety for home and market gardeners and the best for shipping. Our strain is very early. Dark bronze-green, rind hard and tough, slightly warted. Fruits weigh about 12 lbs., flesh very thick orange-yellow, fine grained, sweet and dry. Postpaid: Pkt., 6c; V.G.B.P., 10c; oz., 15c; ¼ lb., 45c; ½ lb., 75c; 1 lb., \$1.35.

559 **Kitchenette.** Sometimes called Baby Hubbard, being about two weeks earlier. Color of shell a dark glossy green, weight about five pounds and a fine keeper. Flesh fine grained, delicious, golden yellow. Postpaid: Pkt., 6c; V.G.B.P., 10c; oz., 15c; ¼ lb., 45c; ½ lb., 75c; 1 lb., \$1.35.

557 **Table Queen or Des Moines.** Desirable for home and market garden; also

good shipper. Fruits acorn-shaped, smooth, thin-shelled, dark green, mature early. Six inches long, 3 inches thick. Flesh light yellow, with sweet flavor. Makes splendid pies, bakes well. Postpaid: Pkt., 5c; V.G.B.P., 9c; oz., 13c; ¼ lb., 40c; ½ lb., 65c; 1 lb., \$1.15.

556 **Buttercup.** A new introduction just the right size for baking. Of excellent quality, flavor is similar to sweet potato. Flesh a dry, deep rich orange, texture and keeping qualities the best. Postpaid: Pkt., 7c; V.G.B.P., 11c; oz., 16c; ¼ lb., 50c; ½ lb., 85c; 1 lb., \$1.50.

SUMMER SQUASH

These 2 varieties: Pkt., 5c; V.G.B.P., 7c; oz., 10c; ¼ lb. 30c; ½ lb., 50c; 1 lb., 80c.

561 **Mammoth White Bush Scallop.** A favorite with all our trade. An early maturing round flat squash, largest of the summer varieties. Fruit a clear white, and excellent for stewing.

563 **Giant Yellow Summer Crookneck.** Widely used by market gardeners and shippers. Weight about 5 lbs. Flesh thick and yellow, of rich, meaty flavor.

565 **Mixed Squash.** The assortment you want. Has all standard varieties in our regular quality seed, both summer and winter varieties. Pkt., 4c; V.G.B.P., 6c; oz., 8c; ¼ lb., 25c; ½ lb., 40c; 1 lb., 70c.

Vegetable Oyster
Salsify

King of
Denmark
Spinach

SALSIFY

571 **Mammoth Sandwich Island.** Vegetable Oyster. An improved variety with roots 6 to 8 inches long, thick, tapering, smooth. Decided oyster-like flavor. Fine for soups, etc. Postpaid: Pkt., 6c; V.G.B.P., 9c; oz., 15c; ¼ lb., 45c; ½ lb., 80c; 1 lb., \$1.50.

MAMMOTH SUNFLOWER

The sunflower seeds have a very high feeding value and are greatly relished by poultry. The Mammoth Russian is the largest of Sunflowers. Plant about the same as corn. If you have no field space to spare, plant them in corners, along fences, etc. Postpaid: V.G.B.P., 10c; ½ lb., 12c; 1 lb., 20c; 5 lbs., 90c. Write for special prices on larger amounts.

TOBACCO

Postpaid price on each of the following 3 varieties. Postpaid: Pkt., 8c; V.G.B.P., 15c; oz., 40c; ¼ lb., \$1.25; ½ lb., \$2.10.

726 **Connecticut Seed Leaf.**

727 **Havana.** An early variety used largely for cigar wrappers, on account of thinness and fine quality.

728 **White Burley.** Broad attractive leaves. Easy to cure. Used for fillers and wrappers.

Improved
Hubbard
Squash

SPINACH

Every garden should have this famous health food. Important source of vitamins, calcium and iron. It thrives under cool, moist conditions so should be planted both in early spring and fall. The average family should plant 2-4 ounces so we don't list regular packet size as V.G.B.P. is the smallest you should order. Plant at least 150 feet of row about 1 inch deep, 2 inches apart. One V.G.B.P. will plant 50 feet of row.

585 **Noble Giant.** Easy to wash. Leaves medium thick, green, very large, broad and smooth with slight crumpling. Very good quality. The best of the large smooth leaved type. A long standing variety. Postpaid: V.G.B.P., 9c; oz., 13c; ¼ lb., 40c; ½ lb., 65c; 1 lb., \$1.15.

582 **Long Standing.** A quick-growing, long-bearing variety for mid-summer use. Plants grow low and spreading, with pointed, dark green, intensely

crumpled leaves. May be sown in spring or fall. Postpaid: V.G.B.P., 9c; oz., 13c; ¼ lb., 40c; ½ lb., 65c; 1 lb., \$1.15.

583 **Bloodsail Savoy.** An early variety. Popular for local and long distance markets, for canning, and home use. A long keeper after cutting. Leaves medium size, crumpled, glossy dark green. Postpaid: V.G.B.P., 7c; oz., 11c; ¼ lb., 33c; ½ lb., 55c; 1 lb., 90c.

584 **King of Denmark.** Very desirable for canning and for market gardens. Leaves broad, rounded, very dark green, somewhat crumpled. An exceptionally long standing type, remaining in condition from one to two weeks. Postpaid: V.G.B.P., 8c; oz., 12c; ¼ lb., 35c; ½ lb., 60c; 1 lb., \$1.00.

MISCELLANEOUS

Some of the following are imported so seed supplies are short and only early orders can be filled.

676 **Brussels Sprouts.** Of the cabbage family highly desirable. Plants thickly set with firm cabbage-like balls, maturing successively. Postpaid Pkt., 10c; V.G.B.P., 18c; oz., 30c; ¼ lb., 90c.

690 **Kale, Dwarf Green Curled Scotch.** A member of the cabbage family, used for greens. Leaves large and crimped. Postpaid price: Pkt., 7c; V.G.B.P., 10c; oz., 15c; ¼ lb., 45c; ½ lb., \$1.35.

720 **Okra, Long Green Poddid.** The best variety that you can plant. Plants dwarf and very productive. Valuable for soups and stews. Postpaid price: Pkt., 5c; V.G.B.P., 7c; oz., 9c; ¼ lb., 25c; ½ lb., 40c; 1 lb., 65c.

705 **Collards, Georgia.** A good substitute for cabbage which succeeds on poor soil, grown especially in the south. Can be boiled like cabbage or used as cole slaw. Postpaid: Pkt., 6c; V.G.B.P., 8c; oz., 12c; ¼ lb., 30c; ½ lb., 75c.

706 **Broccoli, Italian Green Sprouting.** Forms large head consisting of a cluster of small heads. Both stems and heads are cooked and served like cauliflower, but is of a more delicate flavor. Postpaid: Pkt., 10c; V.G.B.P., 18c; oz., 30c; ¼ lb., 90c.

695 **Early White Vienna Kohlrabi.** Dwarf variety. Excellent for home and market garden. Bulbs 2 to 3 inches in diameter, globular, flesh white and tender. Postpaid: Pkt., 10c; V.G.B.P., 25c; oz., 40c; ¼ lb., \$1.25.

696 **Early Purple Vienna Kohlrabi.** Desirable early dwarf variety. Bulbs globular with white, tender flesh. Price—Same as Early White Vienna.

1256 **Ornamental Gourds Mixed.** All of the popular varieties: Calabash, Orange, Jap Nest Egg, Dipper, Dishcloth, etc. Many sizes and colors. Postpaid: V.G.B.P., 10c; oz., 15c; ¼ lb., 45c.

BEAUTIFUL FLOWERS

Cost so Little and Mean so Much!

Beautiful Illustrated Planting Booklets Free

We can not mail conveniently with nursery orders a beautiful "Gardening Illustrated" planting book that costs 25c. We will mail it free with your nursery order for \$1.50 or more if you order 25c or more in flower seeds or a total order of \$1.75.

You can also get in addition a complete 80 page vegetable planting booklet free if you order 25c or more in flower seeds with your vegetable order or a combined total of \$1.75 or more.

Both booklets are mailed on request if you order Garden Seeds, Flower Seeds and Nursery Stock on the same order totaling \$2.75 or more.

RED WHITE AND BLUE

Grow our national colors this year. On this page we list Beauty Asters, the beautiful Pincushion Flower, and Sweet Peas, all in separate packets of Red, White, and Blue. On Page 68 we list Petunias, and Morning Glories also in Red, White and Blue. Design your flower beds, arrange your bouquets with our national colors.

We have added many new single colored varieties to our flower list this year. Get the colors you want and arrange your own color scheme. New varieties for rock gardens and borders, page 68.

Hardy, early blooming perennial. Pkt., 5c.

1300 Pincushion Flower. (Scabiosa.) (A.) Beautiful cut flowers, mixed. 5c.

1299 Pincushion Flower. (Scabiosa.) (A.) King of the Blacks. Pkt., 10c.

BERRY'S LARGE SIZE FLOWER PACKET MIXTURES

Finest Cut Flowers 16c Berry's Wildflower Mixture—Pkt. 14c

Contains all the popular varieties found in our catalog listing. A glorious variety of flowers for cutting. We suggest planting in rows so you can cultivate and keep flowers out close for more prolific blooming.

Native annuals that are hardy and will bloom over a long period. Fine for a group or corner planting where no formality is needed but a mass of bloom can be enjoyed all the time.

Other Special Flower Mixtures page 68. All flowers listed are marked Annual (A) or Perennial (P). Each price is for our large sized packet.

GRUSS AN AACHEN—Pink. The little "Sweetheart Rose." Fragrant. Extra double.

TRIUMPH ORLEANS—Red. These little roses grow in large clusters of Cherry-red. Vigorous grower.

ORANGE TRIUMPH—Orange. A delightful salmon-red with orange shadings, blooms in enormous clusters.

Hardy CLIMBERS

2 yr. Medium—39c each; 3 for \$1.00.
2 yr. Heavy—49c each; 4 for \$1.35.

Climbers may be planted on your porch, trellis or fence. They are hardy, low lived and will produce hundreds of beautiful flowers each year. Plant a variety of colors. Take advantage of our Bargain No. 874 or 875 below.

PAUL'S SCARLET—Blazing red, double blossoms in masses. Vigorous, hardy, free blooming. No better Climbing Roses can be had at any price. Plant on Trellis, Arbor or along the fence.

CL. AMERICAN BEAUTY—Rose-red. Large, fragrant, very hardy. Free bloomer.

DR. VAN FLEET—Full double large flowers. Color flesh pink. Very fragrant. Bronze foliage.

PRIMROSE—One of the better double, yellow climbers. Hardy, free flowering, desirable.

CLIMBING ROSE ARBOR

1 each of above 4 varieties—Prepaid
No. W874—2 yr. Medium—4 for \$1.15.
No. W875—2 yr. Heavy—4 for \$1.60.

Everblooming CLIMBERS

2 yr. Medium—Each, 49c; 3 for \$1.35.
2 yr. Heavy—Each, 59c; 3 for \$1.65.

Imagine a Rose Arbor covered with colorful fragrant blooms all summer until frost. Dozens of fully double, Tea Rose blooms for cut flowers. Do not grow as tall as hardy climbers, but bloom several weeks longer.

E. P. THOM—Golden yellow. Rich color on a vigorous growing climber.

PINK RADIANCE—Rose-pink. Large, beautiful flowers. Vigorous growing.

PRESIDENT HOOVER—Multi-colored. A combination of Maroon, orange, and Gold. A beautiful climbing Tea Rose.

ETOILE HOLLANDE—Vivid red. A brilliant climbing Tea Rose that will make a real showing.

Everblooming Rose Arbors

1 each of above 4—Prepaid
No. W832—2 yr. Medium—4 for \$1.65
No. W833—2 yr. Heavy —4 for \$2.00

GIANT ROSES

Extra Heavy Size.
Each, 69c; 3 for \$1.85, Postpaid.

These extra large bushes of the newest and best varieties at remarkably low prices. One of America's greatest Rose values.

PINK DAWN—A long well shaped bud of bright rose-pink. Heavy textured petals. A splendid flower for cutting.

GOLDEN RAPTURE—America's finest yellow rose! Large, fully double, golden yellow blooms on strong stems. True rose fragrance.

CHRISTOPHER STONE—Glowing brilliant crimson scarlet in great profusion until frost. Delightful spicy fragrance. Longest keeping cut flower rose.

MME. J. BOUCHE—White. The large beautifully formed buds are creamy white and open with a dainty flush of pink in the center of the flower, but this flush disappears leaving a long lasting white rose for cutting.

GIANT ROSE GARDEN

1 each of above—Prepaid
No. B703—Extra Heavy—4 for \$2.25

BERRY'S FAVORITES

2 yr. Medium—
Each 39c; 3 for \$1.00

2 yr. Heavy—
Each 49c; 3 for \$1.39

Our choice of old favorites in each color range for rose lovers of America. You'll like them all and our special collections below save money.

RADIANCE—Red. America's favorite garden rose! Large, bright rosy-red, free bloomer.

RADIANCE—Pink. Universally popular! Best Pink Hybrid Tea for inexperienced gardeners. Rose Pink with true rose fragrance. Strong—blooms freely.

GOLDEN DAWN—A new yellow that is a sensation. Free bloomer. Large, fragrant, long lasting flowers.

K. A. VICTORIA—Creamy-white fragrant blooms on long, strong stems. Not as hardy as Druschki but very desirable.

TALISMAN—Multi-colored yellow and copper tinted red. Extremely fragrant.

PRESIDENT H. HOOVER—Best two-tone for outdoor gardens! Unusual combination of scarlet-yellow, cerise-pink, and flame. Sweetly fragrant. Long strong stems. Vigorous disease resistant.

No. B701—1 each of above—2 yr. Medium size—6 for \$1.75.

No. B702—1 each of above—2 yr. Heavy size—6 for \$2.45.

TALL HEDGES for Screens

Will Grow to
4 ft. or Higher
See Description

See Page 73 for Low Prices on Tree Seedlings for Windbreaks. These taller, rapid growing varieties are best for screens to conceal undesirable buildings, alleys, unsightly situations next door, etc. Where room is available, they are excellent for mass plantings or as background for Shrub borders, etc.

HONEYSUCKLE—BUSH. (12 to 15 ft.) One of the most attractive of the taller hedges. Perfectly hardy, vigorous grower—beautiful flowers followed by bright red berries. The ideal screen. Plant 2 to 3 ft. apart.
12 to 18 in.—10 for \$1.19; 25 for \$2.75; 100 for \$9.95.
18 to 24 in.—10 for \$1.59; 25 for \$3.59; 100 for \$13.25.

RUSSIAN MULBERRY. A very useful variety at unusually low cost. Quick growing and absolutely hardy. Useful for both hedge or screen as it can be kept pruned down to 4-5 ft. (when planted 15-18 inches apart), or allowed to grow to 12-16 ft. high (when planted 3-5 ft. apart).
12 to 18 in.—10 for 29c; 25 for 59c; 100 for \$1.95.
18 to 24 in.—10 for 39c; 25 for 69c; 100 for \$2.75.
2 to 3 ft.—10 for 49c; 25 for \$1.00; 100 for \$3.35.

RUSSIAN OLIVE. Another very useful, attractive, yet inexpensive variety. When planted 15 to 18 inches apart, it makes a good tight, silvery grey hedge, kept pruned down to 4 to 6 ft. high. For effective screen, plant it 3 to 5 ft. apart and it will grow 15 to 18 ft. tall.
12 to 18 in.—10 for 45c; 25 for 90c; 100 for \$2.85.

TRIMMED and NATURAL LOW HEDGES

IMPORTANT. Your Hedge will never be tight, close to the ground unless you prune it severely immediately after planting. Always prune off at least 1/2 of the top branches. Smaller sizes should be left only about 4 to 6 inches taller than ground—larger sizes about 10 to 12 in.

PRIVET—AMOOK RIVER NORTH. Most popular Hedge plant—Hardy Russian Privet. Dense, glossy green foliage on numerous upstanding branches. Can be kept pruned down to a thick Hedge only 2 feet high or will grow over 4 feet if not pruned.

12 to 18 in.—10 for 79c; 25 for \$1.85; 100 for \$6.95.
18 to 24 in.—10 for \$1.00; 25 for \$2.25; 100 for \$8.35.

TRUEHEDGE COLUMBERY. Hardly ever needs trimming. As beautiful as Boxwood with the protective qualities of Barberry. Patent No. 110.

12 to 15 in.—5 for \$1.50; 10 for \$2.75; 25 for \$6.00.
15 to 18 in.—5 for \$1.75; 10 for \$3.25; 25 for \$7.00.

BARBERRY—Green. A very compact, dense growing, thorny, protective Hedge. Can be kept pruned to 2 feet or allowed to grow to 4 feet. In Fall, the leaves turn red and bright red berries appear.

12 to 18 in.—10 for 69c; 25 for \$1.55; 100 for \$5.75.
18 to 24 in.—10 for 89c; 25 for \$1.98; 100 for \$7.45.

BARBERRY—Red. Like Green but with brilliant red foliage when planted in full sun.

12 to 15 in.—5 for 75c; 10 for \$1.25; 25 for \$2.95.

15 to 18 in.—5 for 98c; 10 for \$1.75; 25 for \$4.15.

SPIREA V. H.—BRIDAL WREATH. One of the most beautiful Hedges—in the Spring, its graceful arching branches are a mass of lovely white bloom. Very hardy—grows 4 to 6 ft. high. Prune very severely when planted but, after the first year, prune out only the dead wood.

12 to 18 in.—10 for 89c; 25 for \$1.89; 100 for \$6.45.

18 to 24 in.—10 for \$1.10; 25 for \$2.45; 100 for \$8.25.

2 to 3 ft.—10 for \$1.59; 25 for \$3.45; 100 for \$11.95.

CARAGANA. Best ornamental Hedge for severe northern climates. Strong, upright, growing, thornless branches with dense foliage and yellow blossoms insure a beautiful hedge. Keep pruned from 3 to 6 feet or you may let it grow higher.

12 to 18 in.—10 for 45c; 25 for 89c; 100 for \$2.85.

18 to 24 in.—10 for 59c; 25 for \$1.25; 100 for \$4.75.

2 to 3 ft.—10 for 75c; 25 for \$1.65; 100 for \$5.85.

The above varieties listed under Tall Hedges are also ideally suited for windbreak plantings because of their quick growth. On page 73 we have them priced in larger quantities that will save you money. Plant these in combination though with slower growing Evergreen Seedlings which will make a more permanent windbreak for you. Get our Free Evergreen Circular for full details.

BERRY'S GUARANTEE SATISFACTION AT MONEY SAVING PREPAID PRICES

We have always guaranteed satisfactory quality. See page 75. This year we can assure you of more. Because we don't use expensive illustrative color pictures and free gifts you may not care about we can save you real money on the best quality nursery stock that can be grown.

In comparing our prices remember they are all prepaid. In ordering you can save then at least 20% over other nurseries who may have just as low a price but ship collect.

VINES

Strong 2 Yr. Plants for Rapid Vigorous Growth
For Trellis, Arbors, Porches, etc.

These 7 varieties, 35c each; 3 for 95c, postpaid

Vines with their luxuriant foliage and lovely blooms relieve the monotony of bare walls and give quick shade on porches and arbors.

BOSTON IVY. Best clinging vine for brick, stone, cement or stucco.

HONEYSUCKLE—Scarlet Trumpet. A strong growing vine with bright red, trumpet-shaped flowers.

ORIENTAL BITTERSWEET. Better than the American because it produces many more lovely red berries for winter bouquets. A sex plant that requires cross-pollination—always plant from 4 to 6 nearby.

HONEYSUCKLE—Hall's. A very hardy, rapid growing vine covered with creamy white flowers in season. Fine for porch, arbor or fence. Best vine for ground cover in shady places, on steep banks or terraces.

CLEMATIS—Paniculata. The hardy, vigorous growing Clematis. Covered with fragrant flowers in late summer and fall.

WISTERIA—Purple. The most magnificent of all vines—lasting for generations and increasing in beauty each year. Long clusters of lilac flowers in summer. Requires some protection in severe climates.

TRUMPET VINE. The Old Favorite hardy Trumpet Vine. Vigorous growing, hardy vine is covered with larger trumpet shaped, scarlet flowers in summer.

Some Vines of Special Beauty

SILVER LACE VINE. The fastest growing, most beautiful hardy vine. Often grows 20 ft. per year. Glossy green foliage covered with snowy white flowers. Each, 45c; 3 for \$1.25.

CLEMATIS JACKMANI—Purple. A beautiful perennial vine with its mass of large, rich, purple bloom. Considered the most beautiful vine for trellis. Requires protection in severe climates. Each 75c; 3 for \$2.00.

CLEMATIS—Romana. Lovely, light blue flowers completely cover the plant. One of the most beautiful of all the Clematis. 75c each; 3 for \$2.00.

HONEYSUCKLE—Gold Flame. New, everblooming Honeysuckle. Masses of deep scarlet trumpets lined with gold from early summer until frost. Attractive blue green foliage. Plants are vigorous, hardy and disease resistant. Each 65c; 3 for \$1.75.

10 LOVELY ORNAMENTAL EVERGREENS

AT YEARS LOWEST PRICES

Black Hills Spruce Austrian Pine Colo. Blue Spruce Scotch Pine Am. Arbor Vitae

BERRY'S EVERGREEN BARGAIN of the YEAR—all 5 and 6 year old trees up to 1½ ft. size

This assortment of varieties makes an ideal ornamental evergreen grouping in the lawn or around the corners of your home. The Pines and Spruces also make your best windbreak plantings. Think of it—you've paid \$3.00 or more for evergreens not much larger—while here you get them for less than 30c as long as supply lasts delivered to your door.

2 of each variety in size pictured above. Colorado Blue Spruce 8/12 inches; all others 1-1½ feet. Black Hills Spruce; Scotch Pine; Austrian Pine; and American Arbor Vitae—10—5/6 yr. old Transplants—a \$6.00 value—only \$2.98 on early orders as long as supply lasts.

SPECIAL EVERGREENS FOR HOME PLANTINGS

Large Evergreens for Windbreaks

This special offer of twice transplanted windbreak stock is our biggest value of the year. We make this offer only on American Arbor Vitae and White Spruce as these two Evergreens alone make a fine two row windbreak. These extra large trees that cost so little may be planted in their permanent location, the American Arbor Vitae should be your outside row and the trees 8-10 feet apart. On the inside the White Spruce may be planted 14-16 feet apart.

AMERICAN ARBOR VITAE. A very hardy rapid grower that thrives on heavy soils. Densely branched, bright green color, grows 40 to 50 feet.

WHITE SPRUCE. A very hardy rapid grower, fine for windbreaks. This tree branches close to the ground and has a very dense bluish green foliage. Grows 60 to 70 feet tall, and lives 50 to 60 years.

WINDBREAKS

at LOW COST

from SEEDLING TREES

A MONEY MAKING INVESTMENT

For just a few dollars you can now plant several hundred Evergreen and Forest Tree seedlings; to protect your home, farm buildings, and feed lots, from sweeping winds in winter and summer. Windbreaks from these seedlings will greatly increase crop production from the protection given, also production of your livestock. Nearly every farm has some waste land that will grow all the fence posts you need, all the wood you can burn, and at the same time, prevent soil erosion and provide shelters for grazing livestock. A fine investment needed on every farm at such low cost.

EVERGREEN SEEDLINGS

Evergreen seedlings should be planted in beds and cultivated like garden plants. Rows may be 18 to 24 inches apart with the Evergreens 10 to 15 inches apart in the row. Provide some shade for the first year. A covering of lath spaced about 1½ inches apart with slats running north and south is good. After about 2 years or when 18 to 24 inches high, transplant into permanent location. For further planting instructions and windbreak ideas ask for our Free Circular on Evergreens giving a full description of all varieties.

Berry's Evergreen seedlings are grown in northern Wisconsin. They are vigorous with a strong root system guaranteed to be hardy and adapted anywhere. We ship direct to you prepaid at proper planting time furnishing planting instructions and guaranteeing satisfaction.

25 each: Norway Spruce, Am. Arbor Vitae, Colo. Blue Spruce, Ponderosa Pine.

No. 722—all 100—4/6"—only \$1.98 postpaid.

TREE SEEDLINGS

These are more rapid growing than Evergreens so should be used in combination with Evergreens as they are not nearly so permanent as Evergreens.

Our tree seedlings are well rooted, hardy and vigorous. They are easy to start, planting instructions being furnished. We ship prepaid at proper planting time early in the Spring and guarantee satisfaction.

We suggest planting all sizes of tree seedlings in rows where it is convenient to cultivate them often the first 2 or 3 years—rows about 36 inches apart with the seedlings 12 to 24 inches apart in the row—they grow more bushy when planted 24 inches apart. After 2 years, when the trees are well rooted and about 5 feet tall, transplant into permanent location.

Prepaid Prices:	Each	4	10
Medium Grade			
18/24"	35¢	\$1.25	\$2.95
Large Grade 2/3 ft..	45¢	1.65	3.95

Althea—Rose of Sharon. Choice of Red, Pink, Purple. (8 to 10 ft.) Has double rose-like flowers in the Fall when most shrubs are gone.

Butterfly Bush—(Dubonnet). 3 to 4 ft. Beautiful Spikes of rich, reddish purple, in late summer. Excellent cut flower. Roots are hardy. New.

Red Dogwood. (8 to 10 ft.) Hardy anywhere. Spreading habit. Brilliant red in winter.

Golden Twig Dogwood. (8 to 10 ft.) The distinct yellow bark has a fine winter effect. Lovely white flowers and white berries.

Forsythia Golden Bell. (6-8 ft.) A very hardy upright grower with brilliant yellow flowers before the leaves.

Honeysuckle Bush Pink. (12-15 ft.) Excellent for foundations if pruned severely. Pink. Hedging grade page 71.

Lilac Old Fashioned. (8-12 ft.) Loads of lovely, fragrant blooms. Very hardy. Purple.

Lilac Persian Purple. (6-8 ft.) Handsome foliage, striking reddish-purple bloom. Hardy, blooms young.

Quince, Red Flowering. (3-4 ft.) Brilliant orange scarlet blooms with first leaves, glossy dark green foliage. Hardy, spreading. Fine for foundations.

Mock Orange—Syringa. 6 to 8 ft. Old favorite shrub covered with single, fragrant white flowers in late spring.

Weigela—Pink. (5-7 ft.) Hardy, upright grower. Lovely pink bell-shaped flowers in May and June.

Tamarix—Blue and Green Foliage. Graceful arching branches. Dainty pink flowers on rich green or blue foliage.

Barberry, Red Leafed. 3 ft. Very useful, hardy shrub with vivid red foliage when planted in sun. Usually sells at higher prices. Another Berry Bargain.

2/3 ft.	60¢	1.65	3.00

ALMOND—Double Pink Flowering. 4 ft. In early spring a mass of flowers. The beauty spot in any garden.

BEAUTY BUSH. (4 to 5 ft.) Many bluish-pink flowers on arching spray-like branches. A beautiful ornamental shrub.

HYDRANGEA A.G.—Hills of Snow. Best shrub for shade—thrives anywhere. Masses of large round white bloom in early summer. Very good!

HYDRANGEA—Pee Gee. Magnificent large conical shaped white bloom in summer, with pinkish cast in fall. Thrives anywhere—very popular.

SNOWBALL—Old fashioned. 6-10 ft. Another old favorite that thrives anywhere. Loaded with pure white flower balls in early summer.

Syringa—Viginal. (Double Mock Orange.) (4-6 ft.) Unusually large, double, very fragrant white flowers in June and all summer.

HANSEN BUSH CHERRY

Bears fruit in one year. Dwarf Grower—Absolutely hardy.

2 ft. size—2 for 45¢; 6 for \$1.00, Postpaid.

A dwarf growing, highly ornamental, hardy shrub. It is used widely for making jams and jellies. Fruit is good to eat and it will bear by second year. For a low bushy fruiting hedge plant 18 to 24 inches apart. In the garden or orchard plant 3 ft. apart. Try it this year at Berry's low prices.

SPIREA FAVORITES

2 for 60¢ 6 for \$1.60 10 for \$2.45

2 for 60¢; 6 for \$1.60; 10 for \$2.45, Prepaid

Note: Spirea's most popular family of Shrubs! Spireas succeed anywhere, are absolutely hardy, drought resistant and bloom freely, even under adverse conditions. Sizes indicated below.

BRIDAL WREATH (V.H.) 5-6 ft. Our best seller. Graceful, arching branches loaded with dainty white flowers. Big 2-3 ft. size.

FROEBEL. Semi-dwarf. 3-5 ft. Vigorous, spreading habit. Rose-pink bloom. Beautiful purplish red foliage in Fall. 18/24" size.

ANTHONY WATERER. Dwarf. 2-3 ft. Bright red flowers all summer. Very useful dwarf. 18/24" size.

SPIREA GROUP—No. W640.

BILLARDI. 4-6 ft. One of the better flowering shrubs. Countless spikes of pink flowers all summer. 18/24" size.

THUNBERGI. 3-5 ft. Countless white blossoms on graceful, arching branches with first leaves. 18/24" size.

ARGUTA. Snow Garland Spirea. Slender, upright growing shrub covered with snowy blossoms in Spring. Earliest blooming Spirea. 18/24" size.

1 each of above 6 for \$1.45

No. W627—Special Offer—Giant Size Bridal Wreath
4 bushes for \$1.00, postpaid

Extra big Spirea Bridal Wreath—2 years old—well branched with plenty of roots sure to bloom right away. White bushes are giant ¾ ft. size. Pink bushes are heavy 2/3 ft. size. State choice of color when you order. Not sold less than 4 bushes per order and no lower price regardless of quantity. Order early as supply of this Giant size is limited and won't last long at such a low price.

Spirea Landscape Group
8 for \$1.60

"All-Summer Bloom." Can be used in the shrub border or for foundation planting around the home.

2 each **Bridal Wreath (White), Froebel (Red), Billardi (Pink), Arguta (White)** in sizes listed at left. No. B741—8 for \$1.60.

Spirea Bargain—Bridal Wreath

A wonderful value in America's favorite shrub. Lighter grades not so well branched but a big bargain for the thrifty buyer.

5 OLD FAVORITES

Available in 2 grades. 1 Yr. No. 1 grade is an extra fine value at Berry's low prices. Often preferred for large vineyard plantings.

All 5 prepaid.	2	5	10	25
2 yr. No. 1.	\$0.45	\$1.00	\$1.85	\$1.00
1 yr. No. 1.	.35	.79	1.45	3.00

BETA. The hardest of all grapes—consistent bearer of juicy black fruit for jelly, juice or wine. Rich, full flavored but rather tart for table use. Fine for Arbors.

DELAWARE. A red grape, very sweet and highest quality. Not quite as large size as Caco.

MOORE'S EARLY. Earlier than Concord. This large blue-black full flavored grape brings premium prices on any market.

NIAGARA. Enormous bunches of large greenish-white, sweetly flavored fruit. Best white for market—good shipper. Requires protection in severe climate.

WORDEN. Extra high quality blue grape of Concord type but clusters are often larger and the berries sweeter and of finer quality. Extremely hardy and productive.

CONCORD—AMERICA'S CHOICE

The best commercial grape for the Middle West. Vines vigorous, extremely hardy and dependable bearers of large crops of big, blue-black fruit.

2 yr. No. 1: 2 for 35c; 5 for 70c; 10 for \$1.30; 25 for \$2.65; 100 for \$9.25, prepaid.

FREDONIA. Black. Destined to be America's favorite black Grape! Vigorous, productive and hardy. Large bunches of big juicy, deliciously flavored fruit—ripening 2 weeks earlier than Concord.

CACO. Red. The hardest red Grape. Vigorous grower, bearing young, heavily and regularly. Fruit is extra large, beautifully colored, sweet and juicy.

PORTLAND. White. Earliest of all Grapes! Large, white fruit with delicious, spicy flavor. Hardy and finest quality.

SHERIDAN. (An improved Concord). A promising late-keeping grape to extend the season of Concord. In many places under the same conditions as Concord, the plants have been found to be just as vigorous, healthy, hardy, and more productive. The bunches of Sheridan are larger and more compact; and the berries are firmer and as large as Concord; the flavor is sweeter and richer; the season is a week later and the grapes do not shell as readily.

GOLDEN MUSCAT. A new hardy Grape combining the extra high quality and distinctive flavor of the California Muscat Grape, with the hardiness of Concord. The bunches are large and well filled. Berries are large, sweet, meaty and juicy. Vines are vigorous, hardy, and heavy bearers after the second year. Recommended for home or commercial plants. Prepaid: 2 yr. No. 1—75c each; 4 for \$2.85.

STRONG 1 YR. #1 PLANTS

SAVE 15% to 20%

We are fair to every customer regardless of the amount of order. 100% value in the best nursery stock America can grow. Accurate grades, true descriptions and a fair and square deal always is guaranteed you. Order with safety at Berry's. Prices are lowest and quality highest so don't delay—act now. Remember our Prepaid Prices save you 15-20% over other nurseries.

HIGHEST QUALITY - LOWEST PRICES

FINEST QUALITY

Our enviable reputation is built on high quality at low prices—superior values. We have developed the largest business of its kind in the country, on this sound policy.

These same high standards maintain in our nursery department. Each and every item is carefully tested before Berry's will put their name behind it. You can order our Nursery Stock with full confidence that it is accurately and honestly described, that the quality is of the highest and the prices, the lowest.

Berry's guaranteed nursery stock is grown by experts, wherever possible in northern sections for extra-hardiness. Transplanted, pruned and root pruned to insure sturdy, well rooted, well branched plants that will thrive anywhere. Do not be misled by claims of superior quality—we offer high quality at very low prices.

LIBERAL GUARANTEE

Berry's guarantee their nursery stock to be exactly as represented and to be delivered to you in good planting condition. If not, we will replace it free of charge but you must notify us within 10 days after you receive it.

If any nursery stock is proven not true to name, we will, upon proper proof, replace all such stock or refund the exact amount paid, but, in no case, shall we be liable for any sum greater than the amount originally received for said nursery stock.

If any Berry's nursery stock fails to grow with proper care, we will replace it at half price IF you notify us within 90 days after you receive it.

PLANT THIS YEAR

Get your fruit from the tree and the vine. With canned goods short, and fresh fruits scarce, due to transportation difficulties, now is the time to insure your share of good things to eat. Plant now, harvest next year.

WHEN WE SHIP

In the spring, we study the weather reports and ship at the proper planting time in your locality. Don't be alarmed if your shipment is not received on the first warm day, for you may be sure your order is having careful attention.

When Spring opens up all over the central states, we are not always able to ship as promptly as we would like because of the manpower problem. As your order will be shipped as soon as possible, it is not necessary to write us. You may be sure that even in the rush season, your order will be received in time for successful planting.

Strawberries, cannas, dahlias, Peonies, Gladiolus, and Perennials are shipped separately and not included in the same package with Fruits, Shrubs, etc.

In the fall, we can supply all Nursery stock except Strawberries, Cannas, Dahlias, and Gladiolus. Most kinds of Nursery stock can be very successfully planted in the Fall, even in severe climates.

Berry's send you complete instructions for planting your nursery stock. These are included in the package. Read them carefully and you will succeed.

STRAWBERRIES FOR EVERY HOME GARDEN

SURE CROP

BLAKEMORE

New, early market berry. Extra vigorous grower, heavy bearer, very drought resistant, healthy and good plant maker. Recommended for Northern States. Mild flavor, beautiful color, early maturity. For market or home.

SENATOR DUNLAP

Old reliable favorite for home or market. Strong, extra hardy grower—heaviest yielder of big, solid, red berries. Mid-season.

Above 2 varieties postpaid.

	50	100	300	500	1000
Postpaid	60c	95c	\$2.25	\$3.65	\$6.50

EVERBEARING

"All Everbearers start fruiting 90 days after planting."

MASTODON

A well known variety which produces extra large fruit. The berries are not as well colored nor as fine flavored as Gem. Prepaid: 25 for 59c; 50 for \$1.10; 100 for \$2.00; 500 for \$8.45.

WAYZATA

One of the newer and better varieties of everbearing strawberries. The fruit is of about the same size and quality as Gem. The plants cost more because Wayzata does not produce as many plants as Gem. Prepaid: 25 for \$1.45; 50 for \$2.69; 100 for \$4.95; 500 for \$22.45.

THORO-BREDS

FAIRFAX

A new variety that is making thousands of friends. It wins because of its greatly superior flavor and astonishing yields. Has produced over 5000 quarts per acre. Large firm berries. Bright red color. Excellent shipper.

PREMIER

Famous for flavor and huge crops in any soil or climate. Berry's plants are true early strain—heavy bearers, big red berries.

Above 2 varieties postpaid.

GOOSEBERRIES CURRANTS

Delicious for pies, sauce, jelly or canning. Lots of fruit with no work. Extremely hardy, bear every year—disease resistant and long lived. Require very little room in the garden.

Prepaid Prices All Varieties 2 6 10
2 yr. No. 1.....\$0.60 \$1.60 \$2.45

CHAMPION. Good commercial variety. Strong, hardy, fewer thorns. Good for pies and canning. Color green.

DOWNING. Very large, light green, juicy berries of extra quality. Strong, vigorous, hardy. Commercial variety.

GLENDALE. The Glendale Gooseberry is "unique, in the regions to which it is adapted, because a single, mature bush often produces enough fruit for an ordinary farm family." Has been known to produce 10 or more quarts of berries on a single bush, sometimes growing as high as 6'.

PREPAID PARCEL POST

We ship nursery stock by prepaid Parcel Post whenever possible. Some trees are too large for Parcel Post. Be sure to give your nearest Express office address when ordering large sizes.

RHUBARB

Nature's best Spring tonic! You can't beat Rhubarb for tasty, snappy sauce and pie. Good for canning, too!

GIANT VICTORIA. ½ inch whole roots. 5 for 40c; 10 for 65c; 25 for \$1.25; 100 for \$3.75.

MCDONALD SEEDLESS. The best flavored Rhubarb you ever ate. The new Rhubarb that never goes to seed. Berry's send you strong divisions (part of a root with eyes) that quickly develop into big, strong, hardy plants.

RUBY RED. One of the best of the newer Rhubarbs. The stalks are brilliant ruby-red. The sauce is also an attractive red, sweet, and of a more pleasing flavor. It is propagated from divisions—blossoms but does not produce fertile seeds.

PRICES FOR ABOVE TWO VARIETIES

Divisions—Each, 45c; 4 @ \$1.65; 10 @ \$3.85.

GEM

"Eat Tasty Vitamins"

Gem—the best by test, in any climate, under all growing conditions. Year in and year out, Gem will produce more marketable fruit and more plants than any other Everbearer. The berries are large, firm, well colored and of delicious flavor. Berry's new price saves you money. Some varieties cost more than Gem but no variety of Everbearing Strawberry surpasses Gem. Order Now. These prepaid prices save you at least 20%: 25 for 49c; 50 for 89c; 100 for \$1.65; 500 for \$6.65.

B761—All Season Strawberry Garden

150 plants for \$1.85, postpaid. 50 each, Gem, Premier, and Dunlap. A special money saving collection designed for families who enjoy strawberries all summer. Saves you 52c from regular catalog prices.

Order Strawberries early this year. Plants are very short. Early spring planting gives best results so we'll ship at proper time, furnish you full planting instructions and guarantee satisfaction.

Every variety offered on these pages (76 & 77) will start next year—crops to eat, can, or sell. Or fruit, asparagus, and Rhubarb next year when your needs will be greatest.

GEM

"Queen of Everbearers"

WE PREPAY ALL NURSERY STOCK EAST OF ROCKY MOUNTAINS. THIS SAVES YOU AT LEAST 20%. We do not ship Nursery Stock to Arizona, California, Florida, Idaho, Nevada, Oregon and Washington.

YOUNGBERRY

Finest for Sauce

A wonderful berry becoming a favorite everywhere. A cross of Loganberry and Dewberry. Dark wine colored fruit, sweet and delicious, highly flavored. A superb delicacy fresh, and the finest sauce you ever tasted. A tremendous bearer. Protect in severe climates by mulching. No. 1 tips prepaid: 5 for 35c; 10 for 55c; 25 for \$1.30; 100 for \$4.65.

"THORNLESS YOUNGBERRY"

Has all the qualities of the regular youngberry but the canes are smooth—without thorns. An improvement your hands and clothing will appreciate. Prepaid: 5 for 50c; 10 for 90c; 25 for \$2.15; 100 for \$7.65.

Boysenberry

BOYSENBERRY

Champion of All

The finest and most profitable fruit ever developed. The largest of all with the most delicious juicy, richly flavored fruit yet known. The plant is a vigorous grower, fruiting in early summer and bearing 8 to 10 weeks. No. 1 plants will bear the next season after planting. Prepaid: 5 for 50c; 10 for 90c; 25 for \$2.15; 100 for \$7.65.

THORNLESS BOYSENBERRY

Has the same wonderful qualities of the regular Boysenberry, but with thornless canes. Prepaid: 5 for 90c; 10 for \$1.65; 25 for \$3.85; 100 for \$14.75.

100 for \$5.50; 500 for \$24.50

CUMBERLAND—Black

The favorite commercial Black. Never fails to bear big crop of extra large, glossy black Raspberries. Strong plants for best results—low cost!

NEW LOGAN—Black

The "Ace" of Blacks! Yields more fruit, larger and firmer. Bush extra hardy, very vigorous—resists drouth and disease. The best Black! Top grade plants—lowest prices.

SODUS

The newest and best of the Purple Raspberries. Fruit reddish purple, firm, and of extra fine flavor. Plants are vigorous, hardy, disease resistant and consistent, heavy bearers, early in the season. Very profitable for home or commercial planting.

MORRISON

The Largest Black Raspberry ever produced—fruits often measure 1 inch in diameter. Bigger berries, fewer seeds, more juice, better flavor—all these superior qualities on a vigorous, more hardy bush.

Prepaid: 5 for 55c; 10 for 95c; 25 for \$2.25; 100 for \$8.45.

SUNRISE—RED—EARLIEST

Ripens fruit earlier than any other variety. This proven new variety has outstanding merit. Berries are deliciously flavored; bushes are hardy, vigorous and disease resistant.

VALLANT. Introduced in Canada where it is favorite of large orchardists. Considered by many better than Elberta—ripens two weeks earlier. As hardy as any Peach—and featured by many at higher prices. A large round, flesh yellow freestone peach of finest quality. Be sure to try it at our regular low prices.

CHAMPION. Hardest Peach. Large, creamy white with red cheek. Freestone. Very high quality—juicy and sweet. Tree vigorous and thrifty.

J. H. HALE. Earlier and larger than Elberta. Unusually fine flavor. Good yellow with red blush. Good keeper. Plant with other varieties.

POLLY. Originated in Iowa and considered the hardest peach. Yellow freestone of good quality. Tree vigorous and hardy and productive. Midseason.

HALEHAVEN. Best early freestone. Strong grower, very hardy—heavy bearer of fine flavored yellow peaches.

ELBERTA. Best known freestone, commercial variety. Yellow with reddish cheek. Excellent for canning.

EARLY ELBERTA. Freestone. Large golden yellow with red cheek. Yellow flesh, firm, juicy, luscious flavor. Hardier than Elberta.

SOUTH HAVEN. Large yellow freestone, attractive blush and yellow flesh. Ripens 10 days earlier than Elberta.

GOLDEN JUBILEE. Yellow freestone, firm, juicy full flavored. Ripens 15 to 20 days earlier than Elberta.

QUINCE

3-4 $\frac{1}{2}$ ft. size. Orange, large, well flavored, orange yellow fruit, hardy, young bearing, vigorous trees. Each 89c; 4 to 7—84c; 8 to 11—81c; postpaid.

PEARS 3 To 5 FOOT 43¢ EACH PREPAID 13 OR MORE

Pears are one of the easiest fruits to grow and thrive in any climates where other fruit grows. Plant at least 2 varieties for good cross-pollination. All are good pollinators except Seckel and Mendel which are blight resistant.

Descriptions of Grades:	1 to 3	4 to 7	8 to 11	Over 11
Commercial $\frac{3}{4}$ ft.; $\frac{7}{16}$ to $\frac{1}{2}$ in.	55c	50c	46c	43c
Home Orchard $\frac{3}{4}$ ft.; $\frac{1}{2}$ to $\frac{1}{2}$ in.	65c	60c	56c	53c
Quick Crop $\frac{3}{4}$ ft.; $\frac{1}{2}$ to $\frac{1}{2}$ in.	77c	72c	68c	65c

DOUGLAS. Best for Middle West. Vigorous and hardy. Often bears second year. Considered blight proof. Fruit large, golden yellow with blush. Fine texture and flavor for eating or canning.

SECKEL (Sugar Pear). Medium sized fruit. Sweet and spicy. Hardy blight resistant. Young and heavy bearer.

BARTLETT. Favorite commercial variety. Heavy bearer of large, juicy, high flavored fruit. Strong growing tree—fairly hardy.

KIEFFER. Large, golden yellow, meaty pear for canning. Tree, extra hardy, blight resistant, and bears young.

LINCOLN. An old variety favored in the middle west for its proven ability to withstand cold, heat, blight, and other adverse growing conditions. Fruit is medium sized, matures in early September, is pleasantly flavored, very juicy, sweet, aromatic. Best early Pear.

HOME PEAR ORCHARD

A choice selection for all purposes—eating, canning or pickles. Our regular grade trees in both Commercial and Giant size as described on the right. 1 each of varieties listed above:
No. W506C— $\frac{3}{4}$ ft. $\frac{7}{16}$ to $\frac{1}{2}$ in.—5 trees, \$2.35 Postpaid.
No. W507C— $\frac{3}{4}$ ft. $\frac{1}{2}$ to $\frac{1}{2}$ in.—5 trees \$3.45 Express prepaid.

BERRY TREES of EXCEPTIONAL QUALITY

ALL NURSERY PRICES ARE PREPAID
Berry's give you 100% value and you're the judge. Every grade is described just as we guarantee you will find it. Honest descriptions—you will value. Remember this in comparing our quality with more colorful layouts. The money we save you enables us to prepay our nursery stock shipments and save you up to 40%.

GIANT SIZE. 5 to 7 ft. tall— $\frac{1}{2}$ to 1 inch diameter—extra heavily branched and well rooted. Plant this size for quicker crops—best results.

HOME ORCHARD SIZE. Strong $\frac{3}{4}$ to $\frac{1}{2}$ inch diameter—4 to 6 ft. tall. Very well branched and well rooted.

COMMERCIAL SIZE. Being lower priced, usually preferred for large Orchard planting. 3 to 5 ft. tall, $\frac{1}{2}$ to $\frac{3}{8}$ inch diameter. Extra value at Berry's lowest prices in years.

ECONOMY GRADE. In Peach Trees, we offer this smaller size—2 to 3 ft. tall, $\frac{1}{2}$ inch caliper (diameter), lightly branched trees. Recommended for larger Orchards in warm climates.

INSTRUCTIONS FOR ORDERING

These suggestions are made so we may be able to fill your order correctly and to avoid unnecessary correspondence and delay. No matter how often you have written us, always give your FULL ADDRESS

Write your name, Post Office, County and State plainly. By doing so you will save us trouble and possible delay in filling your order. If you are getting more than one catalog, please tell us what corrections we should make on our mailing list.

Be sure to state whether shipment is to be made by Freight, Express or Mail. If you want shipment by Parcel Post add sufficient to cover the postage charges unless prices are marked postpaid. If there is no agent at your station add sufficient to your remittance to cover the transportation charges.

If you want shipment made from Chicago, be sure to remit Chicago price as shown on price list and mark order to ship from Chicago. If you remit Clarinda prices we will ship from Clarinda. Remember that garden and nursery stock is shipped from Clarinda only.

When ordering field seed, garden seed and nursery stock together it is helpful to group items in each department together. The catalog number referred to on the order blank need be used only on items of garden seed and nursery stock.

If out of varieties ordered can we substitute equal or better in the nearest we can supply?.....

[illegible]

SPECIAL—If you have any neighbors or friends that would appreciate our catalog and will be interested in GOOD SEED, write their name on a separate sheet and send in with your order. We will gladly send catalog free.

PLUMS 2 YEARS 45¢ EACH 3 to 5 Ft. POST PAID IN LOTS OF 12 OR MORE

EUROPEAN AND ASIATIC

These favorite varieties are not as hardy as American varieties so are especially suited for Central, Eastern and Southern states. They are exceptionally high in quality for eating or markets. Plant at least 2 of this group for proper cross-pollination.

Grades Same as Apple.

BURBANK

The best commercial variety in mild climates. Fruit is extra large, freestone, bright cherry red, very juicy, and deliciously flavored. Trees are vigorous growers and heavy bearers.

BLUE PRUNE

The old favorite European dark blue Prune plum, for commercial or Home Orchards. Juicy and very well flavored. Excellent for eating fresh or canning, but not used for jelly.

STANLEY PRUNE

The most profitable Plum for commercial or Home Orchards. Earliest Prune, insuring top prices. Hardest European variety. Consistent bearer of large, blue, richly full flavored fruit. Freestone, sub-acid. Best for eating and canning.

SUPERIOR

All the qualities of the finest California Plums on an extra hardy tree that will quickly bear large crops in any climate. The huge dark red plums have juicy, full flavored, tender, yellow meat. The best of all Plums for eating fresh, for canning, or for plum butter.

SAPA-P

Early, heavy bearer of rich purplish-black Plums of medium size. Extra hardy. Juicy. Good for jelly, preserves.

UNDERWOOD

Heavy bearer of large, red, juicy, full flavored. Plums excellent quality. Early.

WANETA-P

The largest, most attractive and highest quality of the red Hardy American and Hybrid Plums. Vigorous, extra hardy and big cropper. Mid-season.

EMBER

The greatest of the new, extra hardy plums. The large fruit is golden yellow with red cheeks, juicy and unusually fine flavored. Trees are vigorous, hardy everywhere, heavy bearers, with crops starting the second year.

RED WING

An unusually large, dull red Plum developed in Minnesota. Flesh is rich yellow, firm, juicy and sweet. The skin can be removed easily and the pit is so free that the plum may be sliced like a peach. A fine home orchard variety for dessert or home canning. The tree is hardy and vigorous.

PLANT PLUMS THIS YEAR / PICK FRUIT NEXT YEAR

Hardy plums are one of the easiest fruits to grow. Big crops of luscious fruit to eat or can the second year after planting. Under our Nutrition Program it is recommended the average family have at least 25 quarts per year. They are fine for canning or plum butter.

Plums are very low in price in comparison with other fruit trees. Get your order in early though as stocks are limited and choose at least one good pollinator (marked P) in planting two or more varieties.

"BEST 10" Home Orchard

Selected by our customers and recommended by State Experiment Stations as being the 10 best varieties for the Home Orchard. Plenty of Apples, Cherries and Plums for eating, canning or jelly all season. See page 80 for description of varieties and sizes.

CHMIDT'S BIG. Favorite commercial Sweet Cherry East of Rockies. Fruit is large, deep red, excellent flavor.

LACK TARTARIAN. Very large, purplish-black cherries of finest flavor. Rich and juicy. Popular in the east.

ING. Unusually large, heart-shaped, dark maroon fruit that is extremely attractive for market. Flesh is firm and juicy, full of rich, delicious flavor. Vigorous grower. Ripens in late June.

ELLOW GLASS. Hardest of all sweet cherries. Golden Yellow fruit is juicy and well flavored. Recommended in localities where other sweet cherries will not bear fruit.

SOOR CHERRIES

These varieties are hardy anywhere and bear young. A big profit crop used for eating, canning, preserves and pies.

LARGE MONTMORENCY. Does well everywhere. Extra hardy. It bears large crops regularly ripening 10 days after Early Richmond. Very large fruit, firm flesh and finest flavor.

EARLY RICHMOND. The favorite early cherry. The fruit is bright red, juicy and of delicious flavor. Hardy, prolific grower and heavy producer.

ENGLISH MORELLO. Best late, dark red, hardy cherry. Low growing trees are always loaded with large, juicy, well flavored, tart cherries. Later than Montmorency.

We are pleased to quote wholesale prices on request to Nursery dealers or orchardists. Send us your variety list and quantities desired.
